DYSPEPSIA! DYSPEPSIA!

That troublesome and peace-destroying disease. -Thousands and tens of thousands suffer from that common distressing complaint. Dispepsia is frequently caused by overloading or distending the stomach by excessive eating or drinking-indijes:ible and acrid substances taken into the stomach. or from long continued constipation of the bowls, a sodentary life, fear, grief, anxiety, a copious draft of cold water, drastic purgative medicines, dysentery, miscarriages, intermittent and spasmedic affections of the stomach and bowis, irregular mesis late hours, and too frequent use of spirituous liquors.

The symptoms of dispepsia may be described as a want of appetite, or an unnatural or veracious one, neusca and sometim s bikous vomiting, sudden and transient distensions of the stomach af er eating, acrid and putresent eructations, water brash, pain in the region of the stomach, c. stiven se, palpitation of the heart, dizziness and dimness of the ight, disturbed rest, tremors, mental despondency. flatulency, spasms, nervous irritibility, chiline's. allowness of complexion, great puression after ting, languor and general debility, sick head a he,

SICKNESS.

THERE are many persons that we daily behold, whose count nances and frail limbs denote offictions which we find has principally originated from neglect of proper remadies at the commencement of sickness. At first the patient complains of bile on the stomach attended with sickness, costiveness, &c., he neglects to procure proper in dicine; at lenth he complains of pain in the side and somach with sour eructations; his appetite becomes impaired, his rest troublesome, his mind harassed, and all things a ound him appear not in their proper station. He still neglects himself, when in all probability the disease may at leath be so fast seated, that no medical aid will replace him again. At the first attack of sickness there should be "no time lost" to procuring Dr Harlich's compound stransorn-ENING APERIENT PILLS, which immediately removes bite from the stomach, obviate costiveness. strengthen the body, improve the memory, and coliven the imagina ion; thus restoring the body again to its proper functions.

MORE POSITIVE PROOF

Of the efficacy of Dr. Harlich's Compoun Strengthening and German Aperient Pills. ALLEGHENT, Jan. 8, 1840.

To Dr Harlich's Agent-Sir: I wish to state for the benefit of the c who may be afflicted, that Dr. HARLICH'S TILLS have entirely cured me of Dyspepsia, of which I have been afficied for many years, I used soth kinds, the Aperient and Strengthening, and I am constrained to say, that they are a valuable discovery, and act upon the system mildly, but very effects day. I found the Tonic pills to quicken the circulation and cause a determination to the surface, sed to strengthen the weak stomach and increase us powers. The Aperical pills are the best enthartie I ever used. I am confident all Dyspepties would do well to make immediate trial and be relieved. Any one can call at my house and be

LIVER COMPLAINT.

THIS disease is discovered by a fixed obtuse pain in the right side under the short ribs, attended with heat, uncasiness about the pit of the stomach; there is in the right side also a distention; the potient loses his appetite, and becomes sick and troubled with vomiting. The tongue becomes rough and black, the countenance changes to a pale or citron color, or yellow like those afflicted with joursdice, difficulty of breathing, disturbed rest, attendee with a dry cough, difficulty of laying on the left aide, the body becomes weak, and finally the disease terminates into one her of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlich & Compound Strengthening Tonic and German Aperient Pills, if taken at the commencement of this disease, will check it, and by continuing the use of the medicine a few weeks, a perfect cure will be performed.

Thousands can testify to this fact. Certifica es of many persons may daily be se n of the effic cy of his invaluable mediane, by applying at the Medical Office. No. 19, NORTH EIGHTH street, Philadelphia.

PRINCIPAL REASONS

Why Dr HARLICH'S Compound Strengthening and German Aperient Pills are used by all classes of prople, in preference to other Medicines, because they are prepared from a pure extract of herbs, a wholesome medicine, mild in its operation and pleasant in its effect-the most certain preserver of health, a safe and effectual cure of Dyspepsia or Indigestion, and all stomach complaints, a preserver and purifier of the whole system.

Because they snothe the nerves of sensibility a d fortify the nerves of motion, imparting to their m at subtle fluid its pristine tone, thus giving strength and clearness of m nd.

Because they never destroy the coats of the stonach and bowels, as all strong purgatives de.

Be ause science and experience teach us that no mere purgative alone will cure he disease of the stomach and nerves. Weakness is the primary cause of a host of diseases, and, by continually resorting to Drastic purgatives, you make the disease much worse, instead of better. Because Dr. Harlich's Med cines are put up up

on the common sense principle, to "cleanse and strengthen," which is the only course to pursue to effect a cute.—Lastly,

Because these Medicines really do cure the dis-

ease for which they are r. commended. Principal Office for the United States, is at No. 19 North Eighth street, Philadelphia.

ASTONISHING INCREASE.

FOUR THOUSAND NEW SUBSCRIBERS IN TWO MONTHS!!! WHEN we first purchased the old an! tnown establishment of t e

Saturday Evening Post.

we stated that the paper circulated so widely a-States, that we entered upon our labors with full confid nee of the future. Our success has since been beyond our most sanguine expectation, as our weekly receipts overbalance those of any cotemporary paper. Our list has continued to swell up, with unexampled rapidity, and we have the confi lence, that at the present rate of increase, we shall be enabled in a few months to boast of more than 35,000 subscribers! When we commenced our tab. rs, w announced distinctly, that the tone of the paper should be decidedly moral, and that nothing should be admitted into our columns, which the most festidious father could disapprove of, and determ ned that as an approved Family Paper, it should not contain a paragraph, with the spirit of which a parent would not wish to have a daughter familiar, and we therefore, with this view, announ ced that no theat ical notices should appear in our clumns, and that we should be opposed to theatres as thing - calculated to injure the healthy action of an honest mind, -as creative of exhibitions demoralizing in tendency, and fearfully permitious in fact. There were not wanting blusterers, who made a great parade of opposition, and Crookers, who predicted our speedy downfall, but we threw ourselves upon the sober, retional and experienced portion of the pe ple of the United State, for suport, and we have been notly surrained.

We thought and expressed the opinion, that how ver careless many might be upon this subject. that few, even if they did not entirely disapprove of such entertainments, cared about having the gross details forever paraded before the eyes of their children, and the sickening and nauseating eulogy of all kinds of characters made familiar to

their minds. We determined also, that while the paper continued under our control, it should be strictly neutral in politics, and that as news and literary journalists we had nothing to do with the matter; this det rmi stion has been strictly and rigidly auhered such public document as may be deemed of interest to all, and such a history of the progress of political events, as are strictly in keeping with our duty, and the character of the paper, we shall studisusly and thoroughly avoid any contamination of

par iz n polities. The paper is now printed in a new and beautiful type, has received the praise of many editors of taste, as the handsomest family sheet in the Union.

Our efforts have been directed to the combining of beauty and simplicity with utility and taste. The l'ost is printed on a stant white paper, rendering it neat and durable for filing.

In addition to these efforts toward perfection in the mechanical department, and exterior of our paper, no labor, and no cost been spared in the developement of intellectual strength. The present valiety of interesting tales, original, from foreign and domestic magazines, together with the valuable contributions of our own circle of literary friends will continue to give interest to the paper, while everything important and worthy of note that nappens in the Old World or the New, shall be collected and collated for the taste of our readers.

'The Ladies' Department shall always be choice and select, and shall receive strict attention, while such things as may interest our juvenile readers, and that important and large class of our readers, the Farmer will not be overlooked. In order to gratify, as much as possible, the laudible desire of ur country readers, a portion of our attention will e devoted to the collection and diffusion of such News, Memoranda, Tubles, Facts, Hints, &c. as may seem important to agriculturists, and the population resident without the confines of our great cities The state of the markets and the fluctuatious in the prices, will be regularly and what is of more moment, correctly given.

We have ever been opposed to the constant bluster and parade made by some editors, about the excellence of their papers, and have resolved that the Saturday Evening Post, shull be conduct-

d, as to speak for itself. Our readers will always find in its columns the earliest and most authentic information, rs well as he most choice and cutertaining literary matter. We have totally discarded the system of filling the paper with quack advertisements, but prefer giving ous readers from week to week, entertaining reading matter.

And we feel assured that we shall be no losers thereby, as but few readers care about having a paper filled with descriptions of these nauseating com-

PROSPECTUS

OF THE JOURNAL OF THE AMERICAN SILK SO-CIETY, AND RURAL ECONOMIST.

EDITED BY GIDEON B. SMITH. THIS Journal was established by the American Silk Society, for the purpose of diffusing practical information on the CULTURE OF SILE in the United States. It has now been published one year, and

may be considered a work of standard character. The first year's publication, comprising the first volume, containes a mass of valuable information, and it will be the object of the editor to make the second equal in all respets, if not superior, to the first. The important fact is now estal lished beyond any question, that the people of the United States can make silk CREAPER and BETTER than any other nation upon earth. It has been proved unimpeachable test mony, that the entire cost of producing silk ready for ma ket, does not exceed POUND, and its lowest value is FOUR DOLLARS AND FIFTY CENTS; also, that ONE ACRE of ground plant ed in morus multicaulis, will produce the first year HUNDRED AND RIGHT DOLLARS! It has also been proved that the children and females of any farmer's mily can, with the greate t possible ease, produce without any cost whatever to the expenses of farm after the trees are planted; and therefore, that the whole amount of silk will be so much clear gain, say from \$225 to \$450. With these facts we submit to an intell gent people wether it is not a great and important object for them to introduce the culture of silk in every farmer's family in the Union. To enable all our farmers to make si k, the Jour-NAL OF THE AMERICAN SILK SOCIETY' Was established; it contains | lain practical directions for cut-TIVATING THE TREES, FEEDING . Our excellent London correspondent will be continued, and due attention will be paid to the comercial, agricultural and news departments of our paper.
