

For the Farmer.

How to Catch an Owl.—Owls are very destructive to poultry, especially in the breeding season, and are much more dangerous than hawks, inasmuch as they pay their visits to the roosts in the night. There is no effectual safe-guard against their visits unless you have the henney made owl-proof. Most farmers make their roosts under an open shed, or upon the trees, which are as free to birds of prey as hens. Chickens are very delicate of food for young owls, and sometimes a dozen will be missing from a perch in a single night, and their feathers and claws be found the next day in a neighboring owl's nest. Old hens will be taken and their heads be eaten off and the carcass dropped under the tree, quite too heavy for the owl to carry off. Not a moment's neglect should be lost when these depredations occur. Tie the dead fowl upon the limb or perch, where it was accustomed to roost, and shut up the rest of the fowls. The dead fowl should be tied in a roosting position, so as to seem alive to the owl. Place a small steel trap on the back of the hen and fasten it to a neighboring branch. The owl will generally make his appearance the following night, and in sweeping down upon the back of the hen will find his claws securely fastened in the trap. A small rat trap without teeth in the best. The teeth would be apt to cut off the legs and claws and release the owl. The trap will often save many days of hunting a mean, skulking enemy, who only plunders at night.—American Agriculturist.

HOOPS OF YOUNG ANIMALS.—We saw recently an instance of the ill effects resulting from the neglect to shorten the excessively long hoofs of the young horses. A colt with unusually long hoofs, had in his play stepped upon some hard substance, and broken off the front part of the hoof of one foot to the quick. The accident was attended with some bleeding, and excessive lameness, the poor fellow being unwilling to put his foot to the ground. Ten minutes work would have saved the animal much pain, and the owner might have had the profit of three months growth, instead of having it arrested for that period. But the occasional breaking off of a part of the hoof, is but a trifle when compared with other mischiefs resulting from the same cause. When the toe is too long, the strain on the fetlock joint is greatly increased, and permanent injury to the suspensory ligament of the foot often follows. Young horses frequently have wind-galls, and other evidences of sprains, before they are put to work, and in ninety-nine cases out of a hundred, these are from shortening of the toe has been neglected. On some gravelly and stony lands, and hard roads, the hoofs will wear fast enough as nature evidently intended they should; but if horses are kept on good smooth turf, their feet must be kept short by artificial means.—Ohio Farmer.

In a paper before the Ohio State Board of Agriculture, on fruit and the insects that work so great damage to most of the fruits, by Dr. Warner, he said that he would plant apple trees at a less distance apart than is usual, in order that the trees might completely occupy and shade the ground, and when the trees have grown so as to interlace their branches, he would cut away one half their number. Land for an orchard should be prepared by deep cultivation, and the trees set shallow.

HOMES FOR ALL. IN THE Land of Flowers and Perpetual Growth. FLORIDA, THE ITALY OF AMERICA.

Is not excelled in Climate by any of the United States, and it may be doubted whether it can be equaled in the world.

Located on the border of the Torrid Zone and still in the latitude of the Gulf of Mexico, and the Atlantic ocean is such that she is swept alternately by the winds of the Eastern and Western seas, and relieved from the burning heats which prevail in other Southern States; and thus it happens that she is relieved, on the one hand, from the rigors of the Winter climate of the Northern and Middle States, and on the other, from the extreme heat with which not only the Southern States, but in the summer time, the Northern States are characterized.

CURWENSVILLE ADVERTISEMENTS.

NEW FOUNDRY in Curwensville. The undersigned having entered into co-partnership, in the FOUNDRY BUSINESS, in Curwensville, would inform the public that they keep on hand, and will manufacture to order,

THE WONDERFUL LINIMENT.—This Liniment having been used, for some years past, as a family medicine by the proprietor, and its good effects coming to the notice of his neighbors, has at their suggestion, completed and manufactured it for the benefit of the afflicted everywhere. It is the best remedy for the most distressing and dangerous diseases of the human body. It is also a sure cure for Pore evil and Wind-galls in horses. Directions for its use accompany each bottle. Price, \$1 per bottle, or six bottles for \$5. Sent to any address by enclosing the price to W. M. H. WAGONER, Hurd Pottery, Clearfield county, Pa. Oct. 6, 1869.

A Great Medical Discovery! Dr. WALKER'S CALIFORNIA VINEGAR BITTERS!

Hundreds of thousands bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY? THEY ARE NOT A VILE FANCY DRINK, Made of Pure Root, Tonics, Proof Spirits, and Refuse Liquors, doctored and spiced and sweetened to please the taste, called "Whites," "Appetizers," "Restorers," &c. that lead the tippler on to drink, and ruin his health, as a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the "Great Blood Purifier and Life Giving Principle of a perfect Renovator and Invigorator of the System carrying off all poisonous matter and restoring the body to a healthy condition. No person can take these Bitters against direction and remain long unwell, provided the bones are not destroyed by mineral poison or other means and the vital organs wasted beyond the point of repair.

For Rheumatism and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious Remittent, Intermittent, and other Fevers, Dropsy of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such diseases are caused by vitiated blood, which is generally produced by derangement of the digestive organs.

Dyspepsia or indigestion, headache, pain in the stomach, constipation of the bowels, dizziness, sour eructations of the stomach, bad taste in the mouth, bilious attacks, palpitation of the heart, inflammation of the lungs, pain in the regions of the Kidneys and a hundred other painful symptoms, are the offspring of Dyspepsia.

The Bitters cleanse the stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Missouri, Illinois, Tennessee, Alabama, Savannah, Roanoke, James and many others with their vast tributaries, during the Summer and Autumn, and remarkable so during seasons of unusual heat and drouth, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. There are always more or less obstructions, and great torpor of the bowels, being clogged up with vitiated accumulations. In their treatment, the Bitters exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's Vinegar Bitters, as they speedily remove the dark colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs. The universal popularity of this valuable remedy in regions subject to miasmatic influences, is sufficient evidence of its power as a remedy in such cases.

For skin diseases, eruptions, tetter, salt rheum, blotches, spots, pimples, pustules, boils, carbuncles, ring worms, scald-head, sore eyes, erysipelas, itch, scurf, discolorations of the skin, humors and itching of the skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

Pins, Tapes and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

J. WALKER, Proprietor, R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, Cal., and 25 and 27 Commerce Street, New York. SOLD BY ALL DRUGGISTS AND DEALERS, December 7, 1870-71.

CHEAPEST IN CLEARFIELD!

FLOUR IN SACKS OR BARRELS, MILL FEED, RYE CHOP, GROUND PLASTER, CORN AND OATS, CLOVER AND TIMOTHY SEED.

BOUGHT AND SOLD BY ALEXANDER IRWIN, Clearfield, Feb. 22.

BIGLER, YOUNG & CO.,

(Successors to Boynton & Young), Cor. Fourth and Pine Streets, CLEARFIELD, PA., MANUFACTURERS OF STEAM ENGINES, Mules and Circular Saw Mills, HEAD BLOCKS, WATER WHEELS, SHAFTING, PULLEYS, BOLTS, and all kinds of Mill work.

STANLEY PARLOR STOVES, COOK STOVES, Heating Stoves, Sled Shoes, Plows, and castings of all kinds.

DEALERS IN Giffards Injector, Steam Gauges, Steam Whistles, Air Cocks, Globe Valves, Check Valves, Wrought Iron Pipe, Steam Pumps, Boiler Feed-Pumps, Anti-friction Metals, Soap Stone Packing, Gun Packing, &c., &c., December 14, 1870-71.
