Democratic Banner.

CLEARFIELD, Pa., Jan'y 11, 1849.

☞We owe our thanks to Capt. WALTERS for attentively advising us of the doings at Harrisburg, and for an early copy of the Governor's message.

☞Of course nothing has as yet transpired in the Legislature, as they only effected an organization on Friday last.

Nobly Done.

The House of Representatives being equally divided, giving the four Natives to the Whigs, no organization was effected until Friday, the members balloting for Speaker in the meantime. On the 22d ballot, however, three of the Natives voted for W. F. PACKER, and thus elected him. The democrats to a man voted for Packer, every ballot, giving him 49. This is well done. May the Democrats present the same show of unanimity throughout the session.

Gen. Packer was Speaker during the last session, and his qualifications are second to no other man's.

The Message.

Last week we promised to give our readers the Governor's message in this paper—but as we did not receive it until our sheet was nearly full, we can only give a portion of it.

It is much longer than we expected. The Governor occupies three or four columns in an evidently hopeless effort to *argufy* the defunct Tariff of '42 into popular favor. His argument would answer, perhaps, if Pennsylvania was the whole Union. We say *perhaps*, because, even if she were the whole Union, we doubt whether there are not many necessaries and comforts of life which her people would find it more cheap and convenient to purchase than to raise or manufacture.—But next week we will lay this part of the Governor's Message before our readers, when they can judge for themselves.

SCALDED TO DEATH.—A little boy, son of George Barger, of Bradford township, in this county, was so badly scalded one day week before last, that death relieved it of its sufferings about twenty-four hours afterwards.

LOUIS NAPOLEON.

The New York *Tribune* has arranged a brief sketch of the President elect of France, as follows:—

A SKETCH OF LOUIS NAPOLEON.—The news of the election of Louis Napoleon to the Presidency of the French Republic will naturally excite some curiosity in regard to his history and public character. Hitherto he has only been known through the foolish affairs at Strasbourg and Boulogne, his published works, notwithstanding the merits claimed for them by his adherents, having failed to enlarge his reputation. His life has, nevertheless, been somewhat eventful, and he does not lack the advantage of varied fortune and severe experience. Whether he has profited by it, remains to be seen. From such early materials as we could procure, we have arranged for the Tribune the following brief notice of his history:

Charles Louis Napoleon, son of Louis, Ex-King of Holland, was born in Paris, on the 20th of April, 1808. His god parents were the Emperor and Maria Louisa, and during his childhood he was an especial favorite of the former. On the return of Napoleon from Elba, he stood beside him on the Champ de Mars, & when embraced by him for the last time, the Malmaison, the young Louis, then a boy of seven years, wished to follow him at all hazards. When the family was banished from France, his mother removed to Augsburg, where he received a good German education. He was afterward taken to Switzerland, where he obtained the right of citizenship and commenced a course of military studies. After the July Revolution, by which he was a second time proscribed from France, he visited Italy in company with his brother, and in 1831 took part in a popular insurrection against the Pope. This movement failed, but he succeeded in making his escape, and, his brother dying at Forli the same year, he visited England, and afterward returned to Switzerland, where, for two or three years, he contented himself with writing political and military works, which do not appear to have been extensively read.—The death of the Duke of Reichstadt in 1832, gave a new impulse to his ambitious hopes. His first revolutionary attempt, at Strasbourg, in October, 1836, completely failed, but after a short imprisonment in Paris, he was sent to this country. The illness of his mother occasioned his return the following year, and after a visit to Switzerland he took up his residence in England until his second attempt at Boulogne, in 1840.

In this affair several of his followers were killed, and he was himself taken and sentenced to imprisonment for life in the Castle of Ham. The particulars of his escape in May, 1846, after an incarceration of six years, are well known. From that time until the end of September last, when he was returned as a Deputy to the National Assembly from the Department of the Seine, he has resided in England. A late London Journal, in describing his mode of life, gives the following not very flattering account:

"He was unscrupulous in contracting obligations which were wholly beyond his means of repayment; and his most serious pursuit was the study of alchymy, by which he expected to arrive at the discover of the philosopher's stone. So vigorously did he prosecute this exploded science, at a house which he had fitted up as a laboratory at Camberwell, and so firm was his faith in the charlatan empiric whom he employed to aid him in transmitting the baser metals into gold, that he is said to have actually appropriated his revenues in anticipation, and to have devoted the first milliard of his gains to the payment of the national debt of France, in order to acquire thus an imperial throne by purchase."

The large majority by which he was elected a representative astonishes every one, and gave his followers the first encouragement to bring forth his name as a candidate for the Presidency. To defeat the acknowledged Republican party, he received also the support of the Legitimists and Orleanists, and those combined influences have elected him by an immense majority. The rest must be left to time and fate.

A MEDICINE FOR ALL SEASONS.—*Wright's Indian Vegetable Pills* suit all complaints and all ages, and may be taken at all times, and under all circumstances, with perfect safety. They are natural to the human constitution as food; and while they do not injure even the most delicate, there is scarcely a malady in the whole catalogue of human ills, but will yield to their influence.

Wright's Indian Vegetable Pills thoroughly cleanse the stomach and bowels from bilious and putrid humors, and purify the blood; & are, therefore, certain to drive pain or distress of every description from the body.

BEWARE OF COUNTERFEITS AND IMITATIONS! Remember that the original and only genuine *Indian Vegetable Pills* have the signature of WM. WRIGHT written with a pen on the top label of each box.

A PLAIN STATEMENT
THOMPSONS
Compound Syrup of Tar and Wood Naptha.

This medicine, the invention of a man who gave the subject of Pulmonary, Bronchial and Pectoral Diseases the most rigid examination, has now been before the public near four years. During this period it has performed some of the most remarkable cures on record of Pulmonary Consumption—secured the recommendation and use of physicians in their practice, and the warmest approval of thousands of persons in ordinary and severe colds, coughs hoarseness, spitting of blood, &c.

Certificates of its wonderful power have been given in some instances, and sworn to as true, by persons, who, at any time, will give verbal verifications of their contents.

But, beware of imitations, and purchase Thompson's Compound Syrup of Tar from none but advertised agents, or of those above the suspicion of dealing in counterfeits.

It is frequently used and highly recommended by some of the most respectable physicians in N. York and Philadelphia.

A FAIR OFFER
To the People of Clearfield county.

THE subscribers, deeply anxious for the welfare and prosperity of the people of Clearfield county, and being well aware that nothing will more materially aid in securing real prosperity than the general diffusion of useful information among the people, propose to publish a weekly paper, in the borough of Clearfield, at the very low price of

ONE DOLLAR per YEAR,
(In Advance.)

To enable us to do this, we must have at least ONE THOUSAND subscribers. This number, it is believed, can be raised within the limits of Clearfield county, if proper exertions are made But there must be no holding back on the part of any man who can possibly get a paper conveyed to him. It will require the unanimous effort of the citizens of the county.

We therefore appeal to those of our fellow citizens who desire the dissemination of general information among the people, to use their efforts and influence in behalf of this useful enterprize. Your county cannot get along without a paper. We are unwilling to publish one at a loss of labor and money to ourselves. To enable every man to assist in thus sustaining the name and credit of the county, therefore, we offer to reduce the subscription price within the reach of all.

For at least three years, there will be no political excitement, and our paper will bear more the character of an *Independent*, than that of either a *Partizan* or a *Neutral* Journal. That is, we shall approve, or condemn, as the acts of either party may seem to deserve—speaking our own sentiments as freemen—and allowing the free use of our columns for others of either party to do the same.—Thus we appeal with as much confidence to the members of one party as the other Our aim shall be to make our paper *beneficial* to the people of Clearfield county, by supporting and defending their interests—by aiding to develope and make profitable the various resources of the county—and by laying before them, regularly every week, a faithful sketch of the events, great and small, as they may occur throughout the world.

When so much is to be gained, shall we appeal in vain to the friendship—to the liberality—to the patriotism—*to the county pride*—of the citizens of Clearfield county? We hope not. Then, gentlemen, all you have to do, is to assist us in procuring the required number of subscribers.

It is our intention to issue the first number about the first of May next. In the meantime, persons having Prospectuses will procure all the subscribers they can, and inform us, at the February court, of the number they may have.

The paper shall be printed on new type, and as large, and perhaps larger, than the present size of the BANNER, and contain as much reading matter as any of the country papers of the State.

☞In every case the subscription price ($1) must be paid in advance—on or before 1st May, 1849.
