Progress of Economy.

The news from Washington indicates that the economising porcess is being applied with inexorable fidelity in the several departments of the General Government. Expenses are being cut down to the lowest notch as fast as they can be overhauled; and of countenance to the alleged movement for what ever appears to be unnecessary is re- Republicanizing the Alabama issue. On morselessly cut off. Such is the rule. Of the contrary, that proposition was denounccourse some things will be overlooked the ed in our own columns, upon the first telefirst time the ground is gone over: but we graphic intimation of it, and now, one after are assured the fixed intention is that not a another, the best journals of the State are dollar shall be paid out unnecessarily. The coming forward with the same expression of expense attending the collection of the in- disapproval. For example, the Philadelternal revenue is being overhauled. Each phia North American, a newspaper which officers expenses will be looked into, with the view of lopping off what can be industry, remarks that the "leaders" who dispensed with. With a vastarmy of Revenue officers, scattered all over the country, the aim in many instances being to pay off personal and party favorites, it is easy to see that this must be a field inviting the upon the point of withdrawing the vuestion pruning hook and the sickle. While the expenses are thus being cut down, increased faithfulness in collecting the revenue is telling on the receipts into the Treasury. And it is here that we find the explanation of the fact, that since the GRANT administration came in the National Debt has been reduced more than ticenty millions of dollars. Still the wheels have scarcely begun to revolve. Nevertheless the expenses of the government have been brought down to the rate of \$126,000,000 per annum, and this too, with the Indian question unsettled and extraordinarily expensive, and the South, by reason of its unsettled condition, making large drafts. Right here it will be well to recall to mind the assertion which the late Mr. Horatio SEYMOUR traveled through the country to reiterate, that the least we could expect would be \$300,000,000 annually. We yet expect to see the differ- If the administration and the party in power ence between the Seymour Romance and the Grant Reality not less than two hundred millions of dollars. And all this States are not ready to engage in any such without any fuss or parade. What kind of a President will Grant make? is thus being answered; and to the entire satisfaction of the people, too, we opine,

COMPOUNDING FELONIES. - The return of to one million dollars, to the Beneficial Savings Fund of Philadelphia, has suggested that the matter was compromised by the bank officers the detectives and the thieves. The Philadelphia Bulletia calls upon the not believe the thieves made restitution without some inducement being held out to it holds that the officers of the bank are guilty of two offenses-misusing the doposits and compounding a felony: if the detectives assisted in affecting the compromise they, too, are guilty of two crimesperjury, in violating their oaths to perform compounding a felony. It contends the Grand Jury has the power to investigate, and says: "The subject may properly receive its attention for this supposed partnership between the detectives and the thieves is working incalculable injury, by taking away that fear of retribution which should deter men from outlawry, and by placing a premium on crime, so that a thief knows that his immunity will be greater in precise proportion to the gigantic character of his offense." This practice of compromising great robberies is not confined to Philadel-

GOVERNOR GEARY. - We have full authority for saying, remarks the Daily Telegraph, that there is not a particle of truth in the recent dispatches from Washington announcing the appointment of Gov. Geary to the Secretaryship of the Navy; there was not the slightest foundation for them. beyond the mere rumor that Secretary Borie contemplated tendering his resignation, and the fact that Governor Geary, during a brief visit to Washington, called upon President Grant, between whom and himself there exists the most friendly relations, political and private. Gov. Geary is not an applicant to the President for any position and never has been. He is a candidate for renomination for the Chief Magistracy of Pennsylvania, a position which he has faithfully filled for nearly three years past-and which there is no doubt he will fill with equal ability and integrity for three years to come. At pres ent he has no ambition beyond this-and his laudable desire to serve the State will no doubt meet with a hearty response from the Republican State Convention, in the first place, and subsequently from the people of the State at the polls in October.

A FLATTERING RECOGNITION. -Gover nor Cartin is the recipient of many flattering attentions prior to his departure for Enrope. The citizens of Lock Haven, Bellefonce, and other places formally paid their respects to him last week; but the Recen tion at Independence Hall, and the Banquet at the Academy of Music, at the invitation of the City Councils of Philadelphia, on Saturday afternoon and evening, were proofs of affection which but few public men ever receive from their fellew citizens. The Banquet in particular was a brilliant affair, attended by many leading citizens of this and other States. The Governor's speech on the occasion, was a glowing tribute to our of the legality of the ratification of the Fif-State, and an appropriate farewell to his fel- teenth Amendment by the Legislature of disappeared from New York city within two tions were read. The Last Free-Trade Dodge.

If it be true, as stated in some quarters, that Republican politicians incline to engraft the Alabama questions among party issues, they will reckon without their host in counting upon the Republicans of Pennsylvania. But we doubt the truth of the statement to which we refer, says the Pittsburg Gazette. It bears the ear marks of an opposition scheme to embarrass the Republicans of this Sate, in their advocacy of other political issues. The story is industriously disseminated from Washington, for the evident purpose of damaging a favorite principle in this commonwealth-that of protection for American industry. For it is at once followed up with the flagrantly erroneous insinuation, in the New York Post, the leading free-trade organ of the foreign importers, that the scheme is wholly "a protectionist plot" to secure popular majorities by the help of a side-issue.

We have yet to see the first journal in this State, among those which have been ever known as consistent and sincere advocates of protection, which gives a shadow was never untrue to the interest of native could propose this new article in our political creed, must be few in number "and composed rather of those who would be, 'han of such as are leaders." And it adds. from diplomacy, that:

This will be the almost certain result if party is formed on the basis of demanding all of our claims from England without quification. We have great hopes that justice will yet be tendered us by that country and an absolute certainty that wise delay will win for us all we need to have without war. Of war we have had enough to satisfy the most belligerent and those who pay the piper; so that, unless those who propose to incorporate another "54 40 or fight" in the political platforms are favored with a special providence, their scheme is likely to fall through before it is matured. We want peace and business, and the country will ac cept another war only when its absolute necessity is proved.

The Wheeling Intelligencer says: A war of any magnitude with anybody, in our present financial condition, would lay still heavier burdens on the now heavily tax ed business interests of the country and could not fail to result in grave disasters. cannot maintain themselves without resort to such an expedient, they are very certain to go down. The people of the United folly. If leading Republicans cannot keep themselves in office except by such tricks as this, it is better they should be out of office We hope the administration does not countenance any such mad scheme as an English war of such tricks as putting the Republi can party on a war platform next fall.

Plainly, the allegation of the Post is a slander upon the protectionists of Pennsylvania, unless it be supported by the specific proofs which we have the right to ask for. Let the New York paper specify one representative man-not Butler, nor Chandler, Grand Jury, now in session, to investigate but leaders whom Republicanism every the matter, and while it does not a sert that where regards-whose adhesion to this new any crime has been committed it says it does | idea justifies its allegation of a "protectionist plot." Otherwise, the Post will be held responsible for fabricating a story which has them. If the case has been compromised just about as much real substance as free trade "arguments" and "facts" can generally boast of. In the meantime, let us say that neither the N. Y. Post por its "Re publican leaders" can find ten intelligent men in Western Pennsylvania, who would sustain the incorporation of that dodge into their daty faithfully, and participating in our political creed. The free traders, and their European friends, may keep it all to

> REMINISCENCE OF A MURDERED OFFI-TAL .- Hon, James L. Collins, United States Designated Depository at Santa Fe. N. M., was shot through the heart on the night of the 5th of June, and the Depository robbed of \$200,000. Hon, James L. Collins was a man of personal bravery, and passed through the Mexican war and the war of the rebellion with the commendation of all who knew him. He was of marked assistance to Col. Doniphan, who reached General Taylor after the battle of Buena Vista with the Missouri volunteers. The frontier experiences of Col. Collins was of great utility to the Indian service-for he was Superintendent of Indian Affairs when that office was separated from the Executive of the Territory of New Mexico in 1856. He was designated Depository, June. 1866. - Cincinnati Times.

MONTGOMERY COUNTY-A QUESTION.-The Lehigh Register of June 9th says: The indictments against the election officers in Montgomery for refusing the votes of those offering Snowden papers, were settled by entering a nolle prosequi on each bill. The question now arises who shall pay the costs of the Commonwealth in subporning witesses, mileage fees, &c. The defendants are not liable, for they are acquitted. The prosecutors decline the honor, and the county commissioners positively refuse. To test the question of liability suit has been bro't against the county by the officers serving subpænas. Heretofore the practice has been for the clerk to tax the bills and the commissioners paid them. The question is a enrious one.

AID FOR CUBA. - One of the members of the Cuba Ladies' Relief Association in New York has received from Havana about \$20. 000 worth of magnificent jewelry-dismonds. ubies, emeralds, &c .- the personal contributions of patriotic lacies in Havana to the cause of Cuban independence. Among them were several tiny sets of jewelry worn by children, which had been contributed in aid of the patriots. These articles are to be sold at a fair to be given by the ladies of the Association, to be held in New York some time next month.

AN IMPORTANT DISCOVERY. -The recent liscovery of a vein of pure anthracite coal nine feet in thickness is causing consideraspeculative excitement at Buffalo Gap. Va. and along the line of the Chesapeake and Ohio Railroad. It has long been known that inexhaustible deposits of iron ore existed in this region; but they were only worked very slightly before the war, on recount of the scarcity of the proper fuel. This discovery of anthracite within a half mile of the great line of railway which will soon connect the Ohio with the James by the shortest route is a matter of the greatest interest to Washington, Richmond and Nortolk, all of which cities are obliged to draw upon Philadelphia for their supplies.

REENFORCEMENTS FOR CUBA.-It is highly probable that another expedition sailed from New York for Cuba, on Saturday a-week. At the headquarters of the Junta they made no secret of the fact that a clipper ship left that harbor about daybreak on Saturday morning with eight hundred and fifty men on board, who professed to be going on a fishing excursion, under command of Col. Wm. Hendney, of Cincinnati. The vessel cleared for San Francisco, and received the men from schooners in waiting near the light ship. Most of the troops are said to be from the West, and to have seen service under Sherman.

ELIZABETH CITY, N.C., June 5, 1869. EDITOR JOURNAL:-Thinking another letter from this place would not be devoid of interest, I write again. This city is beautifully located on the Posquotank river, an arm of Albemarle Sound. It has a magnificent harbor from which there is a brisk and rapidly growing shipping trade to all parts of the world. The city is surrounded by as beautiful a country as the sun shines upon. The people are open hearted and

hospitality is pre eminent among them. The corn is, some of it, nearly knee high and the cotton ready for working. Clover cutting has commenced and wheat harvest will begin in a few days. We have plenty of new potatoes and beans, and whortleberries are abundant. To day I ate the first ripe apple of the season grown here.

The land here is adapted for nearly all kinds of crops and is fertile and durable. Corn, potatoes, cotton, peas, grass, wheat, oats, all can be raised at great profit, and the facilities for market are superior to any country I ever knew. The price of land varies from \$10 to \$25 per acre according to the improvements. Before the war this same land varied at from \$20 to \$60.

Since the war we have had no newspaper here. Before there were two, at one time four. A paper is about to be started. Dr. John, late editor and publisher of the Columbia County Republican, at Bloomsburg, Pa., has arrived with new presses, types and fixtures and will issue the first number of the North Carolinian on the 1st of July. It will be the largest paper in the State and from the known ability of the Doctor I have no doubt it will be the ablest and best. Persons from the North wishing reliable news from this region would do well to subscribe for it. The price will be \$2 a year.

The Manufacturing, Loan and Trust Company open their Banking House on the 14th, and the North Carolina Land and Lumber Company will have their first mill running here by the 1st of October.

There are magnificent opportunities here for investments in land, lumber and town property. My advice to Northern men iscome and see this country, and do it before all these opportunities pass away.
