TURN OUT!

Next Saturday, the 7th August, is the day appointed for clearing off the Camp ground, sitting on the Herk's Island, tents, &c., for the Methodist Protestant meeting, to commence on the 27th August. Persons friendly to the good cause, will please turn out and help us.

By order of the Committee of arrangements,
JOHN FLEGAL.

THE REVENUE.

On our south page this week will be found, a letter from the Secretary of the Treasury, showing the amount of revenue under the Democratic Tariff of 1840, as compared with the amount received during the same period under the Tariff of 1842—to which we direct the special attention of our readers of all parties.

It will be remembered by all, that among the objections to the new Tariff, that of its not raising sufficient revenue to defray the ordinary expenses of government, stood out as one of the most prominent. Senator R. Evans, of Maine, among other high priests of the Federal party, gave it as his opinion, in the United States Senate, after careful investigation, that the revenue under the new Tariff would not exceed thirteen millions per annum—that it would show a falling off of at least one-half, as compared with that of the previous year, under the act of 1842. The Democrats only, claimed an equal amount. The most sanguine claimed but little more. Now, however, we have the certainty that it yields more revenue, and will, if the augmentation continues as at present, reach thirty one or thirty-two millions.

Through the well concerted manoeuvring of the Federal party last year, many hundreds of voters in Pennsylvania were inclined to think, the new Tariff was not calculated to benefit the country, and they therefore declined voting at the last election, and let the whigs carry everything—This new Tariff, it was said, would crush our manufactures—destroy the lumber and coal business—throw hundreds of poor men out of employ—and wou'd send the government begging, by causing a great diminution of the revenue. Those who were thus induced to pause, will now see the folly and wickedness of the federal party, and will eagerly embrace the earliest opportunity to avenge themselves on the party whose leaders seek to gain power by fraud and deception. There is nothing now wanting to prove the Federalists wrong in every one of their predictions.—

Rumored attack on Gen. Taylor's Outposts—Destruction of Robbers—Location of the 10th Regiment.

RICHMOND, Va. July 27.

The steamer Mary Kingsland has arrived at New Orleans from the Brazos which she left on the 15th inst.

It was rumored there that Gen. Ureia was about to attack Reynosa with a force of 3,000 Mexican troops. Preparations were making for a vigorous defence of the place.

Detachments of his force have been sent near the river, and the object of Ureia was believed to be to attack the depots and the wagon trains between Camargo and Monterey.

These rumors are not confirmed by the Matamoros Flag of the 10th, but it has similar accounts relative to Carrabaja.

A gang of desperadoes, consisting of Mexicans and others had been discovered near the Brazos, and completely routed, being all taken prisoners or dispersed.—The ranchos which they frequented was burned to the ground.

A letter is published in the Picayune, from Lieut. Baker, taken prisoner in February last, while commanding the escort of a wagon train cut to pieces, who was generally supposed to have been murdered.

It is dated Mexico, the 29th of June. He says the provisions for the exchange of Major Gaines and others have not been exchanged to himself, Quartermaster Smith and Midshipman Rogers, and that Santa Anna has no idea of releasing any of them;

but wishes to send all to Acapulco, on the Pacific.

The 10th volunteer regiment from New York and New Jersey are quartered at Matamoros, where they are to remain until relieved, which will, perhaps be several weeks.

CALIFORNIA.

A letter in the New York Journal of Commerce, dated Monterey, March 5th, says:

"The first great point is at length settled; General Kearny has taken command of the civil Government of California.—Another great point is likewise settled—Gov. Kearny has determined on making Monterey the seat of Government."

But the Independent Treasury has had a very great influence in averting such a calamity. There is very little danger to be apprehended. It may be done in a few isolated cases. But there is no governing Bank to make it general. This is one of the effects of the Independent Treasury, and for which the country is indebted to James K. Polk and the late Democratic Congress. The same measure, or nearly the same, was first recommended by ex-President Van Buren, and was established

under his administration, but was repudiated by the Harrison and Tyler administration before it went into operation.

John Hegarty, the man who murdered Jacob Fordney and family, in Lancaster, last fall, was executed on the 23d inst. He died manifesting the most sincere repentance.

THE HOAXED AND HOAXING PARTY.—The Federalists are a doomed party. They are always in Miss Fortune's way—always hoaxing, and always liable to be hoaxed. The "Loco" hoax—those friends know them—and they hoax themselves! And this latter is the worst of all hoaxing.

The HOAXED AND HOAXING PARTY.—The Federalists are a doomed party. They are always in Miss Fortune's way—always hoaxing, and always liable to be hoaxed. The "Loco" hoax—those friends know them—and they hoax themselves! And this latter is the worst of all hoaxing.

To raise their languishing spirits, a general eye-

tem seems to have been adopted, of writing letters

from the country, and having them published in the city Mexican papers, saying that this and that

man, "therefore, a prominent Loco," is now sup-

porting Gen. Irvin. In one instance the hoaxter

was so imprudent—from not properly understand-

ing the game, no doubt—as to mention a name.

It was the case of a Dr. James Brady, said to re-

sides in a specified part of York county. The said

Doctor, as a matter of course, was a regular descen-

dent of the old Indian killers of that name—and had

denounced old FRANCIS and the "Locos," &c.—

But after the most diligent search and inquiry, on

the part of the Democrats of the county—by the offer of heavy rewards and bets—by searching the

list of vagabonds in each district, &c.—no such per-

son can be found. Neither a Dr. Brady, nor a

Doctor any-body else, has been found who would

answer the proper description, and thereby save

the Federal party from the obloquy of this con-

temptible scheme of deception. And now, if you

want to have a regular Corro Gordo fight, you

have only to ask a city Fed, "Who is Dr. Brady?"

He Santa Anna immediately.

A heavy frost visited several parts of this

county on Wednesday morning last—the 28th of

July. Four days previously the thermometer

stood at 94 in the shade.

If the Famine in Ireland caused the rise in

the price of grain—and the high price of grain can

not advance in the price of every thing else—

as the Feds tell us—why is it, now, that grain has

fallen about one-third in price, that the prices of

Iron, Coal, Lumber, Wool, &c., still keep up, and

Cotton is advancing? These are knotty questions

to the Feds, and are hard to answer. But the people

should require their answer before they aid them in the "Restoration" of the tariff of 1842—

to a "RESTORATION" of that act.

A man (name not known) was run over by

a train of cars on the Portage railroad one day last

week, and instantly killed. He had about 90 cents

in his pocket, and is supposed to have been drunk

at the time of his death.
