BUILDING Associations. - In nearly every paper we pick up, we see notices for the organization of Building Associations. Why not organize one in this place? Such an association would greatly advance the prosperity of Clearfield.

DEPARTED THIS LIFE. - From an obituary in the Philipsburg Journal, we learn that William Bagshaw, Esq., well known to many of our civizens, died at his residence at Tideswell. England, on the 21st of January, 1870, aged about eighty years.

Snow. - Sine our last issue, we have bad several light talls of snow, and in consequen e the roads have been in good hauling condition. Much of the timber which still remained in the forests has been conveyed to the streams, and the probability now is that a pretty full supply will reach the markets

Mr. George Wooden was also severely cut near the eye,

FAILURES.-We understand that several failures recently occurred in the East, result ing in a pretty heavy loss to some of the cites was much needed here at the present time. These failures will not, however, se riously embarrass any of our C carfield men.

EICHED BY A CODE,-We are informed that, on Thursday evening last, George Landberry, son of Benj. Lansberry of Bradhad township, was kicked on the forehead by a cob, which he was leading to water, resalling in a severe fracture of the skull The young amn is doing as well as could be

SERIOUS ACCIDENT.-We learn that, on Saturday last, Mr. W. H. Shirey, of Bradford township, met with a very serious and painful accident, while working at some spare timber, on Sanburn Run, Mr. S. acident. While thus engaged, another coming in contact with the other timber, caused a number of sticks to slide, and, befor Mr. S. could get out of the way, closcrushing the flesh loose from the bone. Mr. idary is a very distressing and painful one, and may prove to be of a more serious character than is anticipated.

GLASS SAND.—The Bellefonte National takes the Philipsburg Journal to task for noticing the existence of good glas sand in O Jane '66 MERRELL & BIGLER'S this county, and then adds "that Centre into glass." That's rather a questionable H sale at MERRELL & SIGLER'S and has the enterprise to manufactura it sand is pronounced by Pittsburg manufacturers, who have tried it, as being of a very white glass, and have expressed a willingness to take all the Clearfield sand that can be shipped thither. That this sand should out delay.

NOTICE.—All persons indebted to the subscriber, are requested to come and settle with out delay.

R. MOSSOP be manufactured into glass at home, instead of shipping it away, admits of no difference of opinion, and, we hope, the day is not disof opinion, and, we hope, the day is not distant when some of our citizens will be possessed of enterprise enough to establish a first class glass-works at this place.

No. 5 NASSAU STREET, NEW YORK,

The remarkable success which attended our negotiation of the Loans of the Central Pacific Railroad Company and the Western Pscific Railroad Company, and the popularity and credit which Loans have maintained in the markets both in thie country and Europe, have shown that the First Mortgage Bonds of wirely located and honorably managed Railroads are promptly recognized and readily taken as the most suitable, safe, and adventageous form of investment, yielding a more liberal income than can hereafter be derived from Government Bonds, and available to take their place.

Assured that, in the selection and negotiation of superior Railroad Loans, we are meeting a great public want, and rendering a valuable service-both to the holders of Capital and to those great National works of internal improvement whose intrinsic merit and substantial character entitle them to the use of Capital and the confidence of investors-we now offer with special confidence and satisfaction the
