

CAPTURE OF WILMINGTON!

How Our Army Celebrated Washington's Birth-day!

700 REBELS & 30 GUNS CAPTURED!

WASHINGTON, Feb. 21. The following official report of the capture of Wilmington has been forwarded by this Department to General Grant.

E. M. STANTON, Secretary of War.

General U. S. Grant, City Point.

Our troops entered Wilmington on the morning of the 22d inst. After the evacuation of Fort Anderson, General Schofield directed Cox to follow the garrison towards Wilmington, while Terry followed Hoke on the east side of the river.

The latter took up a new line, four miles from Wilmington, but was so closely pressed by Terry that he could send no troops to the west side. On that side the rebels made a stand behind Town Creek, but on that side the rebels had troops low down, on a flatboat, attacked them and routed them, taking two guns and three hundred prisoners. On the 21st Cox pushed to the Brunswick river, opposite Wilmington, where the bridges were on fire, and on his arrival the rebels began burning cotton and rosin in the city, and left it that night.

Our captures, including Fort Anderson amount to about 700 prisoners, and 30 guns. Citizens state that the rebels burned over 1,000 bales of cotton and 15,000 barrels of rosin. The Union feeling showed itself quite strong in the city.

Terry followed Hoke northward.

C. B. BOSTOCK, Lt. Col. A. D. and B. H. Brig. Gen. REPORT OF ADMIRAL PORTER.

CAPE FEAR RIVER. U. S. FLEET-SHIP MAINTENANCE, Feb. 22.

Sir: I have the honor to acknowledge that Wilmington has been evacuated and is now in possession of our troops.

After the evacuation of Fort Anderson I pushed the gunboats as far as the water would permit, the army pushing on the same time on the right and left banks of the river.

After ascending & buying out the middle ground at Big Island, I succeeded in getting the gunboat over and opened fire on Fort Strong, the work commanding the principal obstructions where the rebels had sunk one of their largest torpedoes, the North Eastern. Our fire soon drove the rebels away from the fort, but now and then they would fire a shot, one of which struck the Susquehanna below water and sank her.

She was struck once or twice more, but with no loss of men. That night, the 20th, the rebels sent down 200 floating torpedoes, but I had a strong force of picket boats out and the torpedoes were sunk with safety.

One got in the wheel of the Osceola, blew her wheel-house to pieces, and knocked down her bulkhead in board, but did no damage to her.

Some of the vessels picked up the torpedoes with their anchors.

The next morning I spread two fishing nets across the river.

Yesterday evening General Ames, with his division, moved within a short distance of the fort and had a sharp engagement with the rebels. On hearing the musketry, and seeing where our troops were, I opened a rapid fire on the fort and along the enemy's line. The fort responded with three or four shots, but was soon silenced.

This morning we heard that General Terry was within the works, and the road was clear to Wilmington. The Montauk could not get across the shoals without lightning, which was a work of some labor.

I had the pleasure of placing the flag on Fort Strong, and at 12 o'clock today shall fire a salute of thirty-five guns, this being Washington's birthday. I am, sir, very respectfully, yours, &c.

D. D. PORTER, Rear Admiral.

Hon Gideon Welles, Secretary of the Navy.

SUMMARY OF WAR NEWS.

Seventeen flags captured in the battles around Nashville, were presented to the Secretary of War on Wednesday, fifteen of the captures making the presentation in person. The latter were all granted a furlough of thirty days.

The Army of the Potomac, according to Richmond papers, is throwing up heavy works on the Brunswick stage road, between Beaman's Station and Monk's Neck bridge. The railroad is now being extended to the new position on Hatcher's Run.

The capture of Gen. Crooks and Kelly at Cumberland by a small party of rebel guerrillas, already has been reported. It appears that about two o'clock on Tuesday morning, fifty or sixty rebels entered the town, and dividing into squads, the St. Nicholas Hotel and Revere House was visited, and both the Generals allowed to escape.

The capture of Gen. Crooks and Kelly at Cumberland by a small party of rebel guerrillas, already has been reported. It appears that about two o'clock on Tuesday morning, fifty or sixty rebels entered the town, and dividing into squads, the St. Nicholas Hotel and Revere House was visited, and both the Generals allowed to escape.

FINANCE AND TRADE.

Money is very easy in the cities as well as in the country, and will be more abundant in Franklin county this spring than ever before.

Large investments have been made in Oil and Coal stocks, besides an immense amount of government bonds taken by our people; but there will still be a larger surplus this spring than ever before.

Money will seek investments in every shape; but just now the disposition is to go into Oil and other stocks which are more or less speculative in their character. When money is superabundant it naturally goes to the more profitable channels, and as Oil affords better chances for great success, it is preferred notwithstanding the well known fact that a large majority of such stocks must prove failures. Still, when so generally successful as they are, they are so generally successful that men with spare means always risk part of their capital in them. In this way Oil stocks have hitherto sold, and will continue to sell without much regard to their intrinsic value, because the money is here and to spare, and there is one chance in a score that such stocks may go to fabulous prices compared with their original cost.

There has been a flutter in Sterling stock lately in this section and entirely without reason. The great severity of the winter has very much retarded operations in the Oil regions; but the prejudicial reports relative to Sterling are wholly unwarranted. Several overland parties in attempting to relieve themselves of the stock, but we believe that none who understand the ac-

tual condition of the company have parted with their stock, and we advise that those who hold it shall keep it. It will be producing a handsome revenue, and the company have two engines on the grounds to sink additional wells. Its present resources, however, will pay a fair dividend, even if no additional oil should be found. We learn that the Directors will, on the 15th of March, declare a dividend of one per cent. on the par value of the stock (\$5 per share) from Oil revenues, which is two and a half per cent. on the cash cost of the shares. We have every reason to believe that this company will be able not only to continue its dividends but to increase them. Both the Sterling and Imperial will declare their dividends quarterly. The Sterling well was suspended for several weeks to be re-tubed—an operation that is usually necessary about twice a year; but the Superintendent advised the President on Saturday last that it is again in successful operation. The rumor that the well had failed is without any foundation in fact.

A new enterprise is now offered called the Sheridan and Cherry Run Oil Company, with several of its directors and its President in this section of the State. It has very valuable territory, and unless all human calculations fail it must be very productive. It has produced wells and most successful companies all around it, and the vigor with which it will be developed, gives every assurance that it must succeed. The stock will not be offered for any great length of time, and persons desiring to procure it should subscribe at once. See advertisement in another column.

A correspondent of the Spirit complains in rather an ungenerous manner of our recent reference to the bulling and bearing of the Pittsburg and Cherry Run stock in this market. We did not, and do not now, pretend to know whether the basis of the company is a good one or not. It may prove very good stock; but we did object to the reckless manner in which it was tossed from post to pillar here at prices ranging from fifty to eighty per cent. higher than it sold on the boards in Pittsburg, and we felt bound to caution our readers to leave it in the hands of the bulls and bears until it should settle. The fact that the stockholders here have appointed a committee of their own number—Messrs. William McClellan and J. McDowell Sharp—to go to Pittsburg and inquire into the action of the board in selling out their interest in their producing well, more than justifies the caution we gave to our readers two weeks ago. The article in the Spirit came from the brokers who have dealt largely in the stock in question.
