WHERE IT WOULD GO .- The Seymourn ers ask where the public money went. It is not difficult to tell where it would go if they had the power. It would go to pay the rebel debt, to compensate rebel sacrifices to destroy the Government, to pay pensions to rebel soldiers, and their widows and orphans. It would go, where it went before when they had the power, into the pockets of such Democratic thieves as Floyd and Cobb, et id genus omne.

MAGNANIMITY.-Gen. Grant has recom mended to the President the remission of the remainder of the sentences and the release of all persons now in confinement under the sentence of military commissions organized under the Reconstruction Acts. This shows the magnanimity of the man. While his enemies and the enemies of the nation are spouting treason and threatening revolution, he shows that in his mind there is no malice to those whom he regards as mistaken in their policy.

Gold on the Rise.

On the day the Rebel Convention assembled in New York, Gold was onoted at 1.403. In one month after the promulgation of their ticket and repudiation platform and the utterances of Hampden, Forrest. Vance and Toombs in support of them, gold has gone up to 1.491! Just as during the war, rebel excesses and temporary victories put up gold and depreciated Government securities, so now, rebel repudiation platforms and threats of a new rebellion have a similar effect. It is easy to find fault with Congress and the Republican party for the manner in which the war was conducted and the states reconstructed, but it is not so easy to demonstrate how the nation is to be delivered from the evils brought upon it by the

Democratic rebellion, and restored to a condition of perfect and enduring peace and pros perity. Mr. Seymour can pick flaws, but why does he not propose a remedy ? He offers no solution of the financial problem, and no plan by which the Southern states can be reconstructed. He says "vote the Democratic ticket-elect me to the Presidency," and then what ?
