THE WHEAT CROP—SEED WHEAT.

During the next week the Wheat crop of Franklin county will be ready for the reaper, and the injuries sustained by this important crop from various causes demand notice.

It is generally noticed that the white or smooth Wheat has suffered most by the winter; and its unfavorable appearance several weeks ago has made many farmers resolve not to sow it again.

It is a popular error that seed Wheat must be changed every few years to preserve its growth and yield. Such is not the case.

must utterly fail, where the red will but partially fail; and it is never wise to sow it upon stubble-ground.

U. S. 10-40 BONDS.—These Bonds are issued under the Act of Congress of March 8th, 1864, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under any state or municipal authority.

Subscribers to this loan will have the option of having their Bonds draw interest from March 31st, by paying the accrued interest in coin (or in United States notes, or the notes of National Banks, adding fifty per cent. for premium.)

Exempt from Municipal or State Taxation, their value is increased from one to three per cent. per annum, according to the rate of tax levies in various parts of the country.

At the present rate of premium on gold they pay OVER EIGHT PER CENT. INTEREST in currency, and are of equal convenience as a permanent and temporary investment.

It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith and ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is held to secure the payment of both principle and interest in coin.

These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of their interest.

It may be stated in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768,975,000. The interest on this debt for the coming fiscal year will be \$45,337,125, while the customs revenue in gold for the current fiscal year ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United States Treasury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.

Subscriptions will be received by the First National Bank of Philadelphia, Pa. Second National Bank of Philadelphia, Pa. Third National Bank of Philadelphia, Pa. AND BY ALL NATIONAL BANKS which are depositaries of Public money, and all RESPECTABLE BANKS AND BANKERS throughout the country, (acting as agents of the National Depository Banks.) will furnish further information on application, and AFFORD EVERY FACILITY TO SUBSCRIBERS.
