THE OLD HOUSE.

BY ALICE CAREY.

My little birds, with backs as brown As sand, and throats as white as frest, I've searched the summer up and down, And think the other birds have lost The times you sang, so sweet, so low, About the old house, long ago.

My little flowers, that with your bloom. So hid the grass you grew upon, A child's foot had scarce any room Between you—are you dead and gone?
I've searched thro' fields and garden's rare My little hearts, that beat so high

With love to God and trust to men, Oh, come to me, and say if I But dream, or was.I dreaming then, What time we sat within the glow

My little hearts so fond, so true, I searched the world all far and wide, And never found the like of you; The darkness 'twixt us now that stands

Interesting Questions and Answers Rel-ative to the 7-30 U.S. Loan.

Mr. Jay Cooke, of Philadelphia, who for so long a time had the management of the popular 500 million 5-20 Loan, has just been appointed by Secretary Fessenden the General Agent to dispose of THE ONLY POPULAR, LOAN now offered for sale by the Government, viz: the "SEVEN-THIRTY." In entering upon his duties he desires to answer plainly the large number of questions daily and nourly propounded to him, so that his fellow-coun-trymen may all understand what this "Seven-Thirty Loan" is—what are its peculiar merits,— how they can subscribe for or abtain the notes, &c.

lst Question. Why is this Loan called the "Seventy Thirty" Loan?

Answer. It bears Interest, in currency, at the rate of Seven Dollars and thirty cents, each year, on every hundred dollars; making the interest as

One cent per day on each \$ 50 note. Two cents. " "
Ten " " "
Twenty " " 1 Twenty " 1,000 " One dollar " " 5,000 " 2d Question. When and how can they be ob-

Answer. They are for sale, at par, and accrued interest, by all Sub-Treasuries, National and other Banks, and all Bankers and Brokers.

3d Question. When is the interest payable and how can it be collected?

Answer. The Coupons or Interest Tickets are due 15th of February and 15th of Augustin each year, and can be cut off from the note, and will be cashed by any Sub-Treasurer, U. S. Depository, National or other Bank or Banker

th Question. When must the Government pay of these 7-30-?

Answer. They are due in two years and a half from the 15th of February, 1865; viz: on the 15th of August 1867. of August, 1867.
5th Question. Must I receive back my money so soon as 1867?

so soon as 1867?

Answer. No! not unless you yourself prefer to do so—the law gives you the right to demand from the Government, at that time, either your money or an equal amount at par, of the famous and popular 5-20 Gold Bearing 6 per cent. Loan. 6th Question. How much do you consider this privilege of conversion, into 5-20 Loan to be worth!

Answer. 5-20s bearing Gold interest from 1st of November, are to-day worth 9 per cent. premium. If they are worth no nore at the end of the two years and half, when you have a right to the two years and half, when you have a right to them, than they now are, this premium added to

the interest you receive, will give you at least 10 per cent, per annum for your money—but the opinion is that they will be worth more than 9 per cent, premium at that time.

7th Question. What other advantage is there in investing in the 7.30 Loan? an investing in the 7-30 Loan!

Answer. It cannot be taxed by States, Counties or Cities, and this adds from one to three per cent. per annum to the net income of the holder, according to the rate of taxation in various localities. All bonds and stocks, except those of the United States, and all mortgages, &c., are taxed, not only by the Government, but by States, Counties and Cities.

ties and Cities.

8th Question. How does the Government raise

the money to pay the interest, and is it sure?
Answer. The Government collects, by taxes, internal revenue, and duties on imports, full three hundred millions each year. This is nearly three times as much as is needed to pay the interest on all the debt, and as soon as the war is ended, the an the debt, and as soon as the war is ended, the amount not needed to pay the interest will be used in paying off the debt. Our Government has twice paid off all its debt, and can easily do so again. The interest is sure to be paid promptly, and the debt itself is the very safest investment in the debt itself is the very safest investment in the world. It is as a mortgage on a good farm, and pays a better interest. It is in fact, a First Mortgage on all lands, all incomes, all railroad and canal bonds, and bank or other stocks, mortgages,

Nothing can be sier, for we are all bound for Nothing can be oler, for we are all bound for it, and all that we have is firmly held for the payment of principal and interest. How would those people are, who keep their gold and greenbacks idle and locked up, or purchase mortgages or roll-road stecks and bonds, which pay only 5 or 6 per cent interest, when these Seven-Thirties pay feounting the practime of the Track of the counting the practime of the Track of the process. (counting the premium on Five Twenties,), ever ten per cent., and are so much safer and surer.

9th Question. How many Seven-Thirties are there, and how much remains unsold? Answer. There are only about three hundred and twenty-five millions authorized by law, and only about one hundred and muety millions re-

10th Question. How long will it take you to sell the balance? Answer. There are about 800 National Banks, all engaged in selling them; also a large number of the old banks, and at least three thousand private bankers and brokers, and special agents will be engaged in all parts of the country in disposing of them to the people. of them to the people.

11th Question. How long will it take to sell

nain ansold.

the whole?

Answer. In less than three months they will be all sold, and will no doubt then sell at a premium, as was the case with the old Seven-Thirties, the first Twenty-Year Loan, and the Five-Twenties.

ties.

The above questions and answers, it is believed, will give full information to all. If not, the General Subscription Agent, or any of the Banks or Bankers employed to sell the Loan, will be glad to answer all questions, and to furnish the Seven-Thirites in small or large sums (as the notes are issued in denominations of \$50, \$100, \$500, \$1,000.) and to render it easy for all to subscribe thus fulfilling the instructions of Mr. Feesenden. hus fulfilling the instructions of Mr. Fessenden thus tunning the instructions of Mr. Fessenden, who earnestly desires that the people of the whole land, (as well as the capitalists,) shall have every apportunity afforded them of obtaining a portion of this most desirable investment. LET NONE DELAY, BUT SUBSCRIBE AT ONCE, THROUGH THE NEAREST RESPONSIBLE BANK

AN INCIDENT OF THE WAR A letter from Minnesota to the Rochester Dem-

crat tells this interesting story:

"Let me relate to you and your readers an incident of the war which has lately come to my knowledge, and which has never before found its way into the newspapers. In the class of 185—at Waterville College, Mainc, were two young men who had been chums while fitting for College at the same school, and were chums through the entire college course, and after graduating pursued their legal studies at the same law school, and were chums here also. After admission to the bar, one went South to seek his fortune, the other bar, one went South to seek his fortune, the other West. After the breaking out of the rebellion, the one went South enlisted in the rebel army, the other in the Union army. They both after ward rose to the rank of colonel, and both took parrin the battle of Mission Ridge, in command of their represents receivers. of their respective regiments. The rebel colonel, at the head of a Tennessee regiment, was in support of a battery, which the regiment in command of the Union colonel was ordered to take at the rount of the heavest.

of the Union cotonel was ordered to take at the point of the bayonet.

"The battery was taken; but both colonels fell mortally wounded. After the fight was deer, a Union captain, himself a classmate of the two colonels, being detailed to bury the dead, found

the two college charmage and charm wing me by side on the battle field, with their right hands clasped, and both dead. They had evidently recognized each other after being wounded, and the old ties of friendship had asserted their supremacy, and together their spirits had passed into the eternal world. Side by side, in the same grave, they sleep their last sleep.

"Another fact in reference to this college class is worth mentioning. Of the thirty of the surviving

Another fact in reference to the course class is worth mentioning. Of the thirty-five surviving members of this class, thirty are now, or have been, in the Union army. Of the other five, three are cripples, and the remaining two offered themselves as volunteers, but were not accepted on account of physical disability. They have extreed, and well do they deserve the title of, 'The Martial Class.'"

The history of the location of the famona Co-quette Oil well is a bit of romance, and borders closely on the marvelous. The present energetic manager of the well, Mr. George M. Kepler, prior to his visit to the oil territory, had a re-markable dream, which I will relate here just us I had it from his own lips. He, thought he was prospecting for oil, when, at the close of a weary day's walking over the hills, which bound the val-ley of Oil Creek, he espied, at a short distance before him astalwarth Indion seatedlon the ground with his back against a rock, pumping vigorously before him a stalwarth Indian seated on the ground with his back against a rock, pumping vigorously at a rude pump, from which Mr. Repler beheld a steady stream of oil pouring. Almost at the same instant the red man perceived Kepler, glancing over his shoulder, and through a crovice in the rock. Drawing an arrow from his quiver, he was preparing to draw his bow upon the intruder, when the latter was relieved from his dilemma in a manner as unlooked for as it was novel. A fair danisel, an esteemed acquaintance of the dreamer, who had corned the preputation of a cognistic and damset, an esteement acquaimance or the greamer, who had earned the reputation of a coquette, approached him suddenly and steathily, with a warning gesture, bearing in her hands the dreamer's highly prized rifle. In a moment the gran was levelled and discharged at the Indian. With the discharge the dreamer peered over the rock and beheld, as he expresses, "nothing but oil—oil."
Upon his arrival at the farm subsequently, he jestingly related his dream to his counsin, Mr. A. C. Kepler, who in the same sporture mood requested him to mark the spot. The drill was started, and at the depth of five hundred and nineteen feet, struck the largest well now flowing on, Oil Creek. Notwithstending the difficulty of obtaining tanks to receive the yest amount of oil which has flowed to receive the vast amount of oil which has flowed from this wonder among large wells, not a single barrell of the oil has been lost.

WHY PROPESSOR AGASSIZ BECAME AN AMERICAN.—This distinguished Swiss scholar, whom the Emperor Napoleon has vainly attempted to induce to return to Trance, in a speech at the Agricultural Show at Springfield, Mass. gave the Agricultural Show at Springfield; Miss. gave the reasons why he selected this country for his home. He said: "I am in the habit of looking into the condition of things, and of analyzing the facts which I witness, and I asked myedt one day what was the difference between American and European civilization; and after careful and conscientious, and sometimes a rather trying survey of the case, I came to this conclusion: that the characteristic feature of European society was, that there the institutions were all calculated to crush down every effort which might interfere with the privileges of the few, while here every with the privileges of the few, while here every-thing was organized to foster the advancement of one. The American institutions are such that they will allow every man to become a man who possesses the elements of true manhood; and upon that result of my consideration, I said to myself, having children, here should be my home and their home. I could not but enjoy those privile-ges of the boundless resources of the country which established its social organizations upon such principles." such principles."

STORY OF A HAT.—There was a startling development, at Mount Holyoke Seminary, not long since. One of the young ladies had just returned from a visit to the outside world, and soon aftera vigilant teacher looked into her room and discovvigilant teacher looked into her room and discovered a gentleman's hat there. Another teacher also satisfied herself of the existence of the alarming object, and the pupil was forthwith summoned to the hall of judgment. It was a most delicate subject of inquiry, and the point of attack was only reached by gradual and zigzag approaches. The pupil, who manifested her depravity by half concealed merriment, and showed no disposition penitently to unbosom herself, was at last brought up with a plump question as to the and the content of th

NEVER complain of your birth, your employment, your hardships; never fancy that you could be something if you had a different lot and sphere assigned you. God understands his own plan, and he knows what you want a great deal better than you do. The very things that you most depreci-ate as fatal limitations or obstructions, are prob-ably what you most want. What you call hindrances, obstacles, discouragements, are probably God's opportunities; and it is nothing new that the patient should dislike his medicine, on any cer-tain proof that they are poisons. No: a trues to all such impatience ! Choke that envy which, all such impatience! Choke that envy which, gnaws at your heart because you are not in the same lot with others; bring down your soul, or rather bring it up to receive God's will and do his work in your lot and sphere, under your cloud of obscurity, against your temptations, and then you shall find that your condition is never opposed to your good-when consistent with it.

THE SKY AN INDICATOR OF THE WEATHER. -The color of the sky, at particular times, affords wonderful good guidance. Not only does a rosy sunset presage, good weather, and a ruddy sunrise bad weather, but there are other tints which speak with equal clearness and accuracy. A bright yellow skylu the evening indicates wind; a pale yellow, wet; a neutral grey color constitutes a favorable sign in the evening, and an untutes a layorable sign in the evening, and an un-favorable one in the morning. The clouds are again full of meaning in themselves. If their forms are soft, undefined, and full feathery, the weather will be fine; if their edges are hard, shurp and definite, it will be foul. Generally speaking, any deep unusual hues betoken wind or min; while the more quiet and delicate tints bespeak fair weather. These are simple maxims; and test fair weather. These are simple maxims; and yet not so simple but what the British Board of Trade has thought fit to publish them for the use of seafaring. -Scientific American. THE BRIGHT SIDE.—Look on the bright side—

it is the right side. The times may go hard, but it will make them no easier by wearing a gloomy countenance. It is the sunshine and not the cloud that make the flower. There is always, that before or around us which should cheer and fill the hearts with warmth. The sky is blue ten times where it is black once. You have troubles; it may be. So have others, none are free from them. Perhaps it is well that none should be.— They give sinew and tone to life—fortitude and courage to man. That would be a dull sea, and the sailor would never get skill, where there was nothing to disturb the surface of the ocean. It is nothing to disturb the surface of the ocean. It is the duty of every one to extract all the happiness and enjoyment he can without and within him, and above all he should look on the bright side of things. What though things do look a little dark? things. What though things do look a little dark? The lane will turn and the night will end in broad

CONTRABAND TOM, who has come into Sheridan's lines, says the rebels are having a "right smart talk" about arming the colored men, and the negroes are talking about it themselves, but the blacks are about equally divided on the mat-ter. Says Tom:—"Bout half de colored men tink dey would run directly over to de Yankees wid de arms in der hands, and toder half tink dey would jiss stand au' fire a few volleys to d rear fust, 'fore dey run—dat's all de difference." A LARY, who was very modest and submissive before marriage, was observed by a friend to use

her tongue pretty freely afterwards. "was a time when I almost imagined she had n was a time when I almost imagined she had none.
'Yes," said her husband, with a sigh, "but it's very long since." A YOUNG lady refused to go into the Water-vliet Arenal the other day, because she heard that some of the muskets were without breech-es. There's delicacy in you.

A SCHOOLMARM in England has adopted a new and novel mode of punishment. If the boys disand novel mode of punishment. If the boys dis-obey her rules the stands them on their heads and pours cold water into their trowsers legs,
