WOMEN AND MANNERS

What do our lady readers say to the above, which is going the rounds of the press? We put it out with some little thought of denying it, but we do not know that we can, conscientiously, with the aid of several fair damsels in our mind, upon some very awkward youths who sat in a corner, at a party we attended not many months ago.
In fact, we are rather inclined to think that the statement of our quotation is true; certainly it is true of a very large class of young ladies; especially at a ball or party. At such places, men of sense, who want fine manners and accomplishments, hide their diminished heads; while light-footed, self-possessed, em-patched fellows shine out in all their glory. Well, it would be a pity if there was no place in the world where fools might shine.
And yet this preference so often shown by women, especially young ones, for manners without sense, over sense without manners, perhaps lies at the foundation of much of that ill-concealed contempt for woman's intellect, which is abroad in the world. For, unfortunately for the ladies, in such cases, the men of sense give tone to the opinions of mankind, while the men of mere madfatters, may be omnipotent in the barber's saloon, and with the tailors, but dwindle into nothingness when they venture upon nature's great green field of thought.
Not, however, that we would deprecate the study of manners; or array sense and accomplishments as necessarily antagonistical. By no means. In fact, we believe that none but a man of sense can acquire truly polished manners. For fine manners should be as the high polish which denotes the solidity and valuable qualities of the substance that will take it. A mind of the fineness of a diamond, should wear a diamond's polish. And it is in this way alone, that we can justify womankind for their preference of manners over mere sense. They are right, in so far that truly polished manners can never exist where there are not generosity, magnanimity, keen insight into men and things, and a fine courtesy. They are wrong, and not to be defended, in so far as they mistake mere outside manners, skin-deep instead of heart-deep, for the true carriage and behaviour of the gentleman—in one word, when they do not perceive any difference between that polish which is laid on the dandy, as lustre to laid on a boat; and that which shines from its own innate brilliancy, as the clear radiance of a diamond.

Money Women

Money Women.—Beauty, says Lord Kames, is a dangerous property, tending to corrupt the mind of a wife, though it soon loses its influence over the husband. A figure agreeable and engaging, which inspires affection without the obtrusion of love is a much safer choice. The graces lose not their influence like beauty; at the end of thirty years, a virtuous woman who makes an agreeable companion, charms her husband, perhaps more than at first. The competition of love, to fire holds good in

ono respect, that the fiercer it burns the sooner it is extinguished.

THE GREAT PREVENTIVE MEDICINE

THOUGH WRIGHT'S INDIAN VEGETABLE PILLS have achieved triumph upon triumph in the cure of obstinate cases of disease, even after remedies had failed, yet their power of prevention may be justly esteemed their
CROWNING GLORY!
Stomach, it is said, 'purify the air,' but stomach medicine also, and are so for an evil. Were it within human power to maintain the
ELECTRICAL EQUILIBRIUM
between the earth and air, there would be no occasion for storms; for the air would always be pure of the human body. If kept free from morbid humors, the action is regular and healthy. But if those humors are allowed to accumulate, a crisis, or, in other words, a storm, will arise, which is always more or less dangerous.

Wright's Indian Vegetable Pills are equally well calculated to prevent the storm, or to allay it when it comes. But
PREVENTION IS BETTER THAN CURE,
besides being cheaper and less troublesome. The delay of a day in the commencement of sickness has often proved fatal, and always renders the case more difficult to manage.

Let the sickness be caused by
Changes of Weather,
high living, want of exercise, close confinement, functional derangement, or any thing else, the effect upon the body is much the same—equally dangerous, and is removable by the same means.

Have you a cold?
Let it not ripen into Consumption? Are you Dyspeptic? Beware of hypochondria. Do you find every other night on an empty stomach, for short time, will, in nine cases out of ten, cure the Dyspepsia, and thereby drive away the legion of 'devil blue.' For Headach, no medicine is superior to WRIGHT'S INDIAN VEGETABLE PILLS. Constiveness, that prolific mother of disease, is cured by a timely use of the pills, which these Pills effectually cure. By striking at the root of disease, Wright's Indian Vegetable Pills prevent all and cure all. They can hardly ever be taken amiss, if used with common discretion; and we commend them to the use of those who have not yet tried them.

DR. OSBORNE'S
INDIAN VEGETABLE RESTORATIVE
PILLS

THE unprecedented success that has attended the use of these pills in the practice of the proprietor for six or eight years, has induced him to yield to the importunities of many who have used and been benefited by them, and make arrangements to place them within the reach of the public generally. In doing so he feels called upon to say that the Indian Vegetable Restorative Pills is decidedly superior to any with which he is acquainted. They combine the properties of many of the best vegetable medicines, (used in no other pills) in such a manner as to afford not only immediate and temporary but permanent relief.
The valuable tonic which enters into their composition by their action upon the secretory organs hold in check the purgative principle, and induce gentle and natural operation without inconvenience or pain, and while they restore a natural and healthy action of the stomach, liver and bowels, they increase, instead of diminish, the strength of the patient.
They have been used as a family medicine for years by many of the first respectability—and although they are not recommended to young people that the flesh is heir to, yet it has been found necessary for them to employ any other medicine, and their occasional use will almost invariably prove an effectual preventive to disease. They are exactly adapted to the use of families, travellers and seamen; they cleanse the blood, causing a free circulation—open obstructions and promote an excellent medicine for Nausea, Indigestion, Nervous Disorders, Dejection Liver Complaint, pain in the Head, Stomach, Broth, Constiveness, Loss of Appetite, Ulcers, Intermittent fevers, Rheumatism, Scrofula, and are eminently useful in all female complaints—and in one word, all diseases arising from unhealthy secretions and impurity of the blood. Numerous testimonials of their efficacy, in particular cases, might be added, but the proprietor prefers presenting a few certificates of their general character, from persons of unquestionable candor and veracity, who would not in any degree lend their influence to promote any thing that is not of decided utility, and rely on their intrinsic merits to gain their reputation, feeling a most perfect confidence that none will abandon their use who give them a fair trial.

The following letter from the Rev. George Bowen, with other certificates in the hands of the agents, will serve to show the efficacy of these pills:
E. K. HOES, Watouah, Wisconson.
Dr. Osborne—With pleasure I inform you of the great benefits which I have derived from your pills. I have been in a delicate for some time, which has greatly alarmed me, more especially as my complaint was a consumptive one, and also had been very bilious, and have labored severely with pain in my head, and my eyes have been so affected as to turn of a yellow, cloudy, and other disagreeable complexion. My wife had suffered also from great weakness and severe pain, and as your Pills have so wonderfully relieved us, we have sounded the name of them all over our neighborhood; they will certainly be ever regarded in this place, and wherever my extraordinary cure is known, as the most valuable preparation for purifying the blood and regulating the system. I should not have known the worth of your Pills had it not been for the Rev. Wm. F. Dewitt, of Cuddeville, Sullivan co., N. Y., who with great kindness sent me a box to try them, and to that box of Pills I owe my health, and as the agent here is out of your pills, I wish you would send me a package of boxes as soon as possible.—With best wishes for your prosperity, I am, dear sir, yours respectfully,
GEO. BOWEN.
E. & W. F. IAWIN, Clearfield, July 13, 1847.
CURWENSVILLE; JAMES McMURRAY, Burnside township; G. W. & ANOLD, Luthersburg, and Levi Lutz, Frenchville, are Agents for the proprietor for the sale of the above medicine in Clearfield county.
