WONDERFUL SCIENTIFIC DISCOVERY .-- At the present time thoughtful minds overywhere are looking for the revelation of new nimis overywhere are looking for the revelation of new and inaportant discoveries in science, and when a theory is presented claiming to have discovered new light and to have removed the veil of obscurity from a subject of the highest importance, upon which much has been exitten, it is proper that the claims of this theory be presented and carefully examined and tested, which is destined to transcend in importance to suffering humanity, all other discoveries, the lightning rod and telegraph not excepted. We hold that the human system is but a galvanic arrangement, with its acids and alkalies, constituting the positive and negative forces; and that everymental and physical manifestation, either voluntary or involuntary, is the result of this antagonism; that digestion, circulation, secretion, and excretion are wholly attributable to the law of electrical influences; that the nerves are the conductors of Electricity and that there is a polar action established through the nervous system which connects with every part of the body, establishing and preserving a proper balance of the electric element, which constitutes—health, and a disturbance of which causes disease; that there are strictly but two conditions which constitutes health, and a disturbance of which causes disease; that there are strictly but two conditions of disease; the one positive, the other negative; and as fizeratery possesses these two inherent principles, it will, if applied according to the electric polarities and requirements of the system, arrest, or, in other words, and action. We also assert that all drugs taken into the system act strictly upon electrical principles; that from decomposition the intent electricity is set free, and that, though the electrical polarities of the nervous system, all changes are produced either for good or for evil; that In the inclpient stage of disease it may tend to equalize the forces, and restore harmony; but after the case has

all changes are produced either for good or for evil; that in the inclpient stage of discase it, may tend to equalize the forces, and restore harmony; but after the case has become refractory, paralyzing the nervous communications, and changing the constituents of the fluids, and arresting the digestive action of the stomach and its power of approbation, no internal process of medication, ever has, or ever can, succeed in removing the cause of the disease, its only tendency being to multiply and complicate the symptoms.

On the contrary, Executerry being the vital element upon which life depends can be directed to any part of the body, and even after the vital functions scennparalyzed, possesses the power of arousing the dormant energies, equalizing the circulation, and the system to a self sustaining system. One very important feature of this treatment is, that no time is lost in experimenting with disease. By means of electrical test an accurate diagnosis is given at once, determining the [scality and chracter of the disease, and indicating the featurent to be pursued. The curients are perfectly under the control of the operator, and can be regulated to suit the delicate nerves of a child without any unpleasant sensation. All those who have long suffered from painful and obstinate disease—Acute, Chronic, Inflammatory or Paralytic—are invited to call and consult. ONSULTATION FREE.

Save your money. Do not be persuaded to purchase articles at 3s. to \$1, which do not contain the virtues of a 13 ct Bottle of Madame Porter's Curative Balsam, the cost of manufacturing which is as great as that of almost any other medicine; and the very low price at which it is sold, makes the profit to the seller apparently small, and unprincipled dealers will sometimes recommend other medicines on which their profits are larger, unless the customers insist upon having Madame Porter's and none other. Ask for Madama Porter's Curative Balsam, price 13 cts., and in large bottles at 25 cts., and take no other. If you can not get it at one store you can at another.

TIXON'S COLUMN. At no time since the commencment of Nixon's Drug Store, has there been so FULL AND COMPLETE A STOCK of Fresh and

PERFECTLY RELIABLE MEDICINES To offer to those who are so unfortunate as to be compelled to indulge in such luxuries. The fact is, that unless there are large and rapid sales, no establishment can supply its

customers with strictly fresh and reliable remedies, in the shape of Drugs and Chemicals. Time affects with much more rapidity many more articles in medicine than in any other merchandise, hence the necessity of rapid change of stock to secure to the purchaser just what is wanted. NIXON is able, by rapid changes in stock, always to present the very best to his customers. He desires to keep the above facts be fore the community, and to solicit a continuance of favors. In connection with his full
