THE ASSAULT ON CHATTANOOGA BEGAN

Bragg Superseded by Johnson.

STEVENSON, Ala., Aug. 23.—The advance of the Army of the Cumberland appeared in front of Chattanooga on the 21st, and opened fire on the city at 10 A. M.

The enemy replied from 19 guns, mostly small guns, which did little damage, but also with one 33-pounder, which swept the opposite shore. One fire from it killed a horse and took off the leg of A. B. McCook, of Lilly's Battery.

Our fire was very destructive, and every battery which opened on us was disabled.—Lilly threw shells with great precision into the embrasures of the enemy.

The works of the enemy on the river are reported very strong, the parapets not being less than fifteen feet wide.

Contrabands report that Johnston had arrived with two trains of troops on the 20th, superceding Bragg, who had retired to Atlanta. This is corroborated by citizens.

A large steamer was sunk by our fire and a smaller one disabled.

A train of wagons and the mules of one battery, grazing on this side of the river, were captured.

Our advance reports two divisions at Chattanooga, and Hill's (late Hardee's) corps along the railroad in the direction of Bridgeport.

A detachment sent opposite to Harrison discovered no enemy.

A large fire was discovered near Chattanooga. The burning of the railroad bridge.

Sumter Probably Abandoned.

PHILADELPHIA, August 23.—The following is the substance of the latest news from Charleston brought by the steamer Arkansas, which arrived here this morning.

MONDAY.—The attack on Fort Sumter commenced at daybreak on the morning of August 17th by the siege guns of General Gilmore, and the naval battery on shore.

At six o'clock Admiral Dahlgren proceeded on board the Weehawken and raised his flag, when the Ironsides and the whole monitor fleet attacked Forts Wagner and Gregg with great fury, completely silencing Wagner and almost silencing Gregg. The wooden gunboats, seven in number, joined in the assault, and enabled the shore batteries to pour shot and shell into Sumter.

At ten o'clock Admiral Dahlgren changed his flag to the Passaic, and with the Patapsco proceeded to within 1,400 yards of Sumter, and shelled the sea-wall. His rifle guns rained missiles against the rebel works for over an hour with marked effect.

Sumter fired fifty return shots, doing no damage to the vessels, while the walls of Sumter were badly scarred. Fleet Capt. George W. Rodgers took command of the monitor Catskill, and went into the fight to within one hundred and fifty yards of the beach, in front of Wagner, and after firing a number of shot, a shot from Wagner broke a piece of the interior of the lining of the pilot-house which struck the head of Commodore Rodgers, instantly killing him, as well as Paymaster Woodbury, who was standing at his side. Both of their heads were split open. They were the only persons injured during the six hours' engagement.

The damage to Fort Sumter by the siege batteries of Gen. Gilmore was visible without the aid of glasses. The rebels had erected a false wall against the wall exposed to the army batteries, which extended to within ten feet of the top wall, which is over forty feet high and ten feet thick. The wall now is a mass of ruins, while the old wall is bored full with deep holes. The parapet is crushed, and the northwest corner of the fort cracked to the water's edge.

The harbor of Stono river is filled with torpedoes, about a dozen of which have been picked up. In the Stono a torpedo exploded under the Patapsco, raising her a foot out of water, but doing no harm to the vessel. None of the vessels were injured.

The Admiral and his officers are confident of the ability of the monitors to batter down Sumter.

THURSDAY.—This morning the weather was cool and clear. The batteries are at work. The Weehawken and Passaic are keeping Forts Wagner and Gregg silent.

When the Arkansas sailed at noon General Gillmore's siege guns were hurling their shell at Fort Sumter with marked effect; two of the monitors, the Ironsides and some of the gunboats are shelling Wagner and Gregg.

THE LATEST REBEL REPORTS.

PHILADELPHIA, Aug. 23.—The *Press* has received a Richmond *Examiner* of the 21st, containing the following, indicating the probable fall of Sumter. The *Examiner* says: "We have not heard either directly or indirectly that Sumter has fallen, or been destroyed, or evacuated; but from the despatch which is published this morning, it is reasonable to be supposed that is has been much injured, and may become untenable. The event has proven what was hitherto thought, that the heavy ordnance now used will do considerable injury to fortifications constructed of any known materials other than earth, even at the distance of 3,000 yards.

"Fort Wagner was exposed forty hours to the whole artillery of the enemy at only 800 paces, yet it still holds its own, and if in danger only from the cannonading would evidently last forever; while Sumter, which received the shot of a single battery at the immense distance stated, with occasional assistance from scary monitors, suffers severely, and probably would have already crumbled but for the sand bags with which its walls have been strengthened."

The article thus concludes: "If Morris Island should fall entirely into the possession of the enemy, he may shut up Charleston as a port of entry, but it will not enable him to take the city while its defenders are determined to fight it out."

CONFIRMATORY ACCOUNTS OF OUR SUCCESS.

NEW YORK, Aug. 23.—The Mobile *Tribune* copies approvingly an article from the Charleston *Mercury*, which says:

"*Since the Federal success* Beauregard had better lay aside his engineering and artillery dueling, which are now *played out*, and take to the bayonet, and advises the authorities to reinforce Morris Island, or else abandon Charleston to the flames."

THE MASSACRE AT LAWRENCE KANSAS

180 Killed and Wounded.

DESTRUCTION OF THE TOWN.

LOSS TWO MILLIONS.

TWO BANKS ROBBED.

JIM LANE IN PURSUIT

The notorious guerilla Quantrell from Missouri, entered Lawrence on the 20th inst. and sacked the town and brutally murdered nearly 200 citizens.

The list of killed and wounded numbers above one hundred and eighty, a majority of whom were killed instantly. The names cannot all be given now. From the ruins of the burned houses the charred remains of other victims are being taken. But one hotel is standing. Quantrell having spared it in consequence of his having made his home there some years since without expense; its proprietor, however, was shot.

The citizens were killed instantly, most of them in their houses with their wives and children clinging to them, while the murderers placed pistols to their bodies and shot them.

In one case the guerrillas drove twelve men into a house and shot them, and then burned the building. The fiends stood on the banks of the river and fired into the people, killing and wounding scores. Twenty five negro recruits were shot. The banditti took all the money they could find in the pockets or houses of citizens, and stole all the ladies' jewelry, even to the rings on their fingers.

Jim Lane escaped on horseback, and rallying about two hundred men with arms, followed and overtook Quantrell twelve miles south of Lawrence, when a fight occurred, the result of which is unknown. Quantrell is now retreating toward Missouri, burning everything on his route.

No resistance was made at Lawrence, the people being shot down as they ran through the streets in their night-clothes. Their bodies were thrown into wells and cisterns.

Madame Porter's Curative Balsam has long tested the truth that there are first principles in Medicine as there is in Science, and this Medicine is compounded on principles suited to the manifold nature of Man! The cure of Colds is in keeping open the pores, and creating a gentle internal warmth, and this is caused by the use of this Medicine. Its remedial qualities are based on its power to assist the healthy and vigorous circulation of blood through the lungs, it enlivens the muscles and assists the skin to perform its duties of regulating the heat of the system, and in gently throwing off the waste substance from the surface of the body. It is not a violent remedy, but emollient, warming, searching and effective. Sold by all druggist at 13s and 25 cents per bottle. [July 22.

RADWAY'S READY RELIEF

Proves its superiority to all other remedies, in relieving the sufferer of pain, *at once*. A few minutes is sufficient to convice the most skeptical of its marvellous powers. So swift is its action in soothing the most violent pain, allaying irritation and inflamation, in transforming the rheumatic, the crippled, and bed ridden, to the enjoyment of ease and comfort, in curing Dysentery, Diarrhœa and all internal and external pains, that patients ascribe its talismanic power to enchantment instead of the plain matter of fact results from its skillfully combined properties. Whenever there is pain use it.

UNIVERSAL CLOTHES WRINGER:

"A child can readily wring out a tubfull of clothes in a few minutes. It is in reality a CLOTHES SAVER! A TIME SAVER! and a STRENGTH SAVER! The saving of garments will alone pay a large per centage on its cost. We think the machine much more than PAYS FOR ITSELF EVERY YEAR in the saving of garments. There are several kinds, nearly alike in general construction, but we consider it important that the Wringer be fitted with Cogs, otherwise a mass of garments may clog the rollers, and the rollers upon the crank-shaft slip and tear the clothes, or the rubber break loose from the shaft. Our own is one of the first make, and it is as GOOD AS NEW after nearly FOUR YEARS' CONSTANT USE.

Every Wringer with Cog Wheels is Warranted in every particular.

No Wringer can be durable without Cog-Wheels.
