TO THE PEOPLE.

THE session of Congress, which has just terminated, will be long and gratefully remembered by all true republicans for the triumphant success of fors will electmany of their cherished principles and measures. While we heartily rejoice at the triumph of the principles which it has been our constant effort to advocate and defend, and from which no prosperi ty, no adversity, can swerve us; we cannot be unmindful of the attitude in which we are placed by Philadelphia, are not agents of ours, and as they lude to the contemplated withdrawai of their put ronage from the newspaper press. To this decision we cheerfully how, somable as we are of the patriotic motives which have led to it. But we Agent for Clearfield, R. Shaw. For trust that this decision of Congress increases raths other agencies in Clearfield & other coun. er than diminishes our claim to the support of a higher power-that of the people; and to them we confidently appeal to aid as, by their patronage, sustaining at the seat of government a journal that is inflexibly devoted to their interests and the true nterests of the country.

It is known to every one, that the chief source of sustaining a newspaper is not the magnitude of its subscription list, so much as the advertising patronage which may be bestowed upon it. In large commercial cities, indeed, the latter is usually the concomitant of the former, as it becomes the obvions interest of moreantile men to advertise in those papers which are the most extensively circulated. Washington, however, is differently situated. Deprived of the advertising patronage incident to a mercantile community, and burdened with pecuhar and enormous expenses which are not olse where incurred, nothing but a very long list of subscribing patrons can sustain a paper in useful ness-if, indeed, even in existence. The proprie tors of the Union' have hitherto spared no pains, and no expense, to make their paper worthy of the metropolis, and worthy of the support of that great party under whose banner they are culisted. In publishing the most full and ample debates of the two houses of Congress, it is believed, ever before attempted on this continent in a daily newspaper, they have secured the services of the best reporters which the country afforded, but at the enormous cost of \$12,000 or \$15,000 per year.
