CLEARFIELD, PA. MARCH 11, 1848.

FOR PRESIDENT. JAMES BUCHANAN, of Pa. Subject to the decision of the National Convention.

W. W. CARR, United States Newspaper Agency, N. E. corner of Third and Dock streets, Philadelphia, is our authorized agent, to receive and receipt for subscriptions, advertisements, &c.

The address of Mr. LANE, and the Unseated Land advertisement, has entirely prevented us giving any thing like a variety this week. As for news, there is none to give.

PINE COUNTY.—Mr. Walters, on the first inst., reported a bill in the House, for the erection of a new county out of parts of Clearfield, Cambria, and Indiana, to be called Pine. It is thought the bill will pass.

The Convention.—We have nothing authentic from the Democratic State Convention, which assembled at Harrisburg on last Saturday. The proceedings should have reached us as early as Wednesday, but here is Friday night, and nothing yet. Thanks to the mail contractors.

We learn, verbally, that for President the vote stood 89 for Buchanan, 34 for Dallas, and 10 for Cass.

THE TREATY.

Up to the evening of the 3d of March, the treaty was before the Senate, and serious fears were beginning to be entertained by the friends of an honorable peace that it would be rejected. With some few alterations, such as, it is believed, Mexico would accede to, the friends of the administration are generally in favor of its ratification at an early date, lest by delay the present government of Mexico may be overthrown, and thus the prospects of peace again frustrated. The moderate portion of the Whigs, too, desire the present treaty ratified, but from the manner in which it was denounced by a whig member in the House, there is much reason to fear that a sufficient number of whig Senators will vote against it to defeat it. It requires two-thirds. A few days will tell the tale.

THE PANIC-MAKERS AT WORK.

Since the Revenue Tariff of 1846 went into operation all the business interests of our country have prospered to an unprecedented degree; and the mineral interests of Pennsylvania—the coal and iron business—especially have been reaping large rewards. Yet from some cause—unknown and unfelt by the rest of the world—those who have been thus making fortunes, appear to be dissatisfied, and, availing themselves of the advantages of a temporary decline in the price of iron in Europe—caused by the prevailing monetary distress there—have, to the number of some forty firms, issued an address to the business men of Pennsylvania, urging them to appoint delegates to a State Convention to be held at an early day at Harrisburg, for the purpose of memorializing Congress for legislative aid and protection. And thus they hope to manufacture a full decoction of panic for the next Presidential election. Why don't our farmers call upon Congress for protection, also? They have the same right, and a great deal more cause—for the decline in the price of their products is much greater than in that of either iron or coal. The reason is obvious—they are not a part of the self-styled aristocracy of the land.

THE UNION MAGAZINE, for March, came duly to hand, and is a most splendid number. It contains a plate of the Fashions, besides two most splendid steel engravings—the one "Steps to Ruin—the Last," presenting the finale to the career of a drunkard, frozen to death, at the door of his once happy home, but now miserable and dilapidated; the other, truly striking and impressive.—The bare mention of the name of the talented editor of this Magazine, Mrs. C. M. KIRKLAND, is, of itself, sufficient to recommend it to universal favor. Price, 1 copy, 63—2 copies, 65.

Mr. Clay is now at New York, making a terrible rumpus among the Taylor branch of the universal whig party.

The JOHN DONKEY is still alive, and kicking most strikingly, as will be seen by the following compliments which it pays to the present Congress on the war question. It is richly deserved:

LAUDATION EXTRAORDINARY.

Honor to the body which has the courage to stultify itself. We—stupid as we are—never dream of practically availing all that we have said—and though we do write ourselves like DONKEYS—a John-donkey, we nevertheless conceal as much of our ears as possible. Not so with our tree and independent congressmen. They despise all the restraints of reason, and the dictates of common sense; bray loudly and long, but wisely refrain from using their heels.

Honor say we to the Congress, in general, and to the House of Representatives, in particular. For what other body of men than the last would have voted a war to be unconstitutional in its commencement and continuance; denounced the President as guilty of an impeachable offence; and then very coolly made itself particeps criminis, by voting sixteen mil-

lions to carry on that whose commencement and continuation was a high misdemeanor, if not a positive crime? All the vagaries of the Parliament of Fools are as nothing compared to this. It was consistent in its folly at least. Our wise Senators care nothing for consistency, and sleep with folly, like TYLER did with BORTS—"two in a bed."

Honor then to Congress—more honor to the Senate—most honor to the House. Politicians frequently call it the "Lower House;" but judging by this last action, we should call it the lowest house, we ever heard of. Voting a large loan to sustain an unconstitutional war is not only carrying out a principle, but it is burying the principle at the same time, with the honors of war.

The Cincinnati Chloroform Case.—The Cincinnati papers of Saturday state that all hopes of resuscitating Mrs. Simmons, who suddenly sank while under the influence of chloroform, having been abandoned, a post mortem examination was made. The system of the deceased was found in a healthy state, and showed no indications of any disease that could have caused her death. The inquirer says: "The committee, we understand, are satisfied that her death was caused by the administration of chloroform. It was supposed it was given in too concentrated a form; and that insensibility was thus caused too rapidly. It was given by an inhaler, (air-tight,) a sponge saturated with chloroform being first deposited within it. We are told that the usual and safest way for its administration is by dropping it up on a handkerchief and then permitting it to be inhaled by the patient."

GOUT.—Wright's Indian Vegetable Pills are a certain cure for this painful malady; because they purge from the body those morbid humors, which are the cause not only of Gout and Rheumatism, but of every ache and pain we suffer. From four to eight of said Indian Vegetable Pills taken every night on going to bed, or if the pain is severe, night and morning, will in a short time make a perfect cure of the most violent attack, either of Rheumatism or Gout; at the same time the blood and other fluids will be so completely purified, that pain of every description will be entirely driven from the body.

Beware of Counterfeits and Imitations.—Remember that the original and only genuine Indian Vegetable Pills have the signature of Wm. Wright written with a pen on the top label of each box. The genuine for sale by R. SHAW, sole Agent for Clearfield; CHAS. & BROTHER, Curwensville; DANIEL BARRETT, Luthersburg; and wholesale at the office and general depot, 169 Race street, Philadelphia.

AFFLICTED, READ!

PHILADELPHIA MEDICAL HOUSE—Established 16 years ago, by DR. KINKELIN. The oldest, surest and best hand to cure all forms of secret diseases, diseases of the skin and solitary habits of youth, is DR. KINKELIN, N. W. corner of Third and Union Sts., between Spruce and Pine, one and a half squares from the Exchange, Philadelphia. TAKE PARTICULAR NOTICE. Youth who have injured themselves by a certain practice indulged in—a habit frequently learned from evil companions, or at school—the effects of which are nightly felt, even when asleep, and destroy both mind and body, should apply immediately. Weakness and constitutional debility immediately cured, and full vigor restored. All letters POST PAID. YOUNG MEN! If you value your life or your health, remember, the delay of a month, nay, even a week, may prove your ruin, both of body and mind. Henceforth no false modesty deter you from making your case known to one who, from education and respectability, can alone befriend you. He who places himself under DR. KINKELIN'S treatment, may religiously confide in his honor as a gentleman, and in whose bosom will be forever locked the secret of the patient. Too many thank they will hug the secret to their own hearts, and cure themselves. Alas! how often is this a fatal delusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth. COUNTRY INVALIDS, finding it inconvenient to make personal application, can, by stating their case explicitly, together with all their symptoms, (per letter, post-paid,) have forwarded to them a chest containing Dr. K's medicines approved accordingly. Packages of Medicines forwarded to any part of the United States at a moment's notice. Post Paid Letters, addressed to Dr. KINKELIN, Philadelphia, will be promptly attended to. See advertisement in the Philadelphia Spirit of the Times, Jan. 28, 1848. ly
