Forts Moultrie, Gregg and Beauregard Shelled for Three Hours.

Greek Fire Thrown into Charleston.

Beauregard Protests Against It.

NEW YORK, August 28.—The steamer Arago, from Charleston bar, on the 25th, arrived here to-day.

OFF MORRIS ISLAND, August 21, Noon.—On Saturday at midnight, Admiral Dahlgren, with five monitors, advanced in the darkness on Fort Sumter, opening fire at three o'clock, and keeping it up until six o'clock.

The fort during the five hours' fire upon it, was struck over a hundred times, the balls tearing through the sea wall and doubling the number of port holes. The whole parapet was also carried away.

No signals were given until the whole fleet opened, and then the fire was one of the most terrific description. Sumter fired one gun in response five times, but Moultrie, Gregg and Beauregard for three hours rained shell on the monitors, failing to do them any harm. The monitors were struck seven or eight times, but no one was injured.

Sumter is defunct, and an immense pile of rubbish. The only gun left was thrown off the wall yesterday afternoon.

General Gilmore, on Thursday, notified Beauregard that if he did not surrender the forts he would shell the city within twenty-four hours. At the same time he requested him to remove the women and children.

No attention was paid to the notice, and, on Friday night, General Gilmore threw a fifteen-inch shell into Charleston, charged with Greek fire. On Saturday afternoon Beauregard sent down a flag of truce with an urgent protest, denouncing "Greek fire" as a villinous compound, unworthy of civilized nations and demanding that more time be allowed to remove the women and children.

The English, French and Spanish consuls also denounced the short time given by General Gilmore, and claimed more time to remove the subjects of their respective countries.

General Gilmore yesterday replied by a renewal of the demand for a surrender of the forts and public property. Beauregard replied by asking for a truce of forty hours.

General Gilmore refused to give any more time or accept any other terms than an unconditional surrender.

At twelve o'clock last night the shelling of the city with "Greek fire" was resumed.

The ruins of Sumter are now held by the guns of Fort Moultrie. There are only sufficent men in the ruins to keep the rebel flag up. The latter is shot away every few hours.

THE BOMBARDMENT OF SUMTER.

The Richmond *Examiner* of the 24th inst., contains full confirmation of the report that Gen. Gilmore had succeeded in throwing shell into the city of Charleston.

After stating that Gilmore has thrown twelve shells "into the inhabited part of the city," and remarking that such "baseness" should occasion no surprise, the *Examiner* says:

"*But what does startle is the distance from which the shells were thrown. The battery is in a marsh five miles from the city.* It has long been claimed by the inventors of the modern ordinance that the new artillery was available for such purposes at that distance; but this is the first practical test of their pretensions on record, and necessarily attracts much attention. Not a doubt now remains that the spirit of Charleston is about to be tried in the terrible ordeal of a bombardment,

THE LATEST.

BALTIMORE, August 29.—The following comes specially by telegraph from the highest authority. I can vouch for its truth.

FORTRESS MONROE, August 28.—The gunboat Western World, Capt. Gregory, arrived this morning from off Wilmington, N. C., and reports the arrival there of the United States steamer Florida from Charleston, with the positive news that Fort Sumter and Battery Wagner had fallen, and were occupied by the Union troops, and that the Stars and Stripes were triumphantly waving over both fortressess.

The Union troops were in the highest spirits and certain of posessing speedily all Morris Island, and reducing Fort Moultrie.

The capture and occupation of Charleston in a few days by the Union troops was morally certain.

FROM NEWBERN.

A REBEL WAR VESSEL RUNS THE BLOCKAD..

Jeff. Davis calls for 500,000 Black Troops,

They are Offered Freedom and Fifty Acres of Land.

FORTRESS MONROE, August 29.—The steamer C. W. Thomas arrived here to-day from Newbern with Lieutenant Sterling, of General Peck's staff, who is a bearer of dispatches.

A dispatch from the blockading fleet, says on the morning of the 17th a large sloop of war of ten guns, with the British flag flying, swept past the blockading steamer, and immediately hoisted the rebel flag and passed into the port of Wilmington.

This is the fourth rebel war vessel that has run the blockade within the past six weeks.

Southern papers received at Moorhead City, N. C., say that Jeff Davis has decided, after a conference with the Governors of the confederate States to call out half a million black troops, who are to receive their freedom and fifty acres of land at the end of the war.

Gen. Meredith, Union Commissioner for the exchange of prisoners, recently held an interview at City Point with the Rebel Commissioner of Exchanges, to endeavor to effect a settlement of difference between the Federal Government and the Rebels, relative to an exchange of prisoners. As a result of the interview it is expected that arrangements will be completed for a speedy resumption of exchanges of prisoners on both sides.

The Army of the Cumberland, under Gen. Rosecrans, crossed the Tennessee river on the 29th inst., at four points. Thirty-five rebel pickets were captured opposite the town of Stevenson. At Shell Mound General Reynolds captured many prisoners, and at Falling Waters creek he took a rebel camp.—Amongst the captured were the famous guerrilla Mays and a rebel Tennessee congressman, named Cannon.

THE *Sentinel*, a union paper published in Western Missouri, was destroyed on Thursday night, by a party of Missouri militia.

AN HONEST CONFESSION.

Unlike several of our Northern journals, the Raleigh (North Carolina) *Standard* considers it a great crime to conceal the truth. It announces that it will, therefore, tell the truth, no matter what may be the consequence and begins by this confession:

From the beginning of the war until the present, the enemy has slowly but surely gained upon us; and but for the extraordinary endurance and courage of our troops, his flag would now be floating at the capitol of every State. We have lost Missouri, Maryland, Kentucky, Tennessee, the Mississippi Valley, Texas, Louisiana, Arkansas, and considerable portions of other States. Vicksburg has fallen, as we feared many months ago it would; Port Hudson has fallen; Charleston, Mobile, and Savannah will go next. General Lee is attempting to retire from Maryland with his spoils, but no substantial victory has crowned his arms. We are weaker to-day than when he crossed the Potomac into Maryland.—Our recruits in the way of conscripts will scarcely keep our regiments full, and we cannot hope to add materially to our forces. *Our fighting population is pretty well exhausted. Everybody knows this; the North knows this, and so does Europe.* On the contrary, our enemies, flushed with triumph have a large army in the field, and their President has just called for three hundred thousand more. He will get them. The movement on Pennsylvania by Gen. Lee, and the fall of Vicksburg and Port Hudson, have hushed all clamors for peace in the North and have banded the people there as one man for the prosecution of the war. We have nothing to hope for from foreign nations, and just as our cause is, we see no indications that Providence is about to interpose in our behalf. The war, then, will go on. Our side or the other must conquer. Will five millions of whites conquer twenty millions of the same race? Will they conquer a peace on the very soil of these twenty millions?—Not in any event, if these twenty millions possess ordinary manhood, and fight.

Madame Porter's Curative Balsam has long tested the truth that there are first principles in Medicine as there is in Science, and this Medicine is compounded on principles suited to the manifold nature of Man! The cure of Colds is in keeping open the pores, and creating a gentle internal warmth, and this is caused by the use of this Medicine. Its remedial qualities are based on its power to assist the healthy and vigorous circulation of blood through the lungs, it enlivens the muscles and assists the skin to perform its duties of regulating the heat of the system, and in gently throwing off the waste substance from the surface of the body. It is not a violent remedy, but emollient, warming, searching and effectiv. Sold by all druggist at 13s and 25 cents per bottle. [July 22.
