Sewing Machines.

LONG LOOKED FOR COME AT LAST.

The Perfection of Sewing Machines.

THE CELEBRATED

FLORENCE SEWING MACHINES.

Can now be seen at the residence of MRS. R. P. HAZELET, South Main Street, immediately opposite Jr. A. H. Seevers' Chambersburg,

where all persons interested in Sewing Machines are invited to call and examine it is worthy their attention.

It has been the object of the FLORENCE SEWING MACHINE COMPANY to supply a machine free from the objections attached to other first class machines, and after the patient, untiring labor of years, and a liberal expenditure of capital in securing the first mechanical talent, their efforts have been crowned with success, and they are now offering to the public the most perfect Sewing Machine in the world. Among its many advantages over all other machines, may be mentioned

1st. It makes *four different stitches* on one and the same machine, each stitch being perfect and alike on both sides of the fabric.

2d. *Changing from one kind of stitch to another* as well as the length of the stitch, can readily be done while the machine is in motion.

3d. *Every stitch is perfect in itself*, making the seam secure and uniform, combining elasticity, strength and beauty.

4th. *It has the reversible feed motion* which enables the operator to run the work to either the right or left or stay any part of the seam or loosen the ends of seams without turning the fabric or stopping the machine.

5th. *It is the most rapid sewer in the world*, making five stitches to each revolution, and there is no other machine which will do so large a range of work as the FLORENCE.

6th. *It does the most delicate or finest work* with equal beauty, without tension or breaking of thread.

7th. It hems, fells, binds, gathers, braids, quilts, and gathers and sews on a ruffle at the same time.

8th. Its simplicity enables the most inexperienced to operate it. Its motions are all positive, and there are no fine springs to get out of order, and it is adapted to all kinds of cloth-work, from thick, to thin, and it is almost noiseless.

9th. The FLORENCE SEWING MACHINE is unequalled in beauty and style, and must be seen to be appreciated.

☞ MR. R. P. HAZELET, having been appointed sole Agent for the sale of the above Sewing Machines in Franklin county, respectfully invite the Ladies to call and examine the FLORENCE.

☞ All Machines warranted for one year. [aug31

A CARD.

THE MUSICAL PROFESSION OF NEW YORK TO WM. B. BRADBURY.

We have examined, with much care, Mr. Wm. B Bradbury's New Scale Pianofortes, and it is our opinion that, in power, purity, richness, equality of tone, and thorough workmanship, Mr. Bradbury's instruments excel.

We find great brilliancy and a beautiful singing quality of tone most happily blended. We have RARELY seen a square Piano combine so many of these qualities essential to a PERFECT INSTRUMENT.
