REPUBLI'AN STATE TICKET.

FOR SUPREME JUDGE, Hon. HENRY W. WILLIAMS, OF PITTSBURG.

REPUBLICAN COUNTY TICKET.

Capt. JAMES M. WELCH, of Pike. SAMPSON B. LINGLE, of Goshen. ARTHUR BELL, of Bell. JOHN H. FULFORD, of Olearfield. FOR COMMISSIONER. DAVID DRESSLER, of Union. OR JURY CONMISSIONER. JAMES GLENN, of Ferguson. OR AUDITOR JAMES IRWIN. Sr., of Lawrence. WILLIAM R. BROWN, of Clearfield.

A Last Word.

As this is the last issue, of the Journal, before the election, we would once more urge upon our friends the importance of the election on Tuesday next. We have no doubt whatever that the national credit will not be as to the result, but at the same time we destroyed, and every commercial and indusdeem it as absolutely necessary that we trial interest jeopardized by downright re should poll every vote possible-remember- | pudiation. ing, that the greater the majority, the greater the victory. Then, Republicans! friends of the Union, go to work at once, and work where. And, the Telegraph says, it has diligently until the close of the polls on the every reason to know that its circulation in eve of the 8th of October. Let every man | Harrisburg, and elsewhere in Pennsylvania, visit his neighbor and urge him to go to the election and cast his vote for Henry W. Williams, and the whole ticket. Our opponents feel and know that certain and overwhelming defeat awaits them if we poll perhead party in Pennsylvania are in favor our strength, and hence they have resorted of repudiating the national debt, as the most to strategy to deceive you. They, apparently, are making no effort to bring out their Voters of Clearfield county ! remember vote; but, all the while, they are working these facts on Tuesday next, and vote for wertly and will have out their full force. Henry W. Williams, as the only way to They have also resorted to their old game frustrate the designs of Copperheads and of brag, to discourage you. But don't be Rebels. intimidated by their bragging and boasting. They can only boast of their strength, and abuse the "nig er"-not having another subject with which to regale their deluded followers. But, as Republicans, we are contending for principles. We are contending for the old flag of our fathers-for the permanency of the Union-for the supremacy of the Constitution-for the justice of the cause in which our brave soldiers sacrificed life-for the credit of the Government-for the legality of the greenbacks and bonds-for the pensions of the widows and orphans of our heroic dead-for the pensions of our maimed and crippled soldiers-against the repudiation of our national debt-against the payment of the rebel debt-against restoring traitors to power in our national councils-against according to rebels equality with loyal menand against the usurpations of a recreant President. Such are the principles for which Republicans are contending, and every vote cast for Henry W. Williams, for Supreme Judge, on October 8th, is a great force for good added to the permanence and usefulness of the Union. This being the fact, are you prepared to absent yourselves from the polis? Are you willing to jeopardize all that is near and dear to freemen by remaining at home? Are you ready to assume the responsibility of the evil that must necessarily follow the placing of power in the hands of rebels and their northern allies? Nay ! A thousand times, NAY ! Then, go to the polls like a freeman, and exercise a freeman's rights ! Deposit your ballot for the candidates of the party who saved the country from destruction by traitors, and upheld the heroes of the Union-vote for from the financial dificulties of the war, Henry W. Williams. This is your privilege. This is your duty. And the best and dearest interests of the country require you to discharge that duty. Will you do it? Every patriot will answer, yea ! monetary revolutions, "peace ! be still.

Manner of Voting.

It is not yet forgotten that Copperhead

leaders encouraged and promoted desertion

and expressed the wish that the Union sol-

diers going South might not return alive.

The Union soldier who votes for a Copper-

head candidate for office, votes to sustain a

man who hoped that his (the soldier's)

to-day. Soldiers, remember this.

Repudiation Their Object. We have already referred to the Copper-

head scheme of "paying the public debt in greenbacks," showing that its tendency was directly prejudicial to the national credit and destructive of all business and stability. Our definition of this proposition was of and exclusively local. But they are not excourse rejected by the party leaders hereabouts, but it was accurate nevertheless. Here is what the La Crosse Democrat, a genuine, orthodox, Copperhead journal, edited by the notorious "Brick" Pomeroy, and largely read in this county, says upon the only tells on the election of Judge, of Senapoint :

"Repudiation of the National Bank swindle is sure to come, and that quickly. Better now than after we have paid taxes for one or a dozen years. The idea of calling in the bonds, and substituting greenbacks for them, is repudiation, but sugar-coated to found interest by the people of other States. relieve the bitterness. It is the tinder-or the tender.

"Call in the bonds.

"Issue interest-bearing greenbacks for them-dollar for dollar.

"As interest accrues, issue scrip, and scrip upon scrip, till those who want paper money can buy a trunk full for a dollar.

"Pay neither principal nor interest in coin, but in greenback, or 'red back' scrip. Employ presses and paper mills, and run them eternally, the workmen to be paid at night with the stuff they printed during the day

"Call it what you will-sugar-coat it as you may-it is repudiation, and to this is the Democratic party . . . already pledged, and no man can, after this year, be elected to Congress or the Presidency who is not pledged for repudiation, and who is not brave enough and true enough to stand there, a faithful guardian for those who have no friends at court or in power."

Here is an expression of the real, honest sentiment of the Copperhead party, and we submit that it behooves all loyal men to be careful how they entrust power in the hands of a party entertaining such views and contemplating objects so infamous. Let the Copperhead influence become dominant in the nation, and there will be no security

The La Crosse Democrat is an acknowl edged organ of the Copperhead party, everyhas been encouraged for party purposes by Mr. Wallace, the Chairman of the Copperhead State Central Committee. What then is the inference? It is plain that the Copeffectual means of destroying the Union!

The Pennsylvania Election.

The country is so deeply affected with the competitive spirit-in other words, with a ling condition of affairs in Maryland, well fondness of seeing contests-that the Pennsylvania election would be an object of general interest, even if the issues were purely clusively local. No State politics at the present time are entirely dissevered from National politics. And every Republican should arouse himself and go to the polls, with the consciousness that his ballot not

but also expresses his will, as he has expressof the Union. The election in this Keystone State is, therefore, regarded with proenlist the warm and energetic efforts of eve-

ry Republican.

Let us give our readers a view of the approaching election, as taken from the unre- his policy; that he will resist the action of constructed rebel stand point. From a pa- Congress, and if needs be disperse the per that fairly represents, as it did during members thereof as a revolutionary and ilthe rebellion, the unaitered sentiment of se- legally organized body. The Washington cessionists, we take and present the following Chronicle shows that the Maryland Militia extract :

"The contest in Pennsylvania will decide he question of party supremacy in the North, and upon that decision depends the ate of the South.' If the revolutionary and acobinical party shall be thrust under foot by the conservatives and intelligent masses North, the country will be saved. If not, he future is appalling. Let the issue at the ballot-box be against Radicalism, and we may kick the blusterers who prate about impeachment now. It is only because they think they are strong before the people of the North that they keep up their bluster. Their cowardly souls will sink within them when they find that they have over-rated their strength."-Richmond Enquirer, September 21.

That is the way it looks from that quarter. It shows that the Republicans have to beat three parties in the coming elections-the Democrats who have the voting to do, the "individual" whose impeachment has been talked of and whose patronage is diligently

sought, for effect on the election, and lastly the rebels who growl and show their teeth from their closed kennel door and threaten to bite and tear as soon as they get the chance. The above extract is a good campaign document, and as such we give it a place in our columns. We hope especially that the threatened kicking, conditioned on their success, may be properly appreciated. It seems to be particularly designed for the "cowardly souls" who whipped the rebels in their present subjection.

There can be no doubt that from the Presidential mansion anxious eyes are turned toward Pennsylvania and Ohio at th present time. Democratic embasssies are hurrying to the White house invoking the

The Armed Traitors of Maryland.

The Washington. Chronicle reveals a startcalculated to arouse the serious apprehension of every lover of the country for its future peace. There is no denying the fact that the rebels of Maryland, including hundreds of vagabonds from Virginia and the Carolinas, who once served in the rebel armies, are now being organized into what is called a Maryland State Militia for no other purpose than that of backing Andrew Johnson in a treasonable plot to prevent the tor, of Assemblymen and of country officers, re-assembling of Congress. Special telegraphic dispatches from Washington inform ed it for years past, on the great questions the public that Andrew Johnson would await the result of the elections on the 8th of October before proceeding to further action on the subject of reconstruction. If

This furnishes good reason why it should Pennsylvania and the other States which elect on the 8th of October give Copperhead majorities, Mr. Johnson declares he

will accept the result as an endorsement of is composed of rebels, and proves that there

is no doubt Gov. Swann intends to place this military force at the disposal of the President in preventing Congress to re-assemble. These are grave and startling facts. We ask the people of Pennsylvania to ponder them well. The element which Mr. Johnson now aims at using to prevent the assembling of Congress is composed of the same men who waited in the city of Baltimore to assassinate Abraham Lincoln, while on his way to Washington to be inaugurated President for the first term-the same men who assailed the volunteers of Pennsylvania and Massachsetts when they marched through Baltimore to the defense of the national capital. Prompt action at the ballotbox in Pennsylvania may render it unnecessary for our fellow citizens to march again through Baltimore to the defense of the national capital against the assaults of traitors. This is a serious fact. We urge it home on the attention of every voter in the State. Andrew Johnson himself has declared that Republican majorities only can deter him from resisting the representatives of the people from assembling, and prevent him from destroying the people's government.

A Grand Swindle.

The Democratic party promise if they get into power, they will first pay off the Government bonds in greenkacks, and then repeal the law making greenkacks legal tenders, which they contend is unconstitutional. This is the grandest swindle over attemp ted by any party on the people of the country, and no other party would be corrupt enough to practice it. Holders of Government bonds would do well to consider this subject. A vote for a Democratic candidate for any office is a voice in favor of repudiation-and repudiation means general bankruptcy, misery and destruction of busi-

Communication.

TO THE SCHOOL DIRECTORS, TEACHERS deem it my duty, to the county, to expose the unfair and illegal manner in which the Committee, appointed last January, by the Directors' Convention, to examine common school Text Books, and report a uniform series, performed that duty. The Committee consisted of two ladies and three men, who met in Clearfield, on Sept. 21st, with the understanding that when any three members voted for the same text book it should be the book adopted.

This rule held good, in all but three cases, as follows :

When the Chairman called for the vote on Peumanship, three voted for Potter & Hammond's, and two for Payson, Dunton & Scribner's. A certain member of the Committee was not satisfied with this vote, and did not give up until one of the majority concluded to settle it by changing to the minority; and the dissatisfied and defeated member, constituting one of the minority, ruled the Committee.

When the Chairman called for vote on Readers, three voted for Hillard's, and two for Parker & Watson's. This vote was opposed by the same member, who was not willing to be ruled by the majority on Penmanship, and complained until a member was induced, by some unfair means, or other, to change and vote to satisfy this obstinate and selfish member.

And, when the vote on Arithmetic was taken, three voted for Stoddard's and two for Brooks. On this, the member wio caused the difficulty in the above cases, was in the minority, and would not be governed ecordingly.

The two members who voted for Brooks' eknowledged that it was not on account of any merit in the work; and they confessed that it was not the best Arithmetic they had examined, and had no objections to Stoddard's work. So, there was not a single vote cast in favor of Brooks, for any other than private personal reasons. And must the interests of the county be sacrificed to gratify the pleasure of one or two individuals? I hope our county is more alive to its interests than to allow such a thing to

Allow me to say, in conclusion, that I hope the Directors will inquire into this matter, and, when found to be as above stated, appoint a Committee composed of seven directors, selected from seven districts, no two of which shall lie contiguous to each other, whose duty it shall be to examine Books for adoption in common schools, and recommend a uniform series, composed of the most suitable books for the schools in the county. Most respectfully, ALFRED SHAW.

Member of Com. on Ex. of Text Books.

A Democratic journal remarks that "the Republicans attribute the losses to their 'party in Maine to increased love of whiskey; 'we rather deem it an increased love of 'Democratic principles.'' Here is a disinction without a difference; for we all know that-as the market reporters saywhen whiskey is easy Democracy is firm, and when rum is quoted free the voters for that faith are tight and in good demand.

Cur National Credit.

Suppose the people of Pennsylvania should elect Judge Sharswood. Would it not be held as an endorsement of his opin ion that greenbacks are not legal tender? With this precedent before it, would not the Supreme Court, as now constituted, be likely to decide accordingly? How then is the poor man, the merchant, the manufacturer, to pay his debts? The thousands of men, in this State, who have homes partly paid for, would find it inconvenient, if not impossible, to complete their payment in gold. The capitalists who hold the liabilities of the laboring masses, would have it in their power to sweep, into their coffers, title deeds instead of the dishonored greenbacks. An inflated currency is an evil inseparable from the gigantic war forced upon us by the democratic party, which now cries out against the currency. The debts contracted under that system must be paid under it, or financial ruin ensues. The rich are made richer. The poor robbed. It is quixotic to talk of Judges having no political opinions. Even if they had none, they are nominated or supported as the representatives of political opinions. Their election or defeat is an endorsement or repudiation of such opinions. Judge Sharswood represents discredit to our national currency. Judge Williams represents the maintenance of our national credit, the unity of our national faith, and a steady perseverance in the course which brought national victory after years of open conflict with that class of men who are now seeking to subvert that victory by the election of his opponent. As we are gradually and steadily recovering without a crash or crisis, let us keep quietly and steadily on, and by an overwhelming majority for the man who represents this policy, say to agitators and stirrers up of

Last Cards.

But two tickets are to be voted this fall. We would caution our friends throughout One is headed "Judiciary." and the other the county, against last cards, deceptive "County." We from going to the polls. Let all beware of hope our friends will remember this fact. the tricks of the enemy, and go and vote on Tuesday next.

You can't condemn rebellion and treason by voting Copperhead tickets, because the leaders of that party bred the one and justified the other, and until rebellion and treason are condemned as signally at the ballotbox as they were defeated on the battlefield, the Union will have no permanence and the Government will not be safe. The bones might be bleaching in a Southern sun republic can only live in the triumph of the Republican party.

aid of the President in the Pennsylvania election, and only receiving the small moiety of encouragement that they can extract from his sorrowful, "O, that I could help you !" The present lull in Mr. Johnson's activity is to be attributed to his fears of the approaching election.

Should Republicans allow themselves to be beaten. "fantastic tricks" of revolution and usurpation may be expected. On the contrary their success will produce the 'great calm'' for which every good citizen so earnestly longs. Let every one, then, bestir himself, to beat, so that they will understand what it means, the three-ply party with which the interests of the Union are confronted. The kicking that they in. solently threaten is the smallest part of the mischief that would ensue, should traitors, recreants and Democaats gain a victory in the Pennsylvania election.

To be Carried by Fraud.

It has transpired that, some ten days since, a large delegation of Copperhead leaders from Penusylvania, among them the Chairman of their State Committee, visited Washington, and had an interview with President Johnson and others, as to the best mode to carry the State-that it was agreed upon to fill the Philadelphia Navy Yards with Copperheads from Maryland, Delaware and New York, prior to the election, and Then, to the polls! Without fail, to the thus carry the city by illegal votes-and that polls !! the office-holders should be called upon to pay their share of the expenses of this rascally colonization scheme. That thousands of illegal voters will be packed into the Navy Yards, under this arrangement, there is no doubt. But, notwithstanding this game of fraud, to defeat the will of the people of Pennsylvania, we have no fears of the result of the election. All that is necessary, is for the friends of the Union to go to the polls and vote, and we can carry the State in spite of Andrew Johnson, his semi-rebel officials, illegal voters, bounty jumpers, army deserters, Copperheads and all. Then, Republi-

Voters Remember !

That during the last year the first of Gov-Geary's term, the State debt has been reduced one million seven hundred and ninety-four thousand six hundred and forty-four Dollars and fifty cents! (\$1,794,644.50!) Further remember, that since the State has been under Republican rule, embracing the period and great cost of the war, the State Debt has been reduced nearly or quite ten millions of dollars. Also remember, that while the State was in the hands of the Copperheads, the State Debt was each year steadily increased, until it run up to over forty millions of dollars. These are facts which cannot be controverted.

The Montana Election.

The splendid Democratic victory over which the party has been exulting for some time past, is dwindling down to little or nothing. The actual returns shows that the result is doubtful at the very worst for the Republicans. Madison county, in which Virginia City is situated, gave McLean, Copperhead, 533 majority in 1865. It gave Saunders, Republican, 200 majority at the late election. Jefferson connty, which the Cops carried in 1865 by eleven majority, gives Saunders, Republican, 98 majority this year.

To the Polls ! To the Polls !!

Remember, Republicans, that Tuesday next is the day of election. Remember. that unless you go to the polls and deposit your ballots that every such neglect is a loss of one vote. Remember, that your votes are required to elect our candidate and make up his majority. Remember, that it is your duty to vote, and that your country's welfare demands that you perform that duty.

Work ! Republicans, Work !! From all parts of the State we have the most cheering news of the favorable progress of the campaign. Our friends are alive to the perils of the country, and are working faithfully and incessantly everywhere. That we will poll a larger vote than we did for Gov. Geary last year, whose majority was some seventeen thousand, is generally conceded. All that is required is work. Then, work ! Republicans, work !

Trading Votes.

Republicans! Be on your guard, and don't suffer yourselves to be entrapped into the old game of trading votes. Well could the Cops in this county afford to diminish their vote on some of the minor county offices if they could, by trading, induce you to vote for Sharswood. This is one of the ways in which they calculate to increase their vote, and defeat the Republican candidate for Supreme Judge. So, beware!

A Democratic paper says that the Radicals of the future will consist of niggers. Puritans, and Chinese. Well, that will be a re-union for the first time of the descendants of the three sons of Noah-Shem, Ham and Japheth-foreshadowing the

It is said that A. J. will soon issue a pardon to all the Union soldiers who participa-ted in the war to crush the rebellion. If he issues this proclamation before the 8th of October, it will so incense the Cops of this State that no more than one third of them will go to the polls. We, therefore, hope the President will defer this act, as we desire to whip the entire faction of Copperheads.

During the war to crush rebellion, Judge Sharswood never uttered a word approving of the plans of the Government to save its life, or of the efforts of loyal men to crush treason ! Sharswood is now a candidate for the highest honor in the bestowal of the people of Pennsylvania. What right has he to the support of loyal men?

Those opposed to a re-levy of the tax on real estate, which is always paid by the mechanic and workingman tenant, will vote a Republican ticket. The Republican party repealed this tax. The Copperhead party is determined to put it on again, if only to show their violent hate of Republican retorm and retrenchment.

Late discoveries show that Nashville, Tennessee, was the site of a populous city in the long ages gone by. A vast catacomb in which thousands of deal were enclosed in tombs of flat rock artificially joined, has been partially explored ; these remains it is thought must have been buried six or seven hundred years ago.

A St. Louis lot owner, finding his taxes onerous drew a plan of a block of cheap houses, formed a company with a stone ma son, a brick layer, a carpenter, a plasterer and painter. They put up the block and divided it, so that it was a profitable investment to each, and a permanent improvement to the city.

Those opposed to an increase of the State debt and in favor of the steady reduction of the same now being made by the Geary administration, will vote to keep the Republican party in power.
