THE CAUSE OF DISEASE.

Nearly all classes of disease, are caused by some obstruction in the system, which prevent the regular and wholes me operation of the animal func-tions. This state of the system, is disease, which is manifested in a variety of forms, more or less mal gnant in their character. To restore the system to a state of health, then, it is only necessary to remove the cause of disease, and the end is accomplished. The cause is obs ruction somewhere. This can be removed by purgation, which is the only means that shou'd be resorted to, because, suggested by reason, and by nature. Dr. Hurlich's Strengthening and German Aperient Pills, are allowed by the thousands who have used them, to be the best purgative medicine in existence. Because, they not only remove all obstructions, and purge the system of its impurities, but, because, and which is extremely important, strengthen and give proper tone to the stomach, and produce a healthy action of all the parts. Besides, they are so mild and gentle in their operation, as to render them at all times a perfectly safe and desirable remedy. The afflicted would do well, then, to purchase a box or two of this invaluable medicine, and give it a fair trial, instead of destroying their systems with oft-repeated doses of calomel, and other drugs, so injuri us to human life and happiness.

TRUTH WILL PREVAIL.

Dr. Harlich's medicines are daily increasing in public favor, and want from any but a fair trial to establish their worth. We have a communication in our columns to-day from a person long awicted, which is but one of many vauchers for this medicine .- Spirit of the Times.

In submitting to the put he the dest numbers of the "American," i may be demonstrated on us as he es a y and proper to more a fi w of servations in relation to the catabish or tof this private and the course which its roudectors on his to parsue in its publication. The grain which we live has been truly styled the age of improvement, which no power on each can arrest in its progress. The application of steam to the verious purposes of art, and the more recent discovery of smeltvania results that cannot be too highly estimated.

The great valley of the Susque anna is soon destined to b come the theatre of a new scene of enterpr ze and indu try, which may well excite the ast nishment of these who are a organite i with her mexhausticle deposites of co I and iron.

Her rugged in Is and solitary wastes, heretofore deemed worthless, are now exactly sought after for the coal and more which the contain, the most volumble minerals in nature. It has been said that England owes her present power and wealth more to her coal and that their to all other cause- e anbined.-If so, then Penesylvania has within bur own borders internal resources and powers of wealth unsurpassed by the whole Union. The Shamokin coal region, connected with this

place by a railroad 20 miles in learth, which a few years tince was a solit ry wild, untrodden by tofoot of man save the solitary haster in purcei of game, is now to ming with a bu-y and industrious population. The town of spam kin located in the roal region, a new vilage continuing about one hundred houses, has spring up as if by mag . sence that perced.

These improvements which are but a commencement of a series of works upon a large scale now in progress, recent as they are, have already at ear a new life and impetus to this section of our counce
