THE PENNSYLVANIAN.—It is but seldom, as every reader of our paper knows, that we bestow praise upon our brethren of the Press. The time was, when these puffs were required to be given, no matter how little felt, or how little deserved. We, and we believe the country press generally learnt, in this respect at least, that it was more profitable to mind our own business. But to praise the *Pennsylvanian*; is no violation of this rule. No matter how flattering the commendation may be, it is all deserved. Either as a political, family, or news-paper, it can't be beat. There is nothing in its columns, not only in a mere statement of the event, but the why and wherefore is generally given. As politicians, HAMILTON & FORNEY are perfect paragons. They are "faithful and fearless," and the way their Mexican neighbors of the *U. S. Gazette*, *North American* and *Enquirer* have to take it for their suspicious course, attests their orthodoxy. They are "faithful," because there is nothing in the political world that escapes their notice, and every thing they say may be scrupulously relied on. They never try to deceive their readers in any thing. We feel gratified that the *Pennsylvanian* is so well supported by the farmers of our county, and we would recommend it above all others as a useful paper in a family.

CLEARFIELD COUNTY EXPORTING GRAIN.—There is no mistake about it,—many of our farmers, have pocketed a goodly sum of clean cash: within the last two weeks for wheat, at a very fair price—mostly at a dollar a bushel. We know of some thousands of bushels being bought up within a very few days, and it is now on its way to the canals, and hence for the eastern markets, where it will afford a handsome profit—it now selling for \$2 12½ in Philadelphia. This, be it remembered, is from a county that three or four years ago, depended in a great measure on the neighboring counties for bread. Add this to the hundreds of thousands of dollars made by our lumbermen this spring, and then say whether the prospect for our county is not brightening.

The Public Works.

Amidst the universal prosperity of all kinds of business, it could not but be expected that the tolls on our public improvements would show an increase of profits; but certainly the extent of this increase must be equally as surprising as it is gratifying. The tolls already exceed those for the same time last year, to the sum of \$171,000. And this is principally from the Main Line, which the Federal Legislature last winter wanted to sell for seven and a half million of dollars, and which was only defeated by the efforts of Col. Bigler and other Democratic Senators. Are the people content to give this party—the Rinner, Stevens and Burrows party—the control of the State? If they are, they can just give their votes to Gen. James Irvin, of Centre. He's the very boy for them.—But if they desire to let things go on just as they are now—if they think things are well enough as they are, and are in favor of letting 'well enough alone,' then they will cast their votes for old honest Frank Shunk, who goes about this business of regulating State affairs just as natural as if he could not help it.

THE MARKETS.—On the 27th inst. flour was selling in Philadelphia at from \$9 to \$9 37½ per barrel. Wheat was bringing from \$2 05 to \$2 15 per bushel—Rye \$1 40—Corn from \$1 14 to \$1 16.

The Vera Cruz Eagle of the 8th May contains a list of about 40 deaths that had occurred in the hospital at that place during the month of April, mostly of diarrhoea. Among the list are five volunteers from Pennsylvania.

The Legislature of Connecticut has rejected a proposed amendment to the State constitution, striking the word "white," out of that instrument, so as to place colored and white on the same footing in regard to suffrage. The vote stood ayes 152 to 68 nays.

A letter in the *New York Courier* states that one of the volunteer companies recently raised in Missouri for service in Mexico, is commended by an old and respected citizen of St. Louis about 50 years of age, and worth at least \$100,000 who served in the last war with Great Britain.

The Latest News.
By the magnetic correspondence of the *Pennsylvanian* of Thursday last, we are enabled to lay before our readers to-day the following very late intelligence from Mexico. The information is of but little general importance, as nothing had been heard from the army in the interior for several days previous to the sailing of the vessel from Vera Cruz:

By Magnetic Telegraph.

Murder of Dragons—Capt. Walker in pursuit of the Guerillas—no attack on Vera Cruz apprehended.

FREDERICKSBURG, Va. May 26.
An arrival at New Orleans brings one day later intelligence from Vera Cruz.—Seven companies of the Third Illinois regiment have reached New Orleans by this arrival.

There are no further accounts from the army marching on the Capital.

The *Picayune* gathers a few stems of interest from Major Count de Bongars, aid to General Shields, who has arrived at New Orleans. He brings the information that on the night the vessel sailed from Vera Cruz, a party of dragoons were surprised at Santa Fe, a village 14 miles from Vera Cruz, by a band of Mexican robbers or guerillas. There were eleven dragoons in the party and all asleep but the sentinel. The Mexicans rushed upon him, when his piece missed fire and he was unable to give the alarm. A scuffle ensued in which the sentinel was killed. The guerillas then dashed upon the rest of the party by this time issuing from their tent; six of whom were killed and three wounded; only one escaping unhurt.

As soon as the tidings of this affair reached Vera Cruz, Capt. Walker with his rifles were ordered in pursuit of the marauders.

The apprehended attack upon Vera Cruz by Santa Anna, has been entirely dispelled.

An occasional case of the vomito was occurring, but there was no increase of the disease.

The Pottsville Democratic Press states that a few days since, letters from Capt. James Nagle, and Lieut. Simon S. Nagle, written from Vera Cruz, were received by their wives, enclosing a daguer-type likeness of each of those officers, as tokens of love, and a few gold pieces. The likenesses are very good and appear quite warlike, with the moustaches, which are cultivated by volunteers in Mexico. Lieut. Nagle, in his letter, bids his wife kiss their little son for him. Poor fellow! he little dreamed that at the time his letter was written, his darling boy was quietly slumbering in his little grave, on the beautiful mountain side of his gratefully remembered home! Nobly fighting the battles of his country, he does not know that death has entered his family and deprived him of his darling son. He may never live to know it—but should he return as we hope and expect he will—it will be long before the endearing caresses of his wife, and the proud congratulations of his friends, will have effaced the recollection of his heart-lacerating loss. Such is human life!—*Penn'n.*

Col. Yell, as well as many other officers and privates, who were killed at the battle of Buena Vista, were robbed of considerable amounts of money. It was known that Col. Yell had on him a \$100 Treasury note, which was deposited with him, by one of his men, for safe-keeping; and it was believed that he had \$200 or \$300 of his own. He was left with nothing except two or three dollars in his purse. Several others were robbed in the same vicinity, Captain Porter, Adjutant Vaughn and others, of considerable amounts, and it is with the deepest mortification—*humiliating shame*, that we have to say the robbery of Col. Yell is fastened, by the suspicion of the whole Arkansas regiment, upon a man who claims to be a citizen of this State.—*Arkansas Intelligencer.*

For the Banner.
TO THE TALE-BEANER.
BY REV. H. W. BELLMAN.

Apollon has some willing paces,
Who carry news as swift as racers.
Wrapped in the serpent's sable cloak
They are driven by a jealous smoke,
While envy guides the flying car,
To throw a gloom on every star.

To peace they never have resigned
While cursed slander was combined
With tongues of hellish temper keen,
And low hatred which was ever mean,
Which, in union, cuts and murders
Those who have the brightest rudders.

They profess to keep a secret well,
But in haste they sound it like a bell,
That all may know the funeral knell
Of friendship which they basely swell.
They are robbers of the lowest grade
That robbing Devils ever made.

Concealed beneath the serpent's mask,
They can throw the poison of the asp.
But with fairy charms they catch and clasp
The poor victims they intend to rasp—
Until destruction's thunder strikes
The demon's with ten thousand stripes.

Then we see Apollon's pack-mules sink
Far beneath a load of guilt and sin;
And yet succeeding servants in the cause
Are unwilling to reflect, (or pause),
That sable tales which they relate
Will never make their sins abate.

It will plunge them deeper in despair,
Where they may forever falsely swear,
With pinning demons cursed in Hell,
Where they will forever loudly swell
The awful notes of deep regret,
For they their sins shall ne'er forget.
Clearfield, Pa., May 20, 1847.

NO CHANGE IN THE WEATHER will materially affect the body if the blood is pure. Every individual, even the most diseased, has within him a germ or root of that original pure blood of our common mother Eve; which germ of pure blood is the supporter of his life, and is in constant struggle to throw off the heterogeneous, corrupt humors, which are the cause of disease in the individual. By purging the body of this diseased individual of its bad humors, you allow the germ of pure blood to gain ground and to make blood of a better quality, and so on progressively till the whole mass is regenerated; for the good principle or good pure blood, is always striving to be predominant over the bad or diseased humors. Let all who wish to be of a fine healthy habit; who wish to have a sound mind in a sound body; who desire to be able to stand without injury the continual changes of this climate; who desire to have healthy children, use the *Brandreth Pills*, which will effectually cleanse the blood of all bad or corrupt humors, and restore the human body to the state of health enjoyed before the introduction of mineral medicines. Remember *Brandreth Pills* place within the reach of all health and long life.

Dyspepsia is a weakness of the digestive organs, and, like every other complaint, is caused by impurity of the blood. The gastric juice, a fluid peculiar to the stomach, when secreted from bad blood, is not of a healthy quality; consequently the food instead of being properly dissolved, often remains undigested until it becomes in a manner spoiled or putrified in the stomach; hence, bad health, a disagreeable taste in the mouth, headache, giddiness, loss of spirits, wasting of the body, &c.

Wright's Indian Vegetable Pills are a natural remedy for dyspepsia, because they cleanse the stomach and bowels of all bilious and corrupt humors, and purifies the blood.

Beware of Counterfeits of all kinds! Some are coated with sugar; others are made to resemble in outward appearance the original medicine.

The only original and genuine Indian Vegetable Pills have the signature of William Wright written with a pen on the top label of each box. None other is genuine, and to counterfeit this is a felony.

JOY TO THE WORLD.

PERRY DAVIS' VEGETABLE Pain Killer.

THIS valuable Medicine, which has recently been discovered by Perry Davis, of Providence, Rhode Island, is unquestionably, the best family medicine ever compounded, even by the *Medical Faculty* as thousands who have experienced its efficacy, can testify. But few of the diseases which it has cured and can cure, can be mentioned in the limits of an ordinary advertisement; but among them are

Dyspepsia, Dysentery, Erysipelas, Rheumatism (of the worst character) Croup, Quinsy, Piles, (internal and external), Cough, with the raising of blood, Spasms, Cramp, Caked, Sore and Broken Breast, Pain in the Side and Stomach, Cankered Mouth & Lips, Toothache, sick Headache, and many other diseases to which the human family are subject.

It may be said that the reported cures it has effected are too many, and that it is of course a hoax; but keep it in your families—keep it on board your vessels—you will need no other medicine chest; and keep it near you, and however you may be attacked, apply the *Pain Killer* immediately, according to directions, and you will no longer be faithless. Try it and prove it, before you call it a hoax or a humbug.

McAllister's Ointment.

Insenible Perspiration.

The preceding figure is given to represent the insensible perspiration. It is the great Evacuation of the impurities of the body. It will be noticed that a thick cloudy mist issues from all parts of the surface, which indicates that the perspiration flows uninteruptedly when we are in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means of nearly all the impurities within us. The language of the Scriptures is "as the Blood is the life." If it ever becomes impure, it may be traced directly to the stoppage of the *Insenible Perspiration*. Thus we see all that is necessary when the blood is stagnant or infected, is to open the pores, and it relieves itself from all its impurities instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface. Thus we see the folly of taking so much internal remedies. All practitioners, however, direct their efforts to restore insensible perspiration.

To give some idea of the amount of the *Insenible Perspiration*, we will state that the learned Dr. Lewenhock ascertained that five-eighths of all we receive into the stomach passed off by this means. In other words, if we eat and drink eight pounds per day, we evacuate five pounds off by *Insenible perspiration*. It is by stopping the pores that overwhelp mankind with coughs, colds, and consumptions. Nine-tenths of the world die from diseases induced by a stoppage of the *Insenible Perspiration*.

Last week, now, overextended mind, what course seems the most reasonable to unstop the pores after they are closed? Would you give a physic to unstop the pores? Or would you apply something that would do this upon the surface, where the clogging actually is? And yet I know of no physician who makes any external application to effect it. Under these circumstances I present to physicians and to all others, *McAllister's ALL-HEALING OINTMENT*, or the *WORLD'S SALVE*. It has power to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon any part of the body, whether the disease is slightly or severely.

It has power to cause all external sores, *scrofulous humors, skin diseases, poisonous wounds*, to discharge their putrid matters, and then heals them. It preserves and defends the surface from all derangement of its functions. The surface is the outlet of five-eighths of the bile and used up matter within. It is pierced with millions of openings to relieve the intestines. Stop up the pores and *DEATH* knocks at the door. It is rightly termed *All-healing*, for there is scarcely a disease, external or internal, that it will not benefit. I have used it for the last fourteen years for all diseases of the chest, consumption, liver, involving the utmost danger and responsibility, and I declare before heaven and man, that not in one single case has it failed to benefit, when the patient was within the reach of mortal means.

I have had physicians, learned in the profession, I have had Ministers of the Gospel, Judges of the Bench, Aldermen, and Lawyers, gentlemen of the highest erudition, and MULTITUDES of the poor use it in every variety of way, and there has been but one voice, one united, universal voice, saying, "McAllister, your Ointment is good!"

CONSUMPTION. It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system. But if placed upon the chest, it penetrates directly to the lungs, separates the poisonous particles that are consuming them and expels them from the system. It is curing persons of consumption continually.

The Salve has cured persons of the Headache of 12 years standing, and who had it regularly every week, so that vomiting often took place.

COLD FEET. Consumption, Liver Complaint, pains in the chest or side, falling off of the hair, one or the other, always accompanies cold feet. It is a sure sign of disease in the system to have cold feet.

This Ointment is the true remedy for SCROFULA, ERYSIPELAS, SALT RHEUM, LIVER COMPLAINT, SORE EYES, QUINSY, SORE THROAT, BRONCHITIS, BROKEN OR SORE BREAST, PILES, ALL CHEST DISEASES, SUCH AS ASTHMA, OPRESSION, PAINS, ALSO, SORE LIPS, CHAPPED HANDS, TOMORROW, CUTANEOUS ERUPTIONS, NERVOUS DISEASES, AND OF THE SEVERE.

There is no medicine now known so good.

BURNS. It is the best thing in the world for Burns. (Read the directions around the box.)

PIMPLES ON THE FACE. Its first action is to expel all humors, and to purify the skin, until the skin becomes as smooth and delicate as a child's.

WORMS. It will drive every vestige of them away. (Read the directions around the box.) There is probably no medicine on the face of the earth at once so sure and so safe in the expulsion of worms.

OLD SORES. Put some sores on an outlet to the impurities of the system, is because they cannot pass off through the natural channel of the *Insenible Perspiration*. If such sores are healed up, the impurities must have some other outlet, or it will endanger life. This Salve will always provide for such emergencies.

RHEUMATISM. It removes almost immediately the inflammation and swelling when the pain of course ceases.

SCALD HEAD. We have cured cases that actually defied every thing known, as well as the ability of fifteen or twenty doctors. One man told us he had spent \$500 on his children without any benefit, when a few boxes of the ointment cured them.

CORNS. Occasional use of the ointment will always keep corns from growing. People need not be troubled with them if they begin to soften.

As a FAMILY MEDICINE, no man can measure its value.
