By Rev. Hayes, in the Baptist Church, in the morning.

For a neat and nice fitting Hat or Cap—cheapest in town—go to the Banner Hat Store of J. C. Lightcap & Son, Market St., Clearfield—all styles and colors.

RAFTING.—Owing to the cold and stormy weather that prevailed in this region for some days, rafting was very much retarded. But now, that pleasant weather again prevails we may expect that running will be resumed with renewed vigor.

TO KEEP CLEAR OF BED BUGS.—Take the whites of four eggs and ten cents worth of quicksilver: put them in a bowl and beat to a perfect froth. Take a feather and dip into the preparation and apply to every part of your bedstead where bugs conceal themselves; do this once a year, and you will never see a bed bug in your house.

FATAL ACCIDENTS.—During the last two weeks in March, no less than three men were killed, while engaged in driving logs in the Sinnemahoning and its tributaries, in this and adjoining counties. Several others have also been seriously injured. We have not learned the names of the killed nor wounded.

SALT YOUR CHIMNEYS.—In building a chimney, put a quantity of salt into the mortar with which the intercourses of brick are to be laid. The effect will be that there never will be any accumulation of soot in that chimney. The philosophy is thus stated: The salt in the portion of mortar which is exposed absorbs moisture from the atmosphere every damp day. The soot, thus becoming damp, falls down in the fire place.

SELECT SCHOOLS.—A Select School has been established in the upper end of Bell tp, by Prof. Smith; Luthersburg, by Prof. W. Cornell; Curwensville, by Prof. W. Cook; Lumber City, by F. E. Rafferty; Pleasant Hill, by E. E. Hutton. Said schools to open the 3rd or 10th of May. A number of similar schools are to be established at other points of the county, during the early part of the summer. The County Normal, which has wrought such a powerful influence for good, we presume will be re-opened about the 1st of June.

WE HAVE GOT IT.—We understand that some enterprising Yankee, Frenchman, or somebody else, made his appearance in our town, on Monday last, with *four* veritable Velocipedes." Whether he will receive sufficient encouragement from the "B'hoys" in this place, to pay him for his trip hither, remains to be demonstrated. From the accounts given in the papers, we would infer that it is much less labor "to walk up hill and foot it down," than to ride on one of these new-fangled "animules." But, if the "young'ucs" feel inclined to "back" one, we shust let 'em rip."

THE LITTLE ONES.—Do you ever think how much a little child does in a day? How from sunrise to sunset the dear little feet patter around—to us—so aimlessly, climbing up here, kneeling down there, running to another place, but never still. Twisting and turning, rolling and reaching, and doubling, as if testing every bone and muscle for their future uses. It is very curious to watch it. One who does so will understand the deep breathing of the rosy little sleeper, as with one arm tossed over its curly head, it prepares for the next day's gymnastics. A busy creature is a little child.

WHERE THEY GO.—The other day, says an exchange, a lady called at the house of a friend and seeing a couple of not large pin cushions lying upon a table which, on inquiry, she found had been in use for years, suggested to the lady of the house that it would be a good idea to rip them open and get the needles. At this the lady laughed and replied that she thought it would hardly pay; but upon the other insisting that she would find as many as 300, the experiment was finally tried, when, to the astonishment of all, 1500 needles were counted out! We don't charge the ladies anything for this bit of information.

APROPOS.—For some days, during the past week, the impression was prevalent that Spring had donned her sunny attire in earnest, for the season, and all nature were glad in anticipation of the near approach and presence that Dame Nature would present. But, vain are the calculations of man. Mortal optics have in many instances been the subjects of delusions and illusions, so now. On Monday night Winter again presumed to hie from his retreat, and on Tuesday morning to obscure the feeble vision of Dame Nature by flinging a bridal veil of white over her, while he would sport and flirt with the lovely, fair, innocent and blushing young Miss Spring. The impertinent chap! But a just retribution has been heaped upon his indiscretions. Sage and Old Sol speedily came to the relief of their fair mate twain. He soon freed Dame Nature from the flimsy veil that had been so rudely cast over her, and relieved her blushing from the sudden and indiscreet act by which she was so unwittingly exposed, while he banished the cause of the cooked for troubles to his cold and cheerless chambers in the north—and now, we hope, all parties are moving in their accustomed spheres to fulfil the several destinies appointed them.

HOUSE BURNED.—A correspondent informs us that, on Sunday morning, April 4th, the house of Andrew Wilson, of Brady township, was entirely consumed by fire. The fire originated at a flue. Most of the furniture and house effects were saved.

A BOOM.—We learn from the Eau Claire (Wisconsin) *Free Press*, of March 25th, that our enterprising friend, and former citizen of this county, James P. Nelson, Esq., has been successful in obtaining from the Wisconsin Legislature a charter, granting to Nelson, Hunter & Co., the right to construct a boom or booms 3½ miles in length, in the Chippeway river in that State. We wish our friend Nelson abundant success in his new enterprise, in the home of his adoption.

A NEW DRESS.—The Pittsburg *Chronicle* came to us, last week, in an entire new dress, looking fresh and beautiful as spring. Under management of SIEBNECK & COLLINS, the *Chronicle* has achieved proud distinction as a literary and high toned daily newspaper, and this new evidence of prosperity assures us that their efforts to furnish a first class journal continues to be appreciated by the community. We wish the publishers all the success their energy and enterprise merit.

CHURCH MEETING.—A meeting of the Presbyterian Congregation, of Clearfield and vicinity, will be held in the Baptist Church, on Saturday next, (April 11,) at 5 o'clock, P. M., for the purpose of acting on the report of the Committee, heretofore appointed to select a proper person to fill the office of Pastor to the congregation. The committee have agreed upon a person, whose name they will present, and it is desirable that the meeting should be as full as practicable. A. M. HILLS, Ch. Com.

Scales should be used in every house and Barn, the proverb says: deliver all things by measure and weight, and it ought to be heeded. Have *Fairbanks Standard Scales* in the kitchen and prove which grocery man gives weight and buy of him. Weigh butter and every thing sold, and not mistrust that you are cheated. Have a *Fairbank* in the barn and weigh the pigs and Stock and Grain and Fertilizers and thus know what is paying and what is not paying. If a man has consulted his unerring Fairbank, he knows when the right price is offered, according to the the rates quoted in his last weeks paper. The best evidence of the perfectness of a Fairbanks Scale is the fact they have taken more first premiums at State and National fairs than all others combined and that their Scales are constantly increasing and extending to all parts of the world. See card in another column.

A PLEASANT AFFAIR.—The following notice of the reception of Rev. A. W. Guyer and family, by the members of his present congregation, which we clip from the Altoona *Tribune* of March 31st, will be read with interest by the many friends of Mr. Guyer in this county: "A very pleasant affair, in the way of a 'reception' came off at the parsonage of the First M. E. Church, in this city, on Thursday evening last, (March 25th,) on the arrival of Rev. A. W. Guyer and family. For a day or two previous, the parsonage had been in the possession of a number of the lady members of the congregation, who had put down new carpets, fixed up old ones, renewed the window blinds, had the furniture refitted and painted, blacked the stoves, made up the beds and arranged everything in regular housekeeping style. On the evening named, a large company of ladies and gentlemen assembled at the parsonage, each one bringing a basket or sack of provisions, and the ladies proceeded to get up a supper. When the minister and his family arrived, they found the rooms filled with their friends, and received such a cordial greeting as must have made them feel happy. The greeting over, they were invited to a table, sumptuously spread, where, surrounded by their friends, they partook of their first repast in their new home. Again and again the table was spread until all present were served, and a full larder of provisions and groceries still remained for the future use of the family. All present enjoyed themselves, and went home feeling much better than had they permitted their minister and family to come among them without notice, or manifesting any concern for their comfort. Such action on the part of the congregation makes a minister at once feel at home among his people, and equally beneficial to all parties.

Wear your learning like your watch, in a private pocket, and don't pull it out to show that you have one; but if you are asked what o'clock it is, tell it. So if you are asked what the greatest tonic in the world is, you can with confidence say, the Zingari Bitters. It is recommended by some of the most eminent men in this country, as well as in Europe.

A SMALL-POX REMEDY.—The following remedy for small-pox from a correspondent of the Stockton (California) *Herald*, is at least worth a passing notice; and, if skillfully prepared and used, may indeed prove the "remedy" it professes to be: "I herewith append a recipe which has been used to my knowledge in hundreds of cases. It will prevent or cure the small-pox though the pittings are filled. When Jenner discovered cow-pox in England the world of science hurled an avalanche of fame upon his head; but when the most scientific school of medicine in the world—that of Paris—published this receipt as a panacea for small pox, it passed unheeded. It is unfailing as fate, and conquers in every instance. It is harmless when taken by a well person. It will also cure scarlet fever. Here is the receipt as I have used it, and cured my children of scarlet fever, here it is as I used it to cure the small-pox; when learned physicians said the patient must die, it cured: Sulphate of zinc, one grain; foxglove (digitalis,) one grain; half teaspoonful of sugar; mix with two tablespoonfuls of water. When thoroughly mixed, add four ounces of water. Take a spoonful every hour. Either disease will disappear in twelve hours. For a child, smaller doses according to the age. If countries would compel their physicians to use this there would be no use pesthouses. If you value advice and experience use this for that terrible disease."

DIED:

At the residence of John Dunlap, in Pike tp., on March 31st, 1868, Mrs. SUSAN MCKINLEY of Milesburg, Centre Co. Aged about 90 years. Bellefonte papers please copy.
