Gold having been discovered in Madagascar, the Government of the island has prohibited the search for ore. The reason for this prohibition is, that if gold is found in remunerative quantities, there will be such a rush of Europeans to the country as will dispossess the native inhabitants.

There are so many unforeseen difficulties arising in the rural internal revenue districts

in the Democrats as protectionists.

There is no truth in the report that the United States has been invited to join a Congress of the Great Powers to effect an amicable settlement of the existing difficulties, and even if an invitation should be extended, our Government would not accept it, as we have never interfered in European polities, and it is against the policy of the administration now to do it.

It is said that under instructions of the Internal Revenue Bureau, all persons are required to report to the Assessors and their Assistants, the amount of distilled liquors they have on hand. Some wag says this re quirement is not confined to distillers and dealers alone, but extends to that "in the be rather hard on the Democracy.

Speaker White, of the Senate, has issued his writ for an election in the First Senatorial Distsict, to fill the vacancy created by the death of Mr. Watt. The 20th day of December is the time fixed for the holding of the election. Already the report comes from Philadelphia, that the Democracy are engaged in arrangements to carry the district by frauds, if possible. A full Republican vote, and active vigilance to prevent trauds, will insure a Republican victory.

The Democracy are unfortunate. They cannot muster a single principle which is thought that free trade was such a princiing as to range the entire Democratic delegation in Congress in support of the so called revenue reform movement. The truth is that the more thoughtful and the really solid portion of the Democracy are protectionists. It is unfortunate to divide the party best fraction on the right side.

Bolting is simply the resort of indolence and apathy, the apology for indifference or the excuse for political courage it is simply to put a premium on mutiny, and to pave the way to the wanton and unrebuked destruction of candidates."

Political Items.

Sumpter, South Carolina, at the recent election, polled 3,500 votes, and gave a Republican majority of 3,000. Beauregard hould at once be sent for to inflict on Sumpter another bombardment.

At the late election in Iowa, direct issue was joined on Protection and Free Trade, and the Republican party by upholding the American principle had majorities ranging over had in the State.

One of the neatest instances on record of the value of getting out every vote, appears from the result of the Fourth Indiana district. Some weeks after the election it was decided that Wilson, the Republican, had Il majority; but now, it is alleged that by the discovery of a miscount at one poll, the seat will be given to Gooding, Democrat, by one majority, in a poll of over 26,000 votes. Stay-at home Republicans should remem ber this incident.

The majority of the Hon. Horace Maynard, in the Second Congressional district of Tennessee is 606, a large reduction from that given him two years ago, before the Republican party of Tennessee had divided on the question of rebel enfranchisement. The election of Mr. Maynard for his seventh term is especially gratifying to the friends Thanksgiving day was pretty generally ob. of home industries. His record on this served throughout all the States, by the question is as conspicuous for loyalty as was his course during the rebellion.

The evidences of the decay of the Republican party, do not seem to be very strong in New Jersey. The official count returns a man, but of over 8,000 Republican votes; while the loss of the Democracy, exclusive of the Congressman, is 4,063. Maryland gave a Democratic majority at the recent election, of 18,000. This was heralded as a great Democratic triumph. But what are the facts in the case? Maryland is fast becoming less and less reliable to Democracy. We annex a table of the Democratic majorities in that State for the past four years, to wit:

In 1867 the Majority was In 1868 " In 1869 29,342 In 1870 " " "

It will be seen by this table that since the year 1857, the majority of the Democratic party has been getting less and less, until in 1870 there is a falling off of some 23,000 from 1867, and of over 11,000 votes from possession of private individuals, in demi- 1869. Supreme Court Appointment.

The Supreme Court Judges, not satisfied with the commission of one blunder, in the re-appointment of J. There is no excuse for them. Nothing they can allege can palliate, much less wipe out their offense. The Pittsburg Gazette in reference to the appointment of Keenan says:

"Under the specious excuse of keeping politics out of the administration of our Courts of Justice, the Supreme Court of our State has appointed Thomas J. Keenan Prothonotary for the Western District of Pennsylvania. Mr. Keenan is not only a Democrat, but a party Democrat.
