

For the Farmer.

A NEW METHOD OF GRAFTING.—Mr Sullivan Hutchinson, of Bristol, in this State, has recently patented a process for making fruit trees from limbs. Mr Hutchinson claims that by this method such fruit-bearing limbs as may be conveniently spruced can be transformed into independent trees that will continue bearing from the first year, regularly, as before. The process is as follows: Into the limb which is intended for the future tree, small roots are grafted, or in some way inserted under the bark just above where the limb is to be severed. Such limbs are required to be from one to two inches in diameter. Below these roots the branch is girdled. A small box filled with earth is enclosed about the limb in a position to embrace these roots. During the summer these roots grow, and the connection is formed with the limb above. The following fall and box will be filled with roots, when the limb may be cut from the parent stock and set in the ground. It is claimed that the next year this new tree will bear fruit just as though it had not been severed from the original tree.

TO REJUVENATE OLD GRAPEVINES.—The editor of the Practical Farmer says: Having on our premises, planted by former owners, probably twenty years ago, half a dozen old grapevines, with large weather-beaten trunks or stems, which made annually but little new wood, and yielded but very few poor grapes, two seasons ago we cut off the branches, and laid the main stems down in trenches, covering with about a foot of earth. Vigorous and healthy shoots sprang up in great abundance, the weak ones of which were broken off, and leading ones, at a proper distance, trained to the arbor. The new growths are now clean, healthy and strong—sufficient entirely to cover the large arbor the present season; we now look for bushels of fruit from the new-leaving. We see old grapevines everywhere doing no good, and which could be made young and thrifty by this process.

CHECK REIN.—A good horseman will always drive with a tight rein—just so tight that the animal will feel a gentle pressure on the bit and if the check rein is not too tight, this is the best safeguard against stumbling. The carriagehorse is often cruelly punished by the unmerciful tightness of the check rein; his mouth becomes callous by the constant hard pressure of the bit, and loses its sensitiveness to the gentle pressure of the driving rein.

OFFICE OF FISK & HATCH, BANKERS AND DEALERS IN GOVERNMENT SECURITIES.

No. 5 NASSAU STREET, NEW YORK, FEBRUARY 15th, 1870.

The remarkable success which attended our organization of the Loans of the Central Pacific Railroad Company and the Western Pacific Railroad Company, and the popularity and credit which Loans have maintained in the markets both in this country and Europe, have shown that the First Mortgage Bonds of widely located and honorably managed Railroads are promptly recognized and readily taken as the most suitable, safe, and advantageous form of investment, yielding a more liberal income than can hereafter be derived from Government Bonds, and available to take their place.

Assured that, in the selection and negotiation of superior Railroad Loans, we are meeting a great public want, and rendering a valuable service both to the holders of Capital and to those great National works of internal improvement whose intrinsic merit and substantial character entitle them to the use of Capital and the confidence of investors—we now offer with special confidence and satisfaction the

FIRST MORTGAGE BONDS OF THE Chesapeake and Ohio Railroad Company.

The Chesapeake and Ohio Railroad, connecting the Atlantic coast and the magnificent harbors of the Chesapeake Bay with the Ohio River at a point of reliable navigation, and thus with the entire Railroad system and water transportation of the great West and Southwest, forms the additional East and West Trans Line, so imperatively demanded for the accommodation of the immense and rapidly growing transportation between the Atlantic seaboard and Europe, on the one hand, and the great producing regions of the Ohio and Mississippi Valleys on the other.

The importance of this Road as a new outlet from the West to the sea magnifies it into one of national consequence, and insures to it an extensive through traffic from the day of its completion; while, in the development of the extensive agricultural and mineral resources of Virginia and West Virginia, it possesses, along its own line, the elements of a large and profitable local business.

Thus the great interests both general and local which demand the completion of the Chesapeake and Ohio Railroad to the Ohio River afford the surest guarantee of its success and value, and render it the most important and substantial railroad enterprise now in progress in this country.

Its superiority as an East and West route, and the promise of an immense and profitable trade awaiting its completion, have drawn to it the attention and co-operation of prominent Capitalists and Railroad men of this City, of sound judgment and known integrity, whose connection with it, together with that of eminent citizens and business men of Virginia and West Virginia, insures an energetic, honorable, and successful management.

The Road is completed and in operation from Richmond to the celebrated White Sulphur Springs of West Virginia, 227 miles and there remains but 200 miles, now partially constructed, to be completed, to carry it to the proposed terminus on the Ohio river at or near the mouth of the Big Sandy River, 130 miles above Cincinnati and 350 miles below Pittsburg.

Lines are now projected or in progress through Ohio and Kentucky to this point, which will connect the Chesapeake and Ohio with the entire railroad system of the West and Southwest, and with the Pacific Railroad.

Its valuable franchises and superior advantages will place the Chesapeake and Ohio Railroad Company among the richest and most powerful and trustworthy corporations of the country; and there exists a present value, in completed road and work done, equal to the entire amount of the mortgage.

The details of the Loan have been arranged with special reference to the want of all classes of investors and combine the various features of convenience, safety, and protection against loss or fraud.

The Bonds are in denominations of \$1000, \$500 and \$100.

They will be issued as Coupon Bonds, payable to Bearer, and may be held in fact, which will entitle the Bond to be registered in the name of the owner, with the coupons remaining payable to bearer attached, the principal being then transferable only on the books of the Company, unless re-assigned to bearer; or the coupons may be detached and cancelled, the Bond made a permanent Registered Bond, transferable only on the Books of the Company, and the interest made payable only to the registered owner or his attorney.

The three classes will be known respectively as: 1. "Coupon Bonds payable to Bearer." 2. "Registered Bonds with Coupons attached." 3. "Registered Bonds with Coupons detached," and shall be so designated by correspondents in specifying the class of Bonds desired.

They have Thirty years to run from January 15, 1870, with interest at six per cent, per annum from November 1, 1869. Principal and interest payable in gold in the City of New York.

The interest is payable in May and November, that it may take the place of the interest of the issues of Five Percent, and suit the convenience of our friends who already hold Central and Western Pacific Bonds, with interest payable in January and July and who may desire in making additional investments, to have their interest receivable at different seasons of the year.

The Loan is secured by a mortgage upon the entire Line of Road from Richmond to the Ohio River, with the equipment and all other property and appurtenances connected therewith.

A Sinking Fund of \$100,000 per annum is provided for the redemption of the Bonds to take effect one year after the completion of the Road. The mortgage is for \$1,000,000, of which \$2,000,000 will be received and held in trust for the redemption of outstanding Bonds of the Virginia Central Railroad Company, now merged in the Chesapeake and Ohio.

Of the remaining \$1,000,000 a sufficient amount will be sold to complete the road to the Ohio river, perfect and improve the portion now in operation, and thoroughly equip the whole for a large and active traffic.

The present price is 90 and accrued interest. A Loan so easily secured, so carefully guarded, and so certain hereafter to command a prominent place among the favorite securities in the markets, both of this country and Europe, will be at once appreciated and quickly absorbed.

Very respectfully, FISK & HATCH, Bankers.

P. S.—We have issued pamphlets containing full particulars, statistical details, maps, etc., which will be furnished upon application. We buy and sell Government Bonds, and receive the accounts of Banks, Bankers, Corporations, and others, subject to check at sight, and allow interest on daily balances. March 2, 1870—3 m.

NEW STORE.

Corner of Second St. and Hill Road. R. MITCHELL—Has just received and opened, at the above named place, an entire new stock of Spring and Summer Goods, which he will sell very cheap for cash.

His stock consists of Dry Goods, Groceries, Hardware, Queensware, Boots and Shoes, Hats and Caps, Ready made Clothing, etc. He also keeps Choice Flour, Corn Meal, Chop feed, Bacon, Fish and dried Fruits.

Persons desirous of purchasing goods at fair rates are respectfully requested to give him a call. Approved country produce will be taken at the highest prices, in exchange for goods. Clearfield, June 17, 1868.

O, YES! O, YES!!

A GOOD FARM FOR SALE

Persons desirous of purchasing a farm, are directed to examine that valuable property in Lawrence township, and situate at the mouth of Clearfield creek—two miles East of the Borough of Clearfield, and convenient to schools and churches.

The property contains ONE HUNDRED AND TWENTY ACRES, part of which is improved and under a high state of cultivation—the whole being well fenced. Coal, iron ore, and other minerals are found on the same.

The buildings consist of a good TWO-STORY DWELLING HOUSE, 28 by 48 feet—a GOOD BARN, and other convenient outbuildings. And there is growing on the premises a young bearing orchard of choice fruit trees.

This property is very pleasantly situated and being at the confluence of the creek and the river, it is a very desirable and inviting residence for a private family. Its position on the creek and river also render it a good situation for a boarding house during the raising season.

The west and north sides of this property being bounded by the creek and river, make it one of the best raising grounds in this section, and as such yields a handsome revenue yearly.

The owner, Mr. M. A. Frank, having permanently settled in the west is the reason for disposing of this valuable property. For terms, etc., apply to S. J. ROW, Clearfield, Pa. October 4, 1869.

BARGAINS IN ALL KINDS OF GOODS AT THE MAMMOTH STORE OF J. A. BLATTENBERGER & CO., OSCEOLA, PA.
