LIVER COMPLAINT.

THIS disease is discovered by a fixed obtuspain in the right side under the short ribs, attended with heat, uncasiness about the pit of the stomach; there is in the right side also a distention; the patient loses his appetite, and becomes sick and troubled with vomiting. The tengue becomes rough and black, the countenance changes to a pale or citron color, or yellow like those afflicted with jaundice, difficulty of breathing, disturbed rest, attendee with a dry cough, difficulty of laying on the left aide, the body becomes weak, and finally the disease terminates into one her of a more remous mature, which in all probability is far beyond the power of human skill. Dr. Harlich's too pound Strength ening Tonie and German Aperient Pills, it is ken at the commencement of this disease, will shock it, and by communing the use of the medicine a few weeks, a perfect cure will be performed. ASTONISHING INCREASE. FOUR THOUSAND NEW SUBSCRIBERS

AN TWO MONTHS !!! WHEN we first purchased the old and

known establishment of the Saturday Evening Post,

stated that the paper circulated so widely among the steady, reading portion of the United States, that we entered upon our labers with full confidence of the future. Our success has since been beyond our most sanguine expectation, as our weekly receipts overbalance those of any cotemporary paper. Our list has continued to swell up with unexampled rapidity, and we have the confidence, that at the present rate of increase, we shall be enabled in a few months to boust of more than 35,000 subscribers! When we commenced our labors, we announced distinctly, that the tone of the paper should be decidedly moral, and that nothing shou'd be admitted into our columns, which the most factidious father could disapprove of, and determ ned that as an approved Family Paper, it should not contain a paragraph, with the spirit of which a parent would not wish to have a daughter familiar, and we therefore, with this view, announportion of the people of the United States for support, and we have been pobly sustained.

We thought and expressed the opinion, that however careless many might be upon this subject. that few, even if they did not entirely disapprove of such entertainments, cared about having the gross details forever paraded before the eyes of their children, and the sickening and nauscating Editors: those relative to the buisness dep culogy of all kinds of characters made familiar to

their minds. We determined also, that while the paper conto draw largely upon the most popular periodica's tinued under our control, it should be strictly neuof the day, both American and Foreign; and as the selections will be made with great care, it is believed nalists we had nothing to do with the matter; this ed this paper will be a welcome Notion to every | determination has been strictly and rigidly adhered to, and while we shall continue to give our renders such public document as may be deemed of interest to all, and such a history of the progress of political events, as are strictly in keeping with our buty, and the character of the paper, we shall studiously and thoroughly avoid any contamination of partizon politics.

The paper is now printed in a new and beautiful type,—has received the praise of many editors of taste, as the handsomest family sheet in the Union. Our efforts have been directed to the combining of beauty and simplicity with utility and taste.

The Post is printed on a stout white paper, rendering it neat and durable for filing. In addition to these efforts toward perfection in the mechanical department, and exterior of our paper, no labor, and no cost been spared in the de velopement of intellectual strength. The present variety of interesting tales, original, from foreign and domestic magazines, together with the valuable contributions of our own circle of literary friends will continue to give interest to the paper, while everything important and worthy of note that happens in the Old World or the New, shall be

collected and collated for the taste of our rea-

ders. The Ladies' Department shall always be choice and select, and shall receive strict attention, while such things as may interest our juvenile readers, and that important and large class of our readers, the Farmer will not be overlooked. In order to gratify, as much as possible, the laudible desire of our country readers, a portion of our attention will be devoted to the collection and diffusion of such News, Memoranda, Tables, Facts, Hints, &c. as may seem important to agriculturists, and the population resident without the confines of our great cities. The state of the murkets and the fluctuatious in the prices, will be regularly and what is of

more moment, correctly given.

We have ever been opposed to the constant bluster and parade made by some editors, about the excellence of their papers, and have resolved that the Saturday Evening Post, shall be conducted, as to speak for itself,

Our readers will always find in its columns the earliest and most authentic information, as well as the most choice and entertaining literary matter. We have totally discarded the system of filling the paper with quack advertisements, but prefer giving our readers from week to week, entertaining reading matter.

And we feel assured that we shall be no losers thereby, as but few readers care about having a paper filled with descriptions of these nauscating compounds.

The Saturday Evening Post, will be furnished for \$2 per annum in advance, or one copy three years for \$5. To those who wish to subscribe for a Philadelphia Magazine, we will furnish a copy of the Philadelphia Ca ket, and two Copies of I'ost for one year for \$5 free of Postage and dis-

No New Subscribet received without the Money.

To those who wish to subscribe, we would say, that the safest plan is, to enclose the money in a letter and direct to us. Most postmasters will fronk their leaters if relating to nothing but the business of the office, and all postmasters who will be kind enough so to do, we shall be pleased to acof every description, which for neatness and dura- knowledge as agents,

THE LARGEST, CHEAPEST, HANDSOM-EST, AND MOST COMPREHENSIVE NEWSPAPER IN THE UNITED

EDITED BY PARK BENJAMIN AND EPES SARGENT.

NEW WORLD more valuable than ever as compendious newspaper and repository of elegant literature, we enter upon the second volume (folio) on the 24th of October, dressed in a beautiful garb of new type, cast expressly for the purpose. It will therefore be a fitting time to commence new subscriptions, as well as for the renewal of those which may then expire.

During the first year of the existance of the New Worken, it has acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscribers, during that period, (besides a'l the current news of the day, domestic and foreign) new and valuable works by Talfourd, D'Israell, Thomas Moore, Miss Mitford Mrs. Jameson, C. Dickens, Ainsworth, Knowles, Bulwer, Marryat, and others-works, which in London could not be purchased for fifty times the amount of the subscription price of the New World. In addition to works of interest by these eminent authors, it has contained the cream of the periodical literature of the day, as well as original ship and excellence of reading matter, with any atticles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedgwick, Orville Dewey, Professor Longfellow, the author of "Yankee Notions," Simms. Street, &c. &c.

In politicks we shall, as hitherto, maintain an armed neutrality .- Our columns as heretofore will be unobjectionable in a moral point of view. In criticism we shall, in justice to the public, mantain a perfect independence, even though we incur the vengence of all the dunces. We shall, in conclusion, earnestly strive to render our sheet not only worthy of the unparalleled favour it has experienced, but of a continually extending circulation. While we continue to furnish with all possible promittude the most attractive liter ture of the day, we shall as our means enlarge, afford that compensation to native authors, which may induce them to m ke the New World the medium for presenting to the public their best productions. Our excellent Lon don correspondent will be continued, and due as tention will be paid to the comercial, agriculture and news departments of our paper.

PROSPECTUS

OF THE JOURNAL OF THE AMERICAN SILK SO CIETY, AND RURAL ECONOMIST. EDITED BY GIDEON B. SMITH.

THIS Journal was established by the America Silk Society, for the purpose of diffusing practic information on the CULTURE OF SILK in the Unite States. It has now been published one year, an may be considered a work of standard character.

The first year's publication, comprising the fir volume, containes a mass of valuable information and it will be the object of the editor to male the second equal in all respets, if not superior, the first. The important fact is now estal lished ! yond any question, that the people of the Unit-States can make silk cusaven and nerren that any other nation upon earth. It has been prove by unimpeachable testimony, that the entire co of producing silk ready for market, does not exce-TWO DOLLARS AND TWENTY-FIVE CENTS P. FOUND, and its lowest value is FOUR DOLLARS AN FIFTY CENTS; also, that ONE ACRE of ground plan ed in morus inulticaulis, will produce the first ye the trees are planted, return-right rounds f SILE, leaving a clear profit to the producer of ox HUNDRED AND THEFF DOLLARS! It has also been proved that the children and females of any farmer mily can, with the greate t possible ease, produfrom fifty to a hundred pounds of silk every yea without any cost whatever to the expenses of th farm after the trees are planted; and ther fore, th. the whole amount of silk will be so much clear g.i. say from \$225 to \$450. With these facts we su mit to an intelligent people wether it is not a gree and important object for them to introduce the cu
