THE KIDNEYS.

The Kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz : the Anterior, the Interior, and the Exterior.

The anterior absorbs Interior consists of tis suce or voins, which serve as a deposit for the urine and convey it to the exterior. The exterier is a conductor also, terminating in a single tube, and called the Ureter. The ureters are connected with the bladder

The bladder is composed of various coverings or tissues, divided into parts, viz : the Upper, th Lower, the Nervour, and the Mucous. The upper expels. the lower retains. Many have a desire to urinate without the ability , others urinate without the ability to retain. This frequently occurs in children.

To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they ere neglected, Gravel or Dropsy may ensue.

The reader must also be made aware, that however slight may be the attack, it is sure to affecthe bodily health and mental powers, as our flesh and blood are supported from these sources.

GOUT, OR BREUNATION .- Pain occurring in the oins is indicative of the above diseases. They ecur in persons disposed to acid stomach and chalky convestions.

THE GEAVEL .- The gravel ensues from neglect er improper treatment of the kidneys These or gans being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.

DEOPSY is a collection of water in some parts of the body, and bears different names, according to the parts affected, via: when generally diffused. over the body, it is called Anasarca ; when of the Abdomon, Ascites; when of the chest, Hydrotho-

TREATMENT .- Heimbeld's highly concentrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysurie, or difficulty and pain in passing water, county Secretion, or small and frequent discharges of water; Strangary, or stopping of water; R mestic Bry Goods, Groceries, Flour, Bacon, Hematuria, or bloody arias : Gout and Rhouma -tism of the kidneys, without any change in quan-Liquors, &c. PHILADELPHIA, PA., Feb. 25, 1867. H. T. HELMBOLD. Druggist:

DEAR Sin :- I have been a sufferer, for upward of twenty years, with gravel, bladder and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent Physicians, experieneing but little relief

Having seen your preparations extensively advertised. I consulted with my family physician in regard to using your Extract Buchs.

I did this because I had used all kinds of advertired remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs and juniper berries. it occurred to me and my physician as an excellent combination, and. with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks was able to walk out. I felt much like writing you a full statement of my case at that time, but thought my improvement might only be temperary, and therefore concluded to

defer and see if it would effect a perfect eure. knowing then is would be of greater value to you and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and himselt that he can render satisfaction. Deeds of conveyance, articles of agreement, and all legal papers promptly and neatly executed je876-yp feel as well in all respects as I over did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tenic and invigorator of the system. I do not mean to be without it whenever occasion may require its use in such affections. M McCOKMICK
