penerably to discuss the merits of the candidates before the people for office; still, we cannot as democrats, approve of the bitterness and slanders that characterize too many of the leading federal papers in our country, and not a few of the great men here, and elsewhere, to elevate Gen. Harrison. When we talked of the military fame of Gen. Jackson, and referred to his signal services during the last war with England, political enemies replied with a sneer. these do not qualify him for the presidency, and it is dangerous to the liberties of the country to elect a military chieftain; and Henry Clay, the great champion of the party seeking for power, was willing that his country should be visited with " war, pestilence and famine, rather than that a military chieftain should fill the presidential chair!" Now the mouths of these men are filled with the military services of Gen. Harrison,-and these, and these alone are to entitle him to the suffrages of a free people. We contend for principles-not men, and without wishing to detract aught from the reputation of Gen. Harrison, we do not believe that his principles are democratic, or that he is qualified for the high statron to which he aspires. The recent elections in Pennsylvania, show that again the Key Sione state will do her duty. Her democratic citizens have buckled on their armor, and are preparing for the coming contest, and the 30th of October 1840, will witness them in solid columns, maintai ing the principles of the Father of Democracy.

Resolved, That our confidence in the wi dom. firmness and patriotism of Martin Van Buren, remains unshaken, and that we will with one mand, sustain him in his present high and ho orable station.

Resolved That Richard M. J. hoson continues to deserve the confidence and support of the democratic party, and that Pennsylvania will honor him with her supp rt.

Resolved, hat Governor Porter has shown himself eminently worthy of the high trust coafded to him by the Keystone state; that his indep indent and manly course, has gained for him the approbation of even his political enomies.

Resolved. That the Hom. Jomes Buchan in has in the Senate of the United States, el quently and ably defended the administration from the attack of her enemies, and that while Pennsylva is has such men to represent her, her interests and the interests of the country will be maintained,

Resolved, That the democratic deligation in the last Congress of the United States, claim, for their strict adherence to the principles of the party, the thanks of their constituents, and that posterity will approve their acts.

Resolved, That the thanks of the meeting be tendered to the several gentlemen, who have addressed the meeting.

Resolved, That the proceedings of this meeting be published in the democratic papers of this county, and of the state,

Beauties of the Federal Appor-

The county of Philadelphia, which is democratic, polled at the recent election about Twenty-Two TROUSAND votes, and elected Ergur members of the Legi-lature. The city, which is federal, polled Erryry thousand votes, and elected Savey members, within a fraction as many as the county. It requires therefore Two democratic votes in the county to equal the vote of ONE pristocrat in the

Democratic Columbia has polled more votes in the recent contest than federal Adams, and yet Columbia has but Osn Representative in the Legislature, and Adams has Two !!!

It is by means of such a law, that the democracy of Pennsylvania has been cheated out of its rights. Democrats resent the invasion upon your privileges by a rush to the ballot bexes on the 30th !!

With a clear and undisputed majority of more than 15,000 of the popular vote against them, the federalists in this state nevertheless claim to have elected a majority in both branches of the Legislature. What but a fraudulent, unconstitutional apportionment bill could thus put the minority in power! The bare mention of the fact, is sufficient to arouse the honest indignation of every true-hearted democrat, and incite him to re-nerve his arm for the great buille of the 30 h. Never in any country under the sun, have a people's rights been more ring the week ending on Sept. 23, is 283 Tons. caringly trampled under foot, than have the rightof the democracy of Penn-ylvania .- M :gleian.

MELANCHOLY.

We learn from the B. Itimore Republican of Monday, that the Hox. Wn. S. Works of Nature. IN a state of health the intestinal canal may be compared to a river whose wate a flow over the adjoining land, through the channels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs on smo stilly the channels are kep pure and healthy; but if by some cause the course of the over is stopped, then the water in the car als is no long r pure, but soon becomes stagnant. There is but one law of circulation in nature. When there is a superabundance of humorial fluid (serocity) in the intesunal tubes, and costiveness takes place, it fl ws back into the bloo | vessels, and infil rates itself into the circulation. To establish the free course of the river, we must remove the obstructions which step its free course, and tho e of its tr butary stream. With the body, follow the same natural principal; r m ve, by that valuable purgative medicine Branwith & Universal Vegetable Pills, which are an eff count assist nee of nature, the super-bundance of humors in the intestine canal. By per evering in this practice, the ways of the circulation will then be te-tored to the full exercise of their natural functions, and a state of health will be firmly establish taken from you- Evacuate the humors as often and as long as they are degenerated, or as long as
