DYSPEPSIA ! DYSPEPSIA !

That iroublesome and peace-destroying disease. -Thousands and tens of thousands suffer from that common distressing complaint. Dispepsia is frequently caused by overloading or distending the stomach by excessive eating or drinking-indijes;ible and acrid substances taken into the stomach, or from long continued constipation of the bowls, a sodent sy life, fear, grief, anxiety, a copious draft of cold water, drastic purgative medicines, dysen-tery, miscarriages, intermittent and spasmodic aff ctions of the stomath and bowls, irregular meals, late hours, and too frequent use of spirituous liquors.

The symptoms of dispepsia may be described as a want of appetite, or an unnatural or voracious one, nauses and sometimes bilious comiting, sudden and transient distensions of the stomach af er eating, acrid and putresent eru-tations, water brash, pain in the region of the stomach, costiven as, palpitation of the heart, dizziness and dimness of the ight, disturbed rest, tremors, mental despondency, flatulency, spasms, nervous irritibility, chil iness, sallowness of complexion, great oppression after cuting, languor and general debility, sick head a he, 0.0.

CURE-At the head of all remadics stands Du. HARLICH'S COMPOUND STRENGTHENING TONIC AND GREMAN APPENENT PILLS, which act greatly upon the perist ltic motion of the intestines, thereby producing regularity of the bowls, at the same time improving the functions of the debilitated o gans, thus invigorating and restoring the digestive organs to a healthy action. This medic ne se d on fails in producing relief.

Works of Nature.

IN a state of health the intestinal canal may be compared to a river whose wate a flow over the adining land, through the channels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs on smoothly the channels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the canals is no longer pure. but soon becomes stagnant. There is but one law of circulation in nature. When there is a superabundance of humorial fluid (serocity) in the intestinal tubes, and costiveness takes place, it fi we back into the blood vessels, and infiltrates itself into the circulation. To establish the free course of the river, we must remove the obstructions which stop its free course, and tho e of its tributary stream. With the body, follow the same natural principal ; remove, by that valuable purgative medicine Bran-dreth,s Universal Vegetable Pills, which are an effictual assistance of nature, the superabundance of humors in the intestine canal. By per evering in this practice, the ways of the circulation will then be restored to the full exercise of their natural functions, and a state of health will be firmly establish.

Remember, never suffer a drop of blood to be od taken from you -- Evacuate the humors as often and as long as they are degenerated, or as long as you are sick.

MORE POSITIVE PROOF

Of the efficacy of Dr. Harlich's Compound Strengthening and German Aperient Pills. ALLEGRENY, Jan. 8, 1840.

To Dr Harlich's Agent-Sir: I wish to state for the benefit of those who may be offlicted, that Dr. HARLICH'S FILLS have entirely cured me of Dyspepsia, of which I have been afil cted for many years, I used both kinds, the Aperient and Strengthening, and I am constrained to say, that they are a luable discovery, and act upon the system mild'y, but very effectually. I found the Tonic pills to quicken the circulation and cause a determination to the surface, and to strengthen the weak stomach and increase its powers. The Aperical pil's are the best cathartie I ever used. I am confident all Dyspepties would do well to make immediate trial and relieved. Any one can call at my house and be satisfied of the above at pleasure.

GRAHAM'S MAGAZINE AND THE Ladies' and Gentlemen's World of

Literature and Fashion.

(The Casket and the Gentleman's United.)

NEW Volume, under the above title, of the well established and fashionable Magazine, The Philadelphia Casket in conjunction with the Gen leman's Magazine, which has been every where pronounced the most readable and popular of the day, will be opened on the First of January, 1841, with an array of Contributors secured by the union of talent and fame, which no periodical in the country can boast or pretend to rival. The December number will, however, be a spicimea of the new volume. The Volume will be opened with a new and beautiful type, the finest white paper, and with the first of a series of embellisaments unsurpassed by any which have yet sppeared in any Magazine. The style of elegance, the beauty and finish of these illustrations, and the extensive improvements which will be made in its typographical appearance, and above all, the tone of its literary department, by the bril iant array of contributors, whose articles have enriched the pages of each number, will give it character, second to no Magazine in the Union. The character of the articles which shall appear in its pages, will be equally removed from a sick'y sentimentality, and from an aff ctation of morality, but wh le a true delincation of human nature in every variety of passion is aimed at, nothing shall be found in i's pages to cause a blush upon the check

of the most pure. The Literary character will be sufficiently guaranteed by the reputation of both Mag zines thus united, for years post. Writers of the first rank have been regular Contributors to their pages, and the tales and sketches published in them have been wid ly copied and read, and the firm and independent tone of the criticisms, upon the current literature of the day, has been every whe e approved and commended. The list of contributors embraces the names of most of the principal writers in America, with a respectable number of English authors.

The series of well known nautical papers, entitled . Cruizing in the last War," have had a run, unequalled by any seri s published in any Magazine for years .- The author promises to open the first of a new series of Tales of the Sea, and from his known abilities as a depicter of sea scenes and life, much may be relied upon from him in maintaining the popularity of the Magazine Papers may be expected during the volume, sl-o from the author of the well known articles, entitled "The Log of Oid Ironside" The author of "Syrian Letters," will also tend his powerful and grateful pen, to sustain and increase the reputation of the work .- The valuable aid of the au hor of "Leaves from a Lawyer's Port Folio," has also been seen ed, and we may expect something stil more thrilling from the capacious stores which a long life in the profession has enabled him to amass. An occasional Chit-Chat with Jemmy Short," and "Oliver Oldfellow," is also promised; with a variety of choice articles in prose and verse, from various writers of celebrity, as contributors to the prominent Magazines of the country. The editors of both Magazines continue their services under the new arrangement. With such an array of ta'ent a Magazine of unrivalled attractions, may safely be promised the coming volume.

FASHIONS AND ENGRAVINGS.

In compliance with the almost unanimous wish of our lady subscribers, we shall the ensuing volume furnish them with a beautiful and correct plate of Fashions Monthly, a feature, it is believed, that will neither be unwelcome nor unpopular. The Foshion plates shall be drawn from original designs from Paris and London, and may always be depended upon as the prevailing style in Philadelphia and New York, for the mon h in which they are is sued.

Time of publication .- The work will be published on the first of the month in every quarter of the Union. The most distant subscriber will consequently receive it on that day, as well as these who reside in Philad Iphin. In all the principal cities, agents have been established, to whom the Magazine is forwarded, prior to the time of is-uing it, so that they may be delivered to resident subscribers by the first of the month.

THE CULTIVATOR.

A Consolidation of Buel's Cultivator and the Genesec Farmer.

WILLIS GATLORD AND LUTHER TUCKER, EDITORS. Prospectus of Vol. 8, for 1841.

THE Cultivator was established to improve and elevate the Agriculture of the country ; to give proper tone to the morals and mind of the Farmer; to show him the dignity and importance of his profession; to store his mind with useful know-ledge, and convince him that while all classes are and must be more or less dependant on each other, he alone of the whole can make any near approach to independence. If there is one thing more than another, which in this country gives a man superiority over his fellow men, it is knowledge ; and this knowledge,-knowledge which is as essential to the succees of the farmer as to other men,-it is the de-ign of the Cultivator to aid in imparting,

(1) The volume for 1840, is filled entirely with Original Communications, emb. acing articles from about 300 Correspondents, from almost every state in the Union.

If an increase of subscription beyond any precedent in the history of Agricultural Journals,-if the almost unanimous voice of the public press in our favor,-if the multitude of private yet flattering teatimonials we have received, added to a circulation amounting the first year to TWESTE-TWO THOU SAND, may be admitted as evidence, then we have certainly most abundant reason to be gratified with the success which has attended the Union of the Cultivator and the Genesse Farmer. No expense his leen or will be spared to render the Cultivator worthy of the patronage it has received. In the number, variety and excellence of its Illustrations, it is without a rival at home or abroad, the last volume being embellished with nearly One Hundred Engravings, illustrating the improved breeds of H or ses, Catile, Shiep, Swine, Buildings, Implements, &c., making the Cultivator, all things considered, it is believed, the Chespest Agricultural Paper ever ublished in this or any other country.

ASTONISHING INCREASE.

FOUR THOUSAND NEW SUBSCRIBERS IN TWO MONTHS !!! WHEN we first purchased the old and known establishment of t e

Saturday Evening Post.

we stated that the paper circulated so widely a-mong the steady, reading portion of the United States, that we entered upon our 1 bors with full confidence of the future. Our success has since been beyond our most sanguine expectation, as our weekly receipts overbalance those of any coten-porary paper. Our list has continued to swell up, with unexampled rapidity, and we have the confi dence, that at the present rate of increase, we shall be enabled in a few months to boast of more than 35,000 subscribers ! When we commenced our labors, we announced distinctly, that the tone of the paper should be decidedly moral, and that nothing shou'd be admitted into our columns, which the most fastidious father could disapprove of, and determ ned that as an approved Family Paper, it should not contain a paragraph, with the spirit of which a parent would not wish to have a daughter familiar, and we therefore, with this view, announced that no theatrical notices should appear in our columns, and that we should be opposed to theatres as things calculated to injure the healthy action of an honest mind,-as creative of exhibitions demoralizing in tendency, and fearfully permitious in fact. There were not wanting blusterers, who made a great parade of opposition. and Croakers, who predicted our speedy downfall, but we threw ourselves upon the sober, rational and experienced portion of the people of the United States for support, and we have been nobly sustained.

We thought and expressed the opinion, that however careless many might be upon this subject, that few, even if they did not entirely disapprove of such entertainments, cared about having the gross details forever paraded before the eyes of their children, and the sickening and nauseating subars of all kinds of characters made familiar to ment, to J. WINCHESTER, Publisher, their minds.

We determined also, that while the paper con tinued under our control, it should be strictly neutral in politics, and that as news and literary journalists we had nothing to do with the matter; this el this paper will be a welcome Notion to every determination has been strictly and rigidly adhered Besides a full synopsis of the current news to, and while we shall continue to give our renders tive of the history and resources of the Ameri eemed of int

THE NEW WORLD.

THE LARGEST, CHEAPEST, HANDSOM. EST, AND MOST COMPREHENSIVE NEWSPAPER IN THE UNITED STATES.

EDITED BY PARK BENJAMIN AND EFES SARGENT.

WITH multiplied resources for rendering the NEW WORLD more valuable than ever as a compendious newspaper and repository of elegant literature, we enter upon the second volume (folis) on the 24th of October, dressed in a beautiful garb of new type, cast expressly for the purpose. It will therefore be a fitting time to commence new subscriptions, as well as for the renewal of those which may then expire.

During the first year of the existance of the NEW WORLD, it has acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscribers, during that period, (besides a I the current news of the day, domestic and foreign) new and valuable works by Talfourd, D'Istaeli, Thomas Moore, Miss Mitford, Mrs. Jameson, C. Dickens, Ainsworth, Knowles, Bulwer, Marryat, and others-works, which in Lon-don could not be purchased for fifty times the amount of the subscription price of the New World. In addition to works of interest by these eminent authors, it has contained the cream of the periodical literature of the day, as well as original articles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedgwick, Orville Dewey, Professor Longfellow, the author of "Yankee Notions," Simms, Street, &c. &c.

In politicks we shall, as hitherto, maintain an armed neutrality .- Our columns as heretofore will be unobjectionable in a moral point of view. In criticism we shall, in justice to the public, mantain a perfect indepen lence, even though we incur the vengence of all the dunces. We shall, in conclusion, earnestly strive to render our sheet not only worthy of the unparalleled favour it has experianced. but of a continually extending circulation. While we continue to furni-h with all possible promtitude the most attractive liter ture of the day, we shall, as our means enlarge, afford that compensation to native authors, which may induce them to m ke the New World the medium for presenting to the public their best produ tions. Our excelient London correspondent will be continued, and due at tention will be paid to the comercial, agricultura; and news departments of our paper.

LIVER COMPL.HNT.

THIS disease is discovered by a fixed obtuse pain in the right side under the short ribs, attended with heat, uncasiness about the pit of the stomach; there is in the right side also a distention; the pa-tient loses his appetite, and becomes sick and toulded with vomiting. The tongue becomes rough and black, the countenance changes to a jule or citron color, or yellow like those efflicted with joundice, difficulty of breathing, distu-bed rest, attendee with a dry cough, difficulty of laying on the left aide, the body becomes weak, and finally the disease terminates into ano her of a more serious nature,

which in all probability is far beyond the power of human skill. Dr. Harlich's Compound Strength ening Tonic and German Aperical Pills, it taken at the commencement of this disease, will check it, and by continuing the use of the medicine a few weeks, a perfect cure will be performed.

partiz n politics. The paper is now printed in a new and beauti-ful type,-has received the praise of many editors of taste, as the handsomest family sheet in the Union.' Our efforts have been directed to the combining of beauty and simplicity with utility and taste. The Post is printed on a stout white paper, rendering it neat and durable for filing.

In addition to these efforts toward perfection in the mechanical department, and exterior of our paper, no labor, and no cost been spared in the de velopement of intellectual strength. The present variety of interesting tales, original, from foreign of daily and weekly publications. For THREE DOL- and domestic magazines, together with the valuable contributions of our own circle of literary friends will continue to give interest to the paper, while everything important and worthy of note that nappens in the Old World or the New, shall be collected and collated for the taste of our readers.

'The Ladies' Department shall always be choice and select, and shall receive strict attention, while such things as may interest our juvenile readers, and that important and large class of our readers, the Faimer will not be overlooked. In order to gratify, as much as possible, the laudible desire of our country readers, a portion of our attention will be devoted to the collection and diffusion of such News, Memoranda, Tables, Facis, Hints, &c. as may seem important to agriculturists, and the population resident without the confines of our great cities The state of the markets and the fluctua tious in the prices, will be regularly and what is of more moment, correctly given.

We have ever been opposed to the constant bluster and parade made by some editors, about the excellence of their papers, and have resolved that the Saturd y Evening Post, shall be conducted, as to speak for itself.

Our readers will always find in its columns the earliest and most authentic information, as well as the most choice and entertaining literary matter. We have totally discarded the system of filling the paper with quack advertisements, but prefer giving our readers from week to week, entertaining reading matter.

And we fee! assured that we shall be no losers thereby, as but few readers care about having a paper filled with descriptions of these nauseating compounds.

The Saturday Evening Post, will be furnished for \$2 per annum in advance, or one copy three years for \$5. To those who wish to subscribe for a Philadelphia Magazine, we will furnish a copy of the Philadelphia Ca ket, and two copies of the l'ost for one year for \$5 free of postage and discount.

PROSPECTUS

OF THE

JOURNAL OF THE AMERICAN SILK SO. CIETY, AND RURAL ECONOMIST.

EDITED BY GIDEON B. SMITH.

THIS Journal was established by the American Silk Society, for the purpose of diffusing practical information on the CULTURE OF SILK in the United States. It has now been published one year, and may be considered a work of standard character.

The first year's publication, comprising the first volume, containes a mass of valuable information, and it will be the o'ject of the editor to make the second equal in all respets, if not superior, to the first. The important fact is now estal lished beyond any question, that the people of the United States can make silk CHEAPEN and BETTER than any other nation upon earth. It has been proved by unimpeachable test mony, that the entire cost of producing silk ready for maket, does not exceed TWO DOLLARS AND TWENTY-FIVE CENTS FOR POUND, and its lowest value is FOUR DOLLARS AND FIFTY CEN cs; also, that ONE ACRE of ground planted it; morus multicaulis, will produce the first year ine trees are planted, FOURTY-HORT FOUNds or SILK, leaving a clear profit to the producer of on a

HUNDRED AND RIGHT DOLLARS ! It has also been proved that the children and females of any farmer's fimily can, with the greate t possible case, produce from fifty to a hundred p unds of silk every year, without any cost whatever to the expenses of the farm after the trees are planted; and therefore, that the whole amount of silk will be so much clear g in.

say from \$225 to \$450. With these facts we submit to an intell gent people wether it is not a great and important object for them to introduce the culture of silk in every farmer's family in the Unioa. To enable all our farmers to make si k, the Joun-NAL OF THE AMERICAN SILK SOCIETY' Was est

Every triend of his country, into whose hands this paper may fall, will be doing a patriot and philanihropist's work by inducing his friends and neighbours to en-

ter their names upon the list of subscribers. The Journal of the American Society is published monthly, in pamphlet form ; each number contains thirty-two octavo pages, printed on new type and handsome paper, with a printed colored cover.
