WONDERFUL SCIENTIFIC DISCOVERY.—At the present time thoughtful minds everywhere are looking for the revelation of new and important discoveries in science, and when a theory is presented which discloses new light and has removed the veil of obscurity from a subject of the highest importance, upon which much has been written, it is proper that the claims of the theory be presented and carefully examined and tested, which is declined to transcend in importance to suffering humanity, all other discoveries, the lightning rod and telegraph not excepted. We hold that the human system is but a galvanic arrangement, with its acids and alkalies, constituting the positive and negative forces, and that every mental and physical manifestation, either voluntary or involuntary, is the result of this arrangement; that digestion, circulation, secretion, and excretion are wholly attributable to the law of electrical influences; that the nerves are the conductors of this current, and that there is a polar action established through the nervous system, which connects with every part of the body, establishing and preserving a proper balance of the electric element, which constitutes health, and a disturbance of which causes disease; that there are strictly but two conditions of disease—the one positive, the other negative; and as electricity possesses these two inherent principles, it will, if applied according to the electric polarities and requirements of the system, arrest, or, in other words, neutralize the disease by the restoration of proper polar action. We also assert that all diseases, whether they are set strictly upon electrical principles; that from decomposition the latent electricity is set free, and that, through the electrical polarities of the nervous system, all changes are produced either for good or for evil; that in the incipient stage of disease it may tend to equalize the forces and restore harmony; but after the case has become refractory, paralyzing the nervous communications, and changing the constituents of the fluids, and arresting the digestive action of the stomach and its power of absorption, an internal process of medication, either by, or over, the surface in removing the cause of the disease, its only tendency being to multiply and complicate the symptoms.

On the contrary, by restoring the vital element upon which life depends, can be directed to any part of the body, and even after the vital functions are paralyzed, possesses the power of arousing the dormant element, equalizing the circulation, and the system, by a self-sustaining system. One very important feature of this treatment is, that no time is lost in experimenting with disease. By means of electricity the accurate diagnosis is given at once, determining the localities and character of the disease, and indicating the treatment to be pursued. The cure is effected by the direct action of the operator, and a distance of several miles and the delicate nerves of a child without any unpleasant sensation. All those who have long suffered from painful and obstinate disease—Asthma, Chronic, Inflammatory or Catarrhal—will be relieved to call and consult.

Drugs, Medicines, &c.

NIXON'S COLUMN. At no time since the commencement of Nixon's Drug Store, has there been so FULL AND COMPLETE A STOCK of Fresh and PERFECTLY RELIABLE MEDICINES

To offer to those who are so unfortunate as to be compelled to indulge in such luxuries. The fact is, that unless there are large and rapid sales, no establishment can supply its customers with strictly fresh and reliable remedies, in the shape of Drugs and Chemicals. Time affects with much more rapidity many more articles in medicine than in any other merchandise, hence the necessity of rapid change of stock to secure to the purchaser just what is wanted. NIXON is able, by rapid changes in stock, always to present the very best to his customers. He desires to keep the above facts before the community, and to solicit a continuance of favors. In connection with his full stock of

DRUGS AND CHEMICALS, he offers a full assortment of PATENT MEDICINES OF STANDARD CHARACTER. Such as:

Jayne's Family Medicines, Ayer's Pectoral, Ayer's Sarsaparilla, Ayer's Pills, Helmholtz's Preparations, Hostetter's Bitters, Drake's Bitters, German Bitters, Wichter's Pine Tree Cordial, Tarrant's Aperient, Kennedy's Discovery, Han's Liniment, Blair's Hypophosphites, Hobbes's Pills, Wright's Pills, Morse's Pills, Brandreth's Pills, Leidy's Pills, Townsend's Pills, Perry Davis's Pain Killer, Farnsworth's Vermifuge, Worm Confections, Worm Candy, Plasters, Ointments, Washes, Lotions, with many other articles in this line, all of which are sold only on the representation of the makers of the articles.

BAZIN'S, LUBIN'S, EDRIH'S and other CHOICE PERFUMERY AND SOAPS. Hair Dyes, Pomades, and other articles for the Hair, among which is

NIXON'S BROMATRICHOS. OR HAIR FOOD. One of the best and most cleanly articles for the Hair, containing no grease, yet rendering the Hair soft and glossy, and preventing it from prematurely falling off.

NIXON'S GLYCERINE LOTION. Which is just the article needed for the removal of Dandruff from the Scalp, and leaving the Hair soft and glossy. In presenting these two articles for the Hair, the Proprietor has the satisfaction of knowing that they do all that is represented.

NIXON'S TETTER OINTMENT continues as much a favorite as ever, and it can and does perform remarkable cures of Skin Diseases, and is guaranteed in all cases to act as represented.

HORSE AND CATTLE POWDER. In less than one year and a half over TWENTY-FIVE HUNDRED PACKS HAVE BEEN SOLD, and the sales are on the increase. It is just the powder for

The Horse, The Cow, The Sheep, The Hog. It is neatly put up and full directions go with each pack. Hundreds of testimonials could be presented, but the proprietor deems it best to let it travel on its own merits.

RABBIT CROUP SYRUP Is made only at Nixon's for this County, and has a host of friends who can testify to its merits.

Nixon is able to offer a large stock of Trusses, Shoulder Braces, Supporters, Bandages, Combs, Brushes, Toilet Powders, Perfumes, Shaving Soaps, Toilet Soaps, Pocket Books, Purse, Indelible Ink, Tooth Powder, Tooth Washes, Tooth Brushes, Sponges, Flesh Brushes, Pure Spices, Starch, Indigo, Store Black, Saponifer, Rat and Roach Destroyer.

In conclusion, Nixon begs leave to say that his stock will always be kept up to the very best point, and will include everything cal-

culat-

ing to give health and comfort to the afflicted; besides such articles as taste requires. The important labor in business is money, and as all merchandise can be had at lower rates for cash than time, Nixon desires to make

HIS BUSINESS STRICTLY CASH. June 17, 1863.
