The Alabama Ladies .- The Tuecalon sa Journal einter that they have a novel plan on foot to save that State from repu diation. It is this :- That the women of the State resolve for a given number of vears to abstain entirely from the use of wilk and wollen materials, and content by cleansing and purifying the body, it will be manthemselves with nothing but calicoes and ilest that, if the constitution be not entirely exhaus muslins. The State debt, in round num. ted, a perseverance in their use, according to direcbere. is \$13,000 000-the interest on which is less than \$600,000 After all ry name from the body. the available means of the banks are paid debt left, whose interest with the annual health, we must cleaner it of impurit expense of the State, will amount, say to \$500,000. According to the last census, there were 197,181 women in the State o ver twenty one years of age; under that age 64,180. Of this number it is estima ted that 50,000 wear laces, wollens, etc. -On an average, the superfluous cost for these stuffs is five dollars for each of them. Here, then, is the sum total, 250,000, or one-half of the annual amount of the inter est on the remaining debt and the whole of the cost of the State government. This plan is seriously in agitation among the la dies of Tuscaleesa, and they are about to adopt means to carry it into practice.

Selfishne.s .- God has written upon the lower that swectons the air - upon the breeze that rocks the flower on its stem-upon the rain drop that refreshes the sprig of moss that lifta its head in the desertupon the ocean that rocks every swimmer in its deep chambers-upon every pencil. led shell that sleeps in the caverns of the deep, no less than upon the mighty sun which warms and cheers millions of crea tures that live in its light-upon his works he has written-"none of us liveth to himcalf." And probably were we wise enough to understand these works, we should find that there is nothing-from the cold stone in the earth, or the minutest creature that breathes-which may not, in some way or other, minister to the happiness of some living creature. We admire and praise that flower that best answers the end for which it was created, and bestows the most pleas. nre. We value and praise that house, with a pen on the top label of each box. Now is it not reasonable, that man, to whom the whole creation, from the flower up to the spangled heavens, all ministerman who has the power of conferring deeper misery or higher happiness than any other being on earth-man, who can act like God if he will-is it not reasonable that he should live for the noble end of liv. ing, not to himself but for others?

M'Allister's Ointment.

Insensible Perspiration.

The preceding figure is given to represent the insensible perspiration. It is the great Evacuation for the impurities of the body. It will be noticed that a thick cloudy mist issues from all parts of the surface. which indicates that the perspiration flows uninter-ruptedly when we are in health, but ceases when we are sick. Life cannot be sustained without it. It is brown off from the b'ood and other juices of the bos dy, and disposes by this means of nearly all the impurities within us. The language of the Scripture is in the Blood is the life." If it ever becomes injure. it may be traced directly to the stoppage of the Insensible Perspiration Thus we see all that is necessary when the blood is stagmant or infected, is to open he pores, and it relieves itself from all its impurity instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface. Thus we see the folly of ta-king-so much internal remedies. All practitioners, king so much internal remedies. All practitioners however, direct their efforts to restore insensible per

To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewnhock ascertained that five eighths of all we receive into the stomach passed off by this means. In other words, if we eat and drink eight pounds per day, we evacuate five pounds of it by insensible perspiration. It is by stopping the pores that overwhelm mankind with coughs, colds, and consumptions. Nine-tenths

f the world die from diseases, induced by a stoppage of the Insensible Perspiration. Let me ask, now, every candid mind, what course seems the most reasonable to unstop the pores after iney are closed? Would you give a physic to unstop the pores? Or would you apply something that would do this. do this pores? Or would you apply something that would do this upon the surface, whore the clagging actually is? And yet I know of no physician who makes any external application to effect it. Under these circumstances I present to physicians and to all oth

ers, McAllister's ALL-HEALING OINTMENT, or the world's salve. It has rower to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon any part of the body, wheth er diseased slightly or severely. It has Power to cause all external sores, screfulous

humers, shin diseases, poisonous wounds, to discharge their putrid matters, and then heals them. It preserves and detends the surface from all derangement of its functions. The surface is the outler of five-eighths of the bile and used up matter within.

of ive-eighths of the bile and used up matter within. It is pierced with millions of openings to relieve the intestines. Stop up the pores and Drath knocks at the door. It is rightly termed All-healing, for there is scarcely a disease, external or internal, that it will not benefit. I have used it for the last fourteen years for all diseases of the chest, consumption, liver, involving the utmost danger and responsibility, and I declare before heaven and man, that not in one single case has it failed to benefit, when the patient was within the reach of mortal means

I have had physicians, learned in the profession, I have had Ministers of the Gospel, Judges of the Bench Aldermen, and Lawyers, gentlemen of the highest erudition, and MULTITUDES of the POOR use it in eve ry variety of way, and there has been but one voice one united, universal voice, saying, "McAllister, your Ointment is GOOD."

DB. OSBORN'S INDIAN VEGETABLE RESTORATIVE

PILLS

Prepared by Dr. George Bennet, of New York, and

for sale by the annexed list of agents in Clearfield THE unprecedented success that has attended the use of these pills in the or eight years, has induced him to yield to the importunities of many who have used and been benefitted by them, and make arrangements to place them within the reach of the public generally. In doing so he feels called upon to say that the Indian Vegetable Restora tive Pill is decidedly superior to any with which he is acquainted. They combine the properties of many of the best vegetable medicines (used in no other pills) in such a manner as to afford not only immediate and temporary but perma nent relief,

The valuable tonics which enter into their composition by their action upon the secretory organs hold in check the purgative principle and induce a gentle and natural operation without inconvenience or pain, and while they restore a natural and healhy action of the stomach, liver and bowels, they increase, instead of diminish, the strength of the patient.

They have been used as a family medicine for rears by many of the first respectability—and alhough they are not recommended to "heal all the ills that flesh is heir to," yet it has been very rare that it has been found necessary for those using them to employ any other medicine, and their occasional use will almost invariably prove an effectual preventive to disease. They are exactly adapted Caldwell B. H. to the use of families, travellers and seamen; they cleanse the blood, causing a free circulation-open obstructions and promote the secretion of healthy bile, and consequently are an excellent medicine for Nausen, Indigestion, Nervous Disorders, Dejection. Liver Complaint, pains in the Head, Side, and Breast, Costiveness, Boss of Appetite, Urinary obstructions, Ague and Fever, Bilious and Intermittent fevers, Dysontery, Rheumatism, Scrufula, and are eminently useful in all female complaints - and Ramer Harman in one word, all diseases arising from unhealthy Sears W. H. secretions and impurity of the blood. Numerous estimonials of their efficacy in particular cases, might be added, but the proprietor prefers presenting a few certificates of their general character from persons of unquestionable candor and verneity who would not in any degree lend their influence to promote any thing that is not of decided utility. and rely on their intrinsic merits to gain them a reputation, feeling a most perect confidence that none willabandon their use who give them a fair

The following letter from the Rev. George Bow ers, with other certificates in the hands of the agents, will serve to show the efficacy of these pills :

ELE Horn, Walworth Co., Wisconsin. Dr. OSBORN: - With pleasure I inform you of the great benefits which I have derived from your pills have been in a decline for some time, which has greatly alarmed me, more especially as my complaint was a consumptive one, and also I have been very bilious, and have labored severely with pains in my head, and my eyes have been so affected as to turn of a sollow, cloudy, and other disagreeable complexions. My wife had suffered also from great weakness and severe pains, and as your Pills have so wonderfully relieved us, we have sounded the name of them all over our neighborhood; they will certainly be ever regarded in this place, and where ever my extraordinary cure is known, as the mesi valuable preparation for purifying the blood and regulating the system. I should not have known he worth of your Pills had it not been for the Rev. Wm. F. Dewitt, of Cuddeville, Sullivan co., N. Y. who with great kindness cent me a box to try them. and to that box of Pills I owe my health, and as the agent here is out of your pills, I wish you would send me a package of hoxes as soon as possible,-With best wishes for your prosperity, I am, dear sir. yours respectfully.
