YET LATER.—Mr. Vance, of Washing on county, writes as follows-Dear Sir-Dr. Harlich's pil's are performing some of the most wonderful cures in this vicinity ever heard of. They were introduc d here about six months ago, by one of tny neighbors, who bought a half dezen packages from the Pittsbung office, I om aware of four cases in this place where complete cures have been performed, one of severe rheumatism, two of dyspepsia, and one of a most sheeking and aggravated vous complaint, of ten or twelve years standing. I send you enclosed five dollars; pleare to forward pills for that amount by the bearer, William Ward, JOHN VANCE.

DYSPEPSIA! DYSPEPSIA!

That troublesome and peace-destroying disease. - Phousands and tens of thousands suffer from that common distressing complaint. Dispepsia is frequently caused by overloading or distending the stomach by excessive cating or drinking-indijestible and acrid substances taken into the stomach. or from long continued constitution of the bowls, a sadentary life, fear, grief, anxiety, a copious draft of cold water, drastic purgative medicines, dysentery, miscarriages, intermittent and spasmodic af f ctions of the stomach and bowls, irregular meals, late hours, and too frequent use of spirituous

The symptoms of dispepsia may be described as a want of appetite, or an unnatural or voracious one, nausca and sometim s bilious comiting, sudden and transient distensions of the stomach af er eating, acrid and putresent eructations, water brash, pain in the region of the stomach, costiven as, palpitation of the heart, dizziness and dimness of the sight, disturbed rest, tremors, mental despondency, flatulency, spasms, nervous irritibility, chil inc.s. sallowness of complexion, great appression after eating, languor and general debility, sick head as he,

CURE -- At the head of all remadics stands Da. HARLICH'S COMPOUND STRENGTRENING TONIC AND GERMAN APPENIENT PILLS, which act greatly up as the peristaltic motion of the intestines, thereby producing regularity of the bowls, at the some time improving the functions of the debilitatedo gans, thus invigorating and restoring the digestive organs to a healthy action. SICKNESS.

THERE are many persons that we daily behold whose countenances and frail limbs denote offictrons which we find has principally originated from neglect of proper remadies at the commencement of sickness. At first the patient complains of bile on the stomach utiended with sickness, costiceness, &c., he neglects to procure proper medicine; at lenth he complains of pain in the side and s'omach with s ur cructations; his oppetite becomes impaired, his rest troublerome, his mind harassed, and all things around him appear not in their proper station. He still neglects himself, when in all probability the disease may at lenth be so fast scated, that no medical aid will replace him again. MORE CONCLUSIVE PROOFS, Of the efficacy of Dr. Harlich's celebrated Medi-

DEAR SIR :- I was afflicted with a bilious nervious disease to a very alarming degree, with all the symptome which so frequently effects a relexed condition, viz: giddiness in the head, viol nt tremors, chilliness, with a fixed pain in the right side, complexion bad, and costiveness; indeed I was in a most miserable condition. I had tried many remedies, but found no permanent relief un-til I had putchased Dr. Harlich's compound strengthening and German aperient Pills, which from their superior victues, I was completely cured. and am able to pursue my employment, free from

MORE POSITIVE PROOF Of the efficacy of Dr. Harlich's Compound Strengthening and German Aperient Pells.

ALLEGREST, Jan. 8, 1840. To Dr Harlich's Agent-Sir: I wish to state for the benefit of the e who may be afflicted, that Dr. HARLICH'S PILLS have entirely cured me of Dyspepsia, of which I have been afficied for many years. I used both kinds, the Aperient and Strength ening, and I am constrained to say, that they are a valuable discovery, and act upon the system mildly, but very effectually. I found the Tonic pills to quicken the circulation and cause a determination to the surface, acd to strengthen the weak stomach and increase its powers. The Aperieni pills are the best cathartic I ever used. I am confident all Dyspepties would do well to make immediate trial and be relieved. Any one can call at my house and be satisfied of the above at pleasure.

LIVER COMPL.HINT.

THIS disease is discovered by a fixed obtuse pain in the right side under the short ribs, attended with heat, uncasiness about the pit of the stomach; there is in the right side also a distention; the patient loses his appetite, and becomes sick and troubled with vomiting. The tongue becomes rough and black, the countenance changes to a pale or citron color, or yellow like those afflicted with jourdice, difficulty of breathing, disturbed rest, attended with a dry cough, difficulty of laying on the left aide, the body becomes weak, and finally the disease terminates into ano her of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlich's tompound Strengthening Tonic and German Aperient Pills, if ta- la's. ken at the commencement of this disease, will ken at the commencement of this disease, will the "Great Western" among the newspapers a few weeks, a perfect cure will be performed. Thousands can testify to this fact. Certificates of many persons may daily be seen

of the effic.cy of this invaluable medicine, by applying at the Medical Office, No. 19, NORTH EIGHTH street, Philadelphia.

HENRY YOXTHEIMER. October 24, 1840.

PRINCIPAL REASONS

Why Dr HARLICH'S Compound Strengthenng and German Aperient Pills are used by all classes of people, in preference to other Medicines, because they are prepared from a pure extract of herbs, a wholesome medicine, mild in its operation and pleasant in its effect—the most certain preserver of health, a safe and effectual cure of Dyspepsia or Indigestion, and all stemach complaints, a preserver and purifier of the whole system.

Because they soothe the acrees of sensibility a d fortify the nerves of motion, imparting to their mest subtle fluid its pristine tone, thus giving strength and clearness of mind.

Because they never destroy the coats of the stonack and bowels, as all strong purgatives do. Because science and experience teach us that no mere purgative alone will cure the disease of the stomach and nerves. Weakness is the primary cause of a host of diseases, and, by continually resorting to Drastic purgatives, you make the disease

much worse, instead of letter. Because Dr. Harlich's Med cines are put up upon the common sense principle, to "cleanse and strengthen," which is the only course to pursue to

effect a cure.—Lastly,

Because these Medicines really do cure the discase for which they are r commended. Principal Office for the United States, is at No. 19 North Eighth street, Philadelphia.

GRAHAM'S MAGAZINE, Ladies' and Gentlemen's World of Literature and Fashion.

(The Casket and the Gentleman's United.)

A NEW Volume, under the above title, of the weil established and fashi nable Magazine, The Philadelphia Casket in conjunction with the Gen leman's Magazine, which has been every where pronounced the most read ble and popular of the day, will be opened on the First of J nuary, 1841, with an array of Contributors se used by the union of talent and fame, which no periodical in the country can boast or pretend to riva'. The December number will, however, be a spicime of the new volume. The V-lume will be opened with a new and beautiful type, the finest white paper, and with the first of a series of embellisaments unsurpassed by any which have yet appeared in any Mag zine. The style of clagance, the beauty and finish of these illustrations, and the extensive improvements which will be made in its typographical appearance, and above all, the tone of its literary department, by the bril iant array of contributors, whose articles have enriched the pages of each number, will give it character, second to no Magazine in the Union. The cl aracter of the orticles which shall appear in its pages, will be equally removed from a sick'y sentisentality, and from an aff ctation of morality, but while a true delineation of human nature in every variety of passion is nimed at, nothing shall be found in its pages to cause a blush upon the cheek of the most pure.

The L terary character will be sufficiently guaranteed by the reputation of both Mag z nes thus united, for years past. Writers of the first rank have been regular Contributors to their pages, and the tales and sketches published in them have I een wid ly copied and read, and the firm and independent tone of the criticisms, upon the current literature of the day, has been every whe e approved and commended. The list of contributors embraces the names of most of the principal writers in Americ , with a respectable number of English authors.

The series of well known nautical papers, entitled "Cruizing in the last War," have had a run, unequalled by any series published in any Magazine for years. - The author promises to open the first of a new series of Tales of the Sea, and from hi-known abilities as a depicter of sea scenes and life, much may be relied upon from him in maistaining the popularity of the Magazine Papers may be expected during the volume, all o from the author of the well known articles, entitled "The Log of Old Ironside." The author of "Syrian Letters," will als tend his powerful and grateful pen, to sustain and increase the reputation of the work .- The valuable aid of the au hor of "Leaves from a Lawyer's Port Folio," has also been seen ed, and we may expect something stil more thrilling from the capacious stores which a long life in the profession has enabled him to amass. An occasional Chit-Chat with "Jemay Short," and "Oliver Oldfellow," is also promised; with a variety of choice articles in prose and verse, from various writers of celebrity, as contribu ors to the prominent Magazines of the course try. The editors of lo h Megazines continue their services under the new arrangement. With such an array of m'ent a Magazine of un ivalled attractions, may safely be promised the coming volume.

FASHIONS AND ENGRAVINGS. In compliance with the almost unanimous wish of our lady subscribers, we shall the ensuing voume furnish them with a beautiful and correct plate of Fashions Monthly, a feature, it is believed, that will neither be unwelcome nor unpopular. The Fashion plates shall be drawn from original designs from Paris and London, and may always be dpended upon as the prevailing style in Philadelphia and New York, for the mon h in which they are is.

Time of publication.-The work will be publish ed on the first of the month in every quarter of the Union. The most distant subscriber will convequently receive it on that day, as well as these who reside in Philad lphis. In all the principal cities, to draw largely upon the most popular periodicals agen's have been established, to whom the Maga- of the day, both American and Foreign; and as the zine is forwarded, prior to the time of issuing it, so selections will be made with great care, it is believ

copies yearly for five do lara, invariably in advance. Theatrical Criticisms, Police and other Court Repost paid. No new sub-criber received wishout the money, or the name of a responsible agent. For the accommodation of those who may wish to subscribe for either of the following Philadelphia periodicals, this liberal proposal is made: Five dollars current money, free of postage, we will forwa d Graham's Mag z'ne, and Gudey's Ludy's Book, for one year. THE CULTIVATOR.

A Consolidation of Buel's Cultivator and the Genesee Farmer.

WILLIS GAYLORD AND LUTHER TUCKER, EDITORS

Prospectus of Vol. 8, for 1841. THE Cultivator was established to improve and elevate the Agriculture of the country; to give proper tone to the morals and mind of the Farmer; to show him the dignity and importance of his profession; to store his mind with useful knowledge, and convince him that while all classes are and must be more or I ss dependant on each other, he alone of the whole can make any near approach to independence. If there is one thing more than another, which in this country gives a man superiority over his fellow men, it is knowledge; and this knowledge,-knowledge which is as essential to the succees of the farmer as to other men,-it is the design of the Cultivator to aid in imparting.

The volume for 1840, is filled entirely with Original Communications, embracing articles from about 300 Correspondents, from almost every state in the Union.

If an increase of subscription beyond any precedent in the history of Agricultural Journals, -if the almost unanimous voice of the public press in our favor,-if the multitude of private yet flattering to timonials we have received, added to a circulation amounting the first year to Twenty-two Thou sand, may be admitted as evidence, then we have certainly most abundant reason to be gratified with the success which has attended the Union of the Cultivator and the Gene se Farmer. No expense his teen ir will be spared to render the Cultivator worthy of the patronage it has received. In the number, variety and excellence of its Illustrations. it is without a rival at home or abroad, the last volume being embellished with nearly One Hundred Engravings, illustrating the improved breeds of H atses, Cattle, Sheep, Swine, Buildings, Implements, &c., making the Cultivator, all things c neidered, it is believed, the Cheapest Agricultural Paper ever

ASTONISHING INCREASE. FOUR THOUSAND NEW SUBSCRIBERS

IN TWO MONTHS! !! WHEN we first purchased the old and well known establ shment of t'e Saturday Evening Post,

we stated that the paper circulated so widely among the steady, reading portion of the United States, that we entered upon our labors with full confidence of the future. Our success has since been beyond our most sanguine expectation, as our weekly receipts overbalance those of any coten-porary paper. Our list has continued to swell up, with unexampled rapidity, and we have the confi dence, that at the present rate of increase, we shall be enabled in a few months to boast of more than 35,000 subscribers! When we commenced our lab its, w. announced distinctly, that the tone of the paper should be decidedly moral, and that nothing shou'd be admitted into our columns, which the most fas idious father could disapprove of, and determ ned that as an approved Family Paper, it should not contain a paragraph, with the spirit of which a parent would not wish to have a daughter familiar, and we therefore, with this view, announced that no theatrical notices should appear in our columns, and that we should be opposed to theatres as things calculated to injure the healthy action of an honest mind, -as creative of exhibitions demorailzing in tendency, and fearfully permicious in fact. There were not wanting blusterers, who made a great parade of opposition, and Crookers, who predicted our speedy downfa'l, but we threw ourselves upon the sober, rational and experienced portion of the people of the United States for support, and we have been nobly sustained.

We thought and expressed the opinion, that however careless many might be upon this subject, that few, even if they did not entirely disapprove of such entertainments, cared about having the gross details forever paraded before the eyes of their children, and the sickening and nauseating eulogy of all kinds of characters made familiar to

their minds. We determined also, that while the paper continued under our control, it should be strictly neutral in politics, and that as news and literary journalists we had noth ng to do with the matter; this determination has been strictly and rigidly adhered to, and while we shall continue to give our restors such public document as may be deemed of interest to all, and such a history of the progress of political events, as are strictly in keeping with our duty, and the character of the paper, we shall studiously and thoroughly avoid any contamination of partiz n politics.

The paper is now printed in a new and beautiful type, has received the praise of many editors of taste, as the handsomest family sheet in the Union." Our efforts have been directed to the combining of beauty and simplicity with utility and taste.

The l'ost is printed on a stout white paper, rendering it nest and durable for filing. In addition to these efforts toward perfection in the mechanical department, and exterior of our paper, no labor, and no cost been spared in the derelopement of intellectual strength. The present variety of interesting tales, original, from foreign and domestic magazines, together with the valuable contributions of our own circle of literary friends will continue to give interest to the paper, while everything important and worthy of note that nappens in the Old World or the New, shall be collected and collated for the taste of our rea-

The Ladies' Department shall always be choice and select, and shall receive strict attention, while such things as may interest our juvenile readers, and that important and large class of our readers, the Farmer will not be overlooked. In order to gratify, as much as possible, the laudible desire of our country readers, a portion of our attention will be devoted to the collection and diffusion of such News, Memoranda, Tables, Facts, Hints, &c. as may seem important to agriculturists, and the population resident without the confines of our great cities The state of the mukets and the fluctustious in the prices, will be regularly and what is of

more moment, correctly given. We have ever been opposed to the constant bluster and parade made by some editors, about the excellence of their papers, and have resolved that the Saturd y Evening Post, shall be conducted, as to speak for itself,

Our readers will always find in its columns the arliest and most authentic information, es well as the most choice and entertaining literary matter. We have totally discarded the system of filling the paper with quack advertisements, but prefer giving our readers from week to week, entertaining reading matter.

And we fiel assured that we shall be no losers thereby, as but few readers care about having a paper filled with descriptions of these nauseating compounds.

The Saturday Evening Post, will be furnished for \$2 per annum in advance, or one copy three years for \$5. To those who wish to subscribe for a Philadelphia Magazine, we will furnish a copy of the Philadelphia Ca ket, and two copies of the l'ost for one year for \$5 free of pastage and dis-

THE LARGEST, CHEAPEST, HANDSOM. EST, AND MOST COMPREHENSIVE NEWSPAPER IN THE UNITED STATES.

EDITED BY PARK BENJAMIN AND EPES SARGENT.

WITH multiplied resources for rendering the New World more valuable than ever as a compendious newspaper and repository of elegant literature, we enter upon the second volume (folio) on the 24th of October, dressed in a beautiful garb of new type, cast expressly for the purpose. It subscriptions, as well as for the renewal of those which may then expire.

During the first year of the existance of the NEW WORLD, it has acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscribers, during that period, (besides a I the current news of the day, domestic and foreign) new and valuable works by l'alfourd, D'Israell, Thomas Moore, Miss Mitford, Mrs. Jameson, C. Dickens, Ainsworth, Knowles, Bulwer, Marryat, and others-works, which in London could not be purchased for fifty times the amount of the subscription price of the New World. In addition to works of interest by these eminent authors, it has contained the cream of the periodical literature of the day, as well as original articles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedawick, Orville Dewey, Professor Longfellow, the author of "Yankee Notions," Simms, Street, &c. &c.

In politicks we shall, as hitherto, maintain an armed neutrality.—Our columns as heretofore will be unobjectionable in a moral point of view. In criticism we shall, in justice to the public, mantain perfect independence, even though we incur the vengence of all the dunces. We shall, in conclusion, earnestly strive to render our sheet not only worthy of the unparalleled favour it has experianced, but of a continually extending circulation. While we continue to furnish with all possible promtitude the most attractive liter ture of the day, we shall, as our means enlarge, afford that compensation to native authors, which may induce them to in ke the New World the medium for presenting to the public their best productions. Our excellent London correspondent will be continued, and due attention will be paid to the comercial, agricultural and news departments of our paper.

PROSPECTUS

OF THE JOURNAL OF THE AMERICAN SILK SO-CIETY, AND RURAL ECONOMIST.

EBITED BY GIDEON B. SMITH.

THIS Journal was established by the American Silk Society, for the purpose of diffusing practical information on the CULTURE OF SILE in the United States. It has now been published one year, and may be considered a work of standard character.

The first year's publication, comprising the first volume, containes a mass of valuable information, and it will be the object of the editor to make the second equal in all respets, if not superior, to the first. The important fact is now estal lished beyond any question, that the people of the United States can make silk CREAPER and BETTER than any other nation upon earth. It has been proved by unimpeachable testimony, that the entire cost of producing silk ready for ma ket, does not exceed TWO DOLLARS AND TWENTY FIVE CENTS PER POUND, and its lowest value is FOUR BOLLARS AND FIFTY CENTS; also, that ONE ACRE of ground planted in morus multicaulis, will produce the first year the trees are planted, rounty- lour rounds or SILK, leaving a clear profit to the producer of ONE HUNDRED AND EIGHT DOLLARS! It has also been proved that the children and females of any farmer's mily can, with the greate t possible ease, produce from fifty to a hundred p unds of silk every year, without any cost whatever to the expenses of the farm after the trees are planted; and therefore, that the whole amount of silk will be so much clear g in, s y from \$225 to \$450. With these facts we subm.t to an intell gent people wether it is not a great and important object for them to introduce the culture of silk in every farmer's family in the Union. To enable all our farmers to make siik, the Joen-NAL OF THE AMERICAN SILK SOCIETY' WAS CREEDlished; it contains plain practical directions for cut-TIVATING THE TREES, FREDING and REARING SILK WORMS, REELING THE SILK, and preparing it for market, &c. besides all other information that can be r quired to enable any person to enter upon the business, either on a large or smail scale. friend of his country, into whose hands this paper may fall, will be daine a patriot and philanthropist's work by inducing his mends and neighbours to enter their names upon the list of subscribers.

The Journal of the American Society is published monthly, in pamphlet form; each number contains thirt, two octavo pages, printed on new type and handsome paper, with a printed colored cover.
