Works of Nature.

IN a state of health the intestinal canal may be compared to a river whose wate a flow over the adjoining land, through the channels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it cans on smoothly the channels are kept pure and health ; but if by some cause the course of the river is storped, then the water in the canals is no longer pure but soon becomes staguant. There is but one law of circulation in pature. When there is a superabundance of humorial fluid (acrocity) in the intetinal tubes, and costiveness takes place, it fl wa back into the blood vessels, and infiltrates itself into the circulation. To catablish the free course of the river, we must remove the obstructions which stop its free course, and tho e of its tributary stream. With the body, follow the same natural principal; r move, by that valuable purgative medicine Bran-dieth, Universal Vegetable Pills, which are an elfretual assistance of nature, the superabundance of numors in the intestine conal. By per-evering in this practice, the ways of the circulation will be restored to the full exercise of their natural forcetions, and a state of health will be firmly establish. ed Remember, never suffer a drop of bloo! to be taken from you - Evacuate the humors as oft a and as long us they are degenerated, or as long as you are sick.

Dr. Brandreth's Office in Philadelphia, is at No. 8, NORTH EIGHTH street, where his pills can be had at 25 cents per box, with full directions. (1) Only agent in Sunbury, is H. B. Masser Esqr.

Nearly all classes of disease, are caused by wine obstruction in the system, which prevent the readlar and wholes me operation of the animal funtions. This state of the system, is discuse, who to is manifested in a variety of forms, more or hes mal grant in their character. To restore the system to a state of health, then, it is only nece sary to o. move the cause of disease, and the trid is hoppy . plished. The cause is one ruction somewhere. I'l. . can be removed by purgation, which is the only means that should be resorted to, because, suggested by reason, and by nature. Dr. Hutlich's Spengieening and German Aperient Pills, are allowed by the thousands who have used them, to be the best purgative medicine in existence. Because, they not only remove all obstructions, and purge the tem of its impurities, but, because, and which is eatremely important, strengthen and give proper tone to the stomach, and produce a healthy action of all the parts. Besides, they are so mild and gentle in their operation, as to render them at all times a p. feetly safe and desirable remedy. The afficied would do well, then, to purchase a box or two of this invaluable medicine, and give it a fair trial, it stead of destroying their systems with oft-repeated deses of calomel, and other drugs, so injurious to

human life and happiness.

Fee above medeene for sale at the Drug store of Oct. 31, 1840.

Agent. TO THE COMMUNITY.

THE success which has attended the use of D. Harlich's German Aperient and Compou d strengthening Tonic Pells, is truly automiching. It is no vain beast to say this medicine has prived by its happy effects in the cure of a variety of diseases to which the human frame is liable, to be vis it superior to the many preparations before the public. Many of these preparations are compounded by individuals who ar positive'y ignorant of the mysteries of the bu an system, and more pretenders o medical knowledge. Dr. Hartich, however, is celeb ared among the German ficulty as a roun of the highest scientific attainments, and equally distinguished throughout Europe, as a successful medical practitioner, spent mest of the years of a useful life in the aquisition of such knowledge as might prove beneficial to his fellow creatures. In the pil's which he invented, and which bear his name, the public are assured of an article that possesses more than ordinary virtues. From the acknowledged tale to of this inventor, nothing less than a good article could be expected; and the experience of many years has afforded demonstration of the virtues of his medicine. In Germany and other parts of Europe, its r jutation is established. In this c untry into which it has but been recently introduced, it is rapidly gaining the most sub-tantial reputation. The num rous cert ficates of cures of the most obstitute disc s s . flected by the use of Harlich's Pills, which the proprietor is constantly receiving, is proof of the fact. Day after day he receives new testimonnals of their efficier, and week after week increases the demand for their. This is not more assertion; in-numerable certificates are open for the inspection of the public, and the doubts of any who are skeptical, can be removed by examining them at the office of the proprietor.

We take the liberty, then, of anggesting to every family, that they make use of Dr. Harlich's Pilis. Let them keep a supply constantly on hand, to be used when occasion demands and they will receive the most energiavocal proofs of utility. - Medical
