The Latchstring drawn in.

Soon after it was known that General Harrison was elected President, swarms of hungry office hunters bent their way to North Bend. A paper from that quarter states, that he had to entertain as many as Sixty one morning to breakfast. This the General found rather inconvenient, and their friendship somewhat too liberal. To cut the matter short with them, he pulls in the "latch string" of his log cabin, and clears out. We next hear of him some where in Kentucky. The Maysville Eagle says, he will spend the month of January in the Old Dominion. And February, he will no doubt accept of Mr. Van Buren's invitation, and spend it in the White House, and prepare himself to become the Government by the 4th of March .- Lehigh Bulletin,

DIED.

At Pottsvil'e, on Saturdsy last, the 25th ult. ROBERT MONIGOMERY GRANT, aged about 25 years.

In the death of this estimable young man his friends, and more perticularly his relations, have been deprived of one who was all kindness; and a mother, of an aff ctionate and dutiful son. But a short time since his prospects were as bright in the anticipation of the future, as the frailty of our nature will permit us to entertain-but disease had marked him for its victim, and the rose of health soon wi hered beneath its blasting influence, and consigned this much lamented young man to an early grave, respected and beloved by all who knew him:

" Welcome and beautiful art thou. O Death, To one whose life's been spent in doing good. Thou comest gently to the good man's couch, To loose the tie which binds him to the carth, And bear his s; irit homeward on thy wings; Oft is thy form with awful terrors clad : To HIM thou art arrayed in robes of light, And in thy face his sinking eye beholds An angel's lineaments, and on thy brow, A seraj h's holy smile."

IMPORTANT PROOFS. Of the efficacy of Dr. Harlich's Celebrate ! Medi

Cines. The following cert ficate was sent by Mr. E. B. Hinman, agent at Cincinnatti, Ohio. There can be

no mistake in it, as the parties are well known. Mr. Ezekiel Regdon, of Anderson township, Hamilton county, Ohio, was several days troubled with bill-us affections, acidity of the stomach, attended with the usual symptoms of dyspepsia, and having made trial of various medicine without finding relief, was cured by the above medicines.

Attest, Circinnati, June 30th, 1840. E. RIGDON. YET LATER .- Mr. Vance, of Washington

county, writes as follows-Dear Sir-Dr. Harlich's pils are performing some of the most wonderful cures in this vicinity ever heard of. They were introduc d here about six months ago, by one of my neighbors, who bought a half dozen packages from the Pittsbung office. I om aware of four cases a this place where complete cures have been perrmed, one of severe rheuma'tem, two of dyspepsia, red one of a most shecking and aggravated nerous complaint, of ten or twe ve years standing. I nd you enclosed five dollars; pleare to forward fills for that amount by the bearer, William Ward, Attest JOHN VANCE. Attest July 27, 1810.

N. B. The above certific ites, compared with the very many already received, certainly must con-vince those similarly affected, that they can yet be relieved by the use of these invaluable medicines. Principal office, No. 19, North Eighth street Philadelphia. For sale by HENRY YOX PPEIMER.

Works of Nature.

IN a state of health the intestinal canal may be compared to a river whose waters flow over the adjoining land, through the channels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs on smo thly the channels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the canals is no longer pure, but soon becomes stagment. There is but one law of circulation in thatu e. When there is a super-abundance of humorial fluid (serecity) in the intest nal tubes, and costiveness takes place, it fl wa back into the bloo! vesses, and infiltrates itself into the circulation. To establish the free course of the river, we must remove the obstructions which stop its free course, and the e of its tributery stream.
