Terrible gales at Quebec are described in the last papers from that city, and great damage to the shipping was anticipated. The election in Texas has resulted in the ratification of the annexation ordinance, and the adoption of the State constitution by immense majorities.

It is stated that the portion of the produce of the Russian gold mines that goes into the Emperor's treasury is \$120,000,000 yearly.

James Clark, the new Governor of Iowa, is a Pennsylvania printer. This case is an uncommon one, but we hope it may be the type of many more.

A stranger lately obtained a loan of a hundred dollars from one of the Cincinnati merchants, securing repayment by the deposit of a task of extra brandy. On a full examination it was found that a copper can, which contained a small quantity of brandy, had been firmly fitted around the bung hole, and all besides was water!

Massachusetts has \$160,000,000 invested in manufactures, and her commerce growing out of these manufactures is immense. Her exports to foreign nations and to different States amount to one hundred and twenty millions.

The editor of the *Caldo Gazette* apologizes for the neglect of his editorial columns by stating that he had been busily engaged in getting married. His lady readers will doubtless find his excuse all sufficient.

Ex President Lamar, of Texas, now resides in Brooklyn, N. Y., and is talked of for mayor. This is the essence of republicanism.

A late French paper announces that a scientific mission is preparing at Havre, for its departure, with a view of exploring the ruins of Palenque and other scattered vestiges of our ancient civilization, in those vast forests which Cortes believes to be untroubled by man.

The American board of Foreign Missions has become almost a wonder of the world for its extensive operations of Christian philanthropy in heathen lands. Since its institution, it has received and disbursed more than \$2,500,000 for the promulgation of the gospel.

## U. S. SATURDAY POST.

New volume, new type, old friends—

ships, and new attractions.

THE publishers of the UNITED STATES SATURDAY POST feel constrained to make again their acknowledgments to the reading public for the liberal support which their paper receives. To show that they are not unmindful of the return which such patronage now requires, it would be entirely sufficient to refer the reader to the established character of the *freedom friend*, which is pre-eminently the designation of this paper. As a newspaper dependent upon public patronage, 'grows by what it feeds on,' the publishers flatter themselves that the Post has increased in interest and value, with the steady and gratifying support which has been accorded to it, for a period of a Quarter of a Century. In this time, which has served for the life and death of whole generations of periodicals, and the rise, meridian, and decline of many a rival, the Post has
