

Craftsman's Journal.

S. J. ROW, EDITOR AND PROPRIETOR.

CLEARFIELD, PA., JUNE 21, 1871.

REPUBLICAN STATE TICKET. FOR AUDITOR GENERAL: Col. DAVID STANTON, of Beaver. FOR SURVEYOR GENERAL: Col. ROBERT B. BEATH, of Schuylkill.

There are between ten and twelve thousand negro voters in Pennsylvania. Perhaps this, in a great measure, accounts for the "ninth resolution" of the recent Harrisburg convention.

It is a significant fact that the "Democratic victory" in New Hampshire, such as it is, was effected by the votes of original and life-long Abolitionists, under the guise of "Labor Reformers."

The feud in Mexico between the different competitors for the Presidency continues, and have assumed the proportions of a civil war.

The New York Sun starts the exceedingly unreliable rumor that England proposes to guarantee the payment of one hundred million dollars for Cuba, provided the Cubans will pledge themselves not to become annexed to the United States.

The Bedford county Press asks: "Will the Democracy of Berks, York, and other counties under their control divide their local offices with the black men and soldiers?"

It is rumored that Minister Washburne has leave to return home for a time, this summer. He richly deserves the reward of rest, and of an honorable reception on his arrival in the country.

The Democratic leaders, having acknowledged the correctness of Republican principles and policy by adopting the Ninth resolution, what is to deter the honest and well-meaning portion of that party from uniting fully with the Republicans?

GENERAL McCANDLESS! General McCook! Every other Democratic candidate seems to be a General. Who, then, said the war was a failure? Was it the Democrats, and did they mean it; or, are these Generals merely "accepted but not endorsed," like the amendments? What do you say, George?

The young Iowa Democracy unite with their friends in Ohio and Pennsylvania in the "new departure" stamped. It must be a very trying business on the old hard shells of the party.

The Democracy of Northumberland are divided into factions, each of which threaten open revolt. It is probable that two tickets will be nominated.

The New York Tammany politicians, it is currently reported, have in view the sending of a committee to Jefferson Davis, to endeavor to dissuade him from the rebellious course in which he is engaged.

The New Hampshire Democrats have determined to hold the Granite State for a few years if possible. The plan is to elect the seats and turn out twenty-five Republicans of the present legislature.

Whatever else may be said of Colonel Forney, it must be admitted that his appointment as Collector of the Port of Philadelphia has been a good thing for the business of that city.

There are some things our people do not desire to learn—and among them "Yankee radicalism." We need no effeminate hunters to the North; have no wish to interfere with their schools or school-books—their churches or their preachers.

The Democracy Dead.

Not only is the secession cause dead beyond the possibility of revival, but all its original advisers and leading abettors are equally dead and discredited in a political sense.

If all the "original advisers and leading abettors" or secession are "dead and discredited in a political sense," where, we ask, is the Democratic party? Did they not give aid and comfort to the South during all the long and bloody years of rebellion?

The sorrows of the Democracy in Ohio are something fearful to contemplate. It seems that the proverbial rascality of the organization is beginning to turn on itself.

The Democratic party in Ohio, an open rupture has been reached for the same reason. It is now claimed that the nomination for Governor was secured to the announced candidate by a double count of votes.

PUT THEM THROUGH—William Lockbaum of New Haven, was found guilty, by the superior court, of fraudulent voting in the Fourth ward of that city at the last State election.

A Toledo druggist refused to sign a petition for the improvement of a street, when told that it would improve the health of the neighborhood.

DEATH OF VALLANDIGHAM.—The Hon. C. L. Vallandigham accidentally shot himself through the abdomen, at a hotel in Lebanon, Ohio, on the night of the 16th.

A pure white deer haunts the groves of Pierce county, Wisconsin. There are plenty of white "deer" in Clearfield. A considerable quantity of the white is "put" on, however.

The following expressive note is posted on the closed door of a Brooklyn ebbler's shop: "Their business is closed for a week to clean the box a chance to be sick."

THE NEW YORK EVENING STAR says that the United States raises by taxation about nine dollars per head of the population.

THE AUGUSTA, ARKANSAS, BULLETIN, recently said: "There are some things our people do not desire to learn—and among them 'Yankee radicalism.'"

IT IS WELL UNDERSTOOD in political circles that the Democratic leaders have already abandoned all hope of electing McCandless and Cooper, but that they will keep up appearances in the hope of getting control of the legislature by electing a majority of the members in the lower House.

A Little of Everything.

Girls of the period—female composers. Doing a coal business—the ice-cream men. Williamsporters find small fish in their milk.

A railroad is wanted from Johnstown to Somerset. A steam wagon and all to unload fish—that's the business.

Hot house peaches are worth sixty cents each in N. Y. Ohio.

Edna Snell announces herself as a candidate for superintendent of Schools in Mahoning county, Iowa.

Seven cent postage stamps are being issued by the Government, for the convenience of foreign correspondents.

A Russian named Opaty, is about to organize an expedition to the north pole. He feels confident of success.

Either a silly joke—the dedication of the new park on Friday last! Ahem! it's out among 'em boys. Call another.

THE SIX are in order, now-a-days. Like John H. Pillsbury, "we don't know now whether we think" they amount to anything or not.

A town in Ohio county, N.H., called "Success" is a failure. It is twenty years old and has but five inhabitants.

THE TRIUMPHANT entry of the returning German army, took place at Berlin on the 18th June. It was a grand and imposing demonstration.

A felon is said to be a common boil formed under the tough ligament next to the bone. To cure it promptly please the lancet down to the bone.

THE NEWEST variety of lager is called, "Aecht Importirter Brauwaeger Doppel Bier," and will kill you almost as quick as a Nitro Glycerine torpedo.

REFRESHING rain has fallen in this vicinity within the past few days, which has infused new life into the hitherto sickly appearance of corn and things.

A pure white deer haunts the groves of Pierce county, Wisconsin. There are plenty of white "deer" in Clearfield.

THE NEW YORK EVENING STAR says that the United States raises by taxation about nine dollars per head of the population.

THE AUGUSTA, ARKANSAS, BULLETIN, recently said: "There are some things our people do not desire to learn—and among them 'Yankee radicalism.'"

IT IS WELL UNDERSTOOD in political circles that the Democratic leaders have already abandoned all hope of electing McCandless and Cooper, but that they will keep up appearances in the hope of getting control of the legislature by electing a majority of the members in the lower House.

Our Candidates and Platform.

The Bradford Reporter, in reference to the Republican candidates and platform says: The candidates placed in nomination are men of moral worth and political integrity.

Both of them—Dr. Stanton as a surgeon, and Col. Beath, enlisted as a private and came out with a colonel's commission.

The doctrine of the Republican party to do what is right for all men and all interests. But that we have triumphed heretofore and by it we will be victorious as long as we are faithful to its noble teachings.

THE LINCOLN Institute of Jefferson City, Missouri, is one of the proudest monuments to the colored people in the country. Some six years ago, deeply impressed with the importance of education.

AND NOW comes the appalling announcement of another most terrible calamity at sea, whereby five hundred kidnapped coolies were literally roasted alive.

EARL RUSSELL moved an address to the Queen from the British House of Lords opposing the Treaty of Washington.

A pure white deer haunts the groves of Pierce county, Wisconsin. There are plenty of white "deer" in Clearfield.

THE NEW YORK EVENING STAR says that the United States raises by taxation about nine dollars per head of the population.
