MARYLAND UNION PLATFORM.

The Union men of Washington County, Md., met last week, and nominated their ticket and adopted their platform. It has the true ring, as the following samples abundantly establish:

Resolved, That the Union men of Washington County are unconditionally loyal, and unconditional in their attachment to the preservation of the Union established by our ancestors.

Resolved, That the tangible manifestation of the Union can only be seen, known and realized in and by the officers of the Federal Government, and that the best evidence of loyalty is a cheerful and hearty support given to the said officers in the rightful discharge of their official trust.

Resolved, That, therefore, we regard the present Administration as practically the Government, and will most heartily aid and support the same in the proper use of its authority for the suppression of a causeless rebellion.

Resolved, That Government, like an individual, may err, and that it is no part of true patriotism to be continually finding fault with errors, where omniscience would be requisite to secure exemption from mistakes.

Resolved, That the soil, climate, material wealth and resources of the State of Maryland demand the speedy substitution of free white for slave labor.

Resolved, That we are in favor of emancipation and the extinction of slavery in our State.

THE military commander of Baltimore has a novel mode of punishing offenders. Those who sell liquor to soldiers are paraded thro' the streets with placards attached to their persons, bearing the inscription, "I sold liquor to soldiers." On Tuesday last, a detective of deserters caused the arrest of a man named Scholl for disloyalty, and it subsequently appeared that Scholl was one of the most loyal men of Baltimore, and that the act of Brocker was prompted by malice. He was, therefore, marched through the streets, bearing upon his person a placard with the following inscription: "I am a liar." "I caused the arrest of an unoffending Union man."

MARRIED.

On the 6th inst., by the Rev. R. P. Thomas, Mr. JULIUS C. LADD to Miss SARAH M. M'CURDY, both of Loudon.

George Steck & Co's Pianos.—CRESSON SPRINGS, Aug. 1863.—Mr. J. E. GOULD, Seventh and Chestnut streets, Philadelphia.—DEAR SIR.—Having had frequent opportunities of examining the Pianos made by Messrs. George Steck & Co., New York, during the past few years, in the practice of my profession as Tuner, I pronounce them the most perfect instruments I have ever seen.

In point of touch, equality, and *singing tone* they may defy comparison with any and all other makes, while in the upper two octave (treble notes) they are *incomparably* the finest I have any knowledge of.

Madame Porter's Curative Balsam has long tested the truth that there are first principles in Medicine as there is in Science, and this Medicine is compounded on principles suited to the manifold nature of Man! The cure of Colds is in keeping open the pores, and creating a gentle internal warmth, and this is caused by the use of this Medicine. Its remedial qualities are based on its power to assist the healthy and vigorous circulation of blood through the lungs, it enlivens the muscles and assists the skin to perform its duties o regulating the heat of the system, and in gently throwing off the waste substance from the surface of the body. It is not a violent remedy, but emollient, warming, searching and effective. Sold by all druggist at 13s and 25 cents per bottle. July 22.

FRUIT TREES! FRUIT TREES! SHADE TREES, ETC.—I take great pleasure in calling the attention of planters to my STOCK OF TREES, which is unusually fine, well grown and thrifty, and the assortment very large.

To those who contemplate planting this Fall or next Spring, I believe I can offer special inducements, especially of our Standard Fruit, the APPLE, of which I have *several hundred thousand trees*, all grown on soil having the natural elements to furnish an abundance of fine fibrous roots, so indispensable to the safe removal and certain and vigorous subsequent growth. All have been scientifically pruned, with a view to furnish Trees with handsome, well-formed heads and heavy smooth trunks. I would invite the particular attention of persons visiting my Nursery to this distinctive quality, so seldom met with, yet so desirable in a Tree, but which is obtained at considerable outlay at time and labor on the part of the Nurseryman, coupled with a knowledge of vegetable Physiology practically applied. *Planters should consider the quality of Trees before the price.*

I would also invite particular attention to the condition of my PEACH TREES, which I grow on the poorest soil I have, without the application of any fertilizer whatever, except that which nature supplies through the elements of rain and sunshine. The vigorous growth and handsome form of the Trees is a sufficient recommendation. If my advice is put to practice by the planter, (which is very simple and easily carried out,) I will guarantee the Peach Tree to live and grow as well as they ever did for our fathers before us. A single case in point is corroborative testimony: About twelve years since the place I now occupy (which was noted for its Peaches forty years ago) had not a dozen living Peach Trees on it that were not yellow, sickly and worm eaten, and afflicted with all the ills that the Peach Tree has hitherto been heir to, although a number were annually planted. I commenced by rooting out the diseased trees and planting healthy and improved varieties, and now have growing several thousand trees of bearing age, some of my first planting, clear of worms and as healthy and luxuriant as can be.

My Trees in the nursery are grown from healthy stock, both seeds and buds selected with scrupulous care. Those who wish to plant Peach orchards would do well to send in their orders early this fall, as the stock of Peach trees may run short by Spring

Of all other Fruit trees we have an ample and well selected stock. CHERRIES, both tandard and dwarf, upwards of forty varieties, very fine.

GRAPE VINES, including all the new sorts, many of which are now well tested and found indispensible.

STRAWBERRY PLANTS.—Of these I have a fine stock of choice kinds, strong, well rooted plants.

EVERGREEN AND DECIDUOUS TREES and Shrubs for shade and ornament, of all sizes, a large assortment.

For a full list of articles see my Descriptive Catalogue, which will be mailed to all applicants.

Persons who have not already ordered what they should have, through my Agents, should do so at once. Those whom the Agent fails to call upon can send their orders by mail.

All reasonable inquiries relating to Horticulture cheerfully answered. Address B. L. RYDER,

He keeps a large supply of medicines at his rooms, which can be had at all times. Those wishing advice or examination of the Lungs will do well to call on him as above. He makes no charge for advice, but for a thorough examination with the Respirometer, his price is $3.

Many persons are afraid to have their lungs examined by Dr. Schenck for fear that they will be found incurable, and by that means it is put off until it is too late. How much better it would be to know their condition at once, as by abundance of evidence, Dr. S. has shown sufficient certificates in this city that he has cured advanced stages of Consumption.

DR. SCHENCK'S Principal Office is No. 39 North Sixth Street, Philadelphia, Pa., where letters for advice should always be directed.
