

For the Farmer.

Trespassing upon Gardens and Orchards.

We have several times printed the Legislative enactment bearing upon the trespassers upon gardens and orchards, and we take occasion again calling attention to the subject, in order that all may be warned of the penalties incurred by pilfering of flowers, fruits, &c.

Let it be understood, therefore, that all persons offending are liable to arrest, by making complaint before an alderman or justice of the peace, and be held for trial. The testimony of the owner or occupant of the premises. Or, a civil action may be instituted against any person who may trespass upon and damage any garden, orchard or field of growing crops in any manner whatever, and judgment obtained for double the amount of damages proved to have been suffered, with costs of suit; and in default of payment the party may be committed to prison for not less than one or more than twenty days.

We trust that every offender will be promptly arrested and made suffer the penalty, without regard to person, age or sex; for it is only by this procedure that owners and occupants of premises will be enabled to protect their property—property as valuable as any other, and frequently prized even beyond its intrinsic value—against depredations of the most reckless description. The law now offers the necessary security, and hence it will in most cases be the fault of the owners if it is not put promptly into force.

We learn that wherever these offences have been criminally prosecuted it has had a most wholesome effect. A single arrest is all sufficient for one neighborhood. A jail is an ugly thing to contemplate—and a few days would probably scare out fruit and flowers stealing propensities for all time to come. Let the reckless take warning.—(Germanstown Telegraph.)

SALTING MILK COWS.—William Egger, a Swiss dairyman of experience, states the method practiced in Switzerland by the best stock keepers in salting stock. He says cows should be salted early every morning, and if they are fed in the stable the salt should be given before foddering. Salting in this way improves their appetite; they drink with more regularity, are kept in better health, and give more milk than when salted in the usual way as practiced by dairy-men in America. He thinks it very injurious to salt milk cows once or twice a week, as they will lie too much for the day. To have stock to do well, they must be fed with regularity, every day alike, and never given too much of anything at one time.

Dr. R. W. Carr, of Baltimore, says: I take pleasure in recommending your Rosadalis as a very powerful alterative. I have used it in two cases with happy results—one in a case of secondary syphilis in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of scrofulous long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Dr. Spinks, of Nicholasville, Ky., says he has used Rosadalis in cases of Scrofula and Secondary Syphilis with satisfactory results—as a cleanser of the Blood I know no better remedy. Samuel G. McFadden, Murfreesboro', Tenn., says: I have used seven bottles of Rosadalis and an entire cure of Rheumatism, send me four bottles, as I wish it for my brother, who has scrofulous sore eyes. Benjamin Bechtel, of Lima, Ohio, writes: I have suffered for twenty years with an inveterate eruption over my whole body; a short time since I purchased a bottle of Rosadalis and it effected a perfect cure. Laboratory, 61 Exchange Place, Baltimore.

CLEMENTS & CO., Proprietors. Rosadalis is sold by Hartzwick & Irwin and A. I. Shaw, Clearfield, D. R. Good, Ocochee, and by Druggists generally. [April 6, 70-ly]

LOAN

Chesapeake & Ohio R. R. Co. The advantages and attraction of this Loan for investment purposes, are many and important: 1. It is based upon one of the Great Through Lines between the Seaboard and the West. 2. The security is already created, the greater part of the line being in successful running operation. 3. The Local Traffic, from the unrivalled Agricultural regions and Iron and Coal Deposits adjacent, must be large and profitable. 4. The enterprise receives important concessions and privileges from the States of Virginia and West Virginia. 5. It is under the management of efficient and well-known capitalists, whose names are guarantees for its early completion and successful operation. 6. The Bonds can be had either in COUPON OR REGISTERED form; they have thirty years to run, both principal and interest being payable in gold. 7. They are of denominations of \$1,000, \$500 and \$100, bearing interest at the rate of six per cent in coin, payable May 1st and November 1st.

From our intimate acquaintance with the affairs and condition of the Company, we know these securities to be peculiarly desirable, and suitable for safe employment of surplus capital, and finding of Government Bonds, by Investors, Trustees of Estates, and others who prefer absolute security with reasonable income.

Holders of United States Five Twenties are enabled to procure these Bonds, bearing the same rate of interest and having a longer period to run and to realize a large increase of capital in addition.

Bonds and Stocks dealt in at the Stock Exchange, received in exchange for this Loan, at the full market value, and the bonds returned free of express charges.

Price 90 and accrued Interest in Currency.
