

Political System of France.

The editor of the New York Herald, writing from Paris under date of May 23d, gives the following view of the political system of France, and the working of the same at the present time...

The policy of Louis Philippe, and the present ministry, seems to be to preserve with the aid of the army, the present system of government, by opposing all electoral reforms, and all organic changes in the action of its elements...

A SHORT FIGHT.

About the shortest fight on record, we think, took place some time since in the far west. A pugnacious individual of the Kentucky breed, who was a 'nasty customer' at a close hug, and who had located himself somewhere near Iowa, heard accidentally, about a week after, he had acquired, that there was a man living somewhere in his vicinity, who was 'a crowder' at a clinch...

By the time he had fairly asked the question, he had tumbled into the field and dia-mounded along side the man, who, after glancing at him carelessly, answered: 'Why, yes, boss; if I know myself, I'm that animal!'

The Kentuckian picked himself up, regarded his assailant somewhat with a look of surprise, and then drawing a long breath, exclaimed: 'I'm satisfied, stranger, and if you'll just throw my horse over, I'll travel!'

A Happy Hit.—A humorous young man was driving a horse which was in the habit of stopping at every house on the road side; passing a country tavern where was collected some dozen young men, the beast as usual ran opposite to the door and stopped, in spite of the young man, who applied the whip with all his might to drive the horse on...

The remains of Col. McKee, Lt. Col. Clay, Capt. Willis, and Mr. Trotter of the 2d regiment Kentucky volunteers, and Adj. Vaughn of Col. Humphrey's regiment of cavalry, were yesterday received with every possible demonstration of public esteem and honor.

Hon. Spencer J. Jarman, a distinguished whig of Tennessee, has been read out of the party, for saying that we had ample cause for the war with Mexico, apart from the marching of troops to the Rio Grande.

DR. OSBOURN'S INDIAN VEGETABLE RESTORATIVE PILLS.

Prepared by Dr. George Bennett, of New York, and for sale by the proprietors of the Clearfield County. THE unprecedented success that has attended the use of these Pills in the practice of the proprietor for the last six or eight years, has induced him to yield to the importunities of many who have been afflicted by them, and make arrangements to place them within the reach of the public generally...

The valuable tonics which enter into their composition by their action upon the secretory organs hold in check the purgative principle and induce a gentle and natural operation without inconspicuousness or pain, and while they restore a natural and healthy action of the stomach, liver and bowels, they increase, instead of diminish, the strength of the patient.

The following letter from the Rev. George Bowers, with other certificates in the hands of the agents, will serve to show the efficacy of these pills: 'I have been in a decline for some time, which has greatly alarmed me, more especially as my complaint was a consumptive one, and I had been very bilious, and have labored severely with pains in my head, and my eyes have been so affected as to turn of a yellow, cloudy, and other disagreeable complexion. My wife had suffered also from great weakness and severe pains, and as your Pills have so wonderfully relieved us, we have sounded the name of them all over our neighborhood; they will certainly be ever regarded in this place, and what ever my extraordinary cure is, known, as the most valuable preparation for purifying the blood and regulating the system. I should not have known the worth of your Pills had it not been for the Rev. Wm. F. Davitt, of Cuddeville, Sullivan co., N. Y., who with great kindness sent me a box to try them, and that box of Pills I owe my health, and as the agent here is out of your pills, I wish you would send me a package of boxes as soon as possible. With best wishes for your prosperity, I am, dear Sir, yours respectfully, GEO. BOWERS.'

DR. E. GREEN'S RED & BROWN PILLS. THE demand for the above medicine in the last 2 or 3 years, is deemed a sufficient apology for placing it now fully before the people; and the diseases for which it is applicable have become so prevalent in this country that a remedy entitled to confidence, is a great desideratum. The diseases I allude to are Hepatitis, (Liver affection,) Dyspepsia, and female complaints in general.

DR. JAMES LOCKE, SURGEON DENTIST. WILL visit Clearfield and Curwensville regularly hereafter several times a year.
