IMPORTANT PROOFS. Of the efficacy of Dr. Harlich's Celebrated Medicines.

The following certificate was sent by Mr. R. B. Hipman, egent at Cincinnatti, Ohio, There can be no mistake in it, as the parties are well known. Mr. Ezekiei Rigdon, of Anderson town-hip. Hamilton county, Ohio, was several days troubled with full-us affections, seidity of the stomach, attended with the usual symptoms of dyspepsia, and having made trial of various medicine without finding relief, was cured by the above med cines. Attest, Cincinnati, June 30th, 1840.

YET LATER .- Mr. Vance, of Washington county, writes as follows-Dear Sir-Dr. Harlich's pals are performing some of the most wonderful cures in this vicinity ever heard of. They were introduced here about six months ago, by one of my neighbors, who bought a half deep packages from the Pittsburg office. I om aware of four cases in this place where complete cures have been performed, one of severe thenmatism, two of dyspepsia, and one of a most sheeking and aggregated noryour complaint, of ten or twelve years wanding. I sould you enclosed five dollars; please to forward pills for that amount by the bearer, William Ward, Attest JOHN VANCE.

July 27, 1840. N. B. The above certificates, compared with the very many already received, certainly must convince those similarly efflicted, that they can yet be releved by the use of these invaluable medicines. Principal office, No. 19, North Eighth street Philadelphia. For side by

Goods intended for Pittsburg, or any point on the Pennsylvania Canals, will be shipped without delay on their arrival at Harrisburg, as this connects with the North American line of Portable na Packet Line to Northumberland, Williamsport, Wilkesbarre, and all intermediate places. GEORGE W. LAYNG.

Harrisburg, Sept. 9, 1840.

Works of Nature.

IN a state of health the intestinal canal may be ouspared to a river whose waters flow over the adsining land, through the channels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs on smoothly the channels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the cambis na longer pure, but soon becomes stagment. There is but one law of circulation in nature. When there is a super-abundance of humorial fluid (serocity) in the intestinal tubes, and costiver.ess takes place, it fl ws back into the blood vesse's, and infiltrates itself into the circulation. To establish the free course of the river, we must remove the obstructions which stop its free course, and tho e of its tr butary stream. With the body, follow the same natural principal remove, by that valuable purgative medicine Bran deeth,s Universal Vegetable Pills, which are an ef Actual assistance of nature, the superal unclance of humors in the intestine canal. By per evering in this practice, the ways of the circulation will then be restored to the full exercise of their natural functions, and a state of health will be firmly establish Remember, never suffer a drop of blood to be taken from you'- Evacuate the humans as often you are sick.

NEW WORLD more valuable than ever as a compendious newspaper and repository of elegant literature, we enter upon the second volume (folio) on the 24th of October, dressed in a beautiful garb former well known as editor, proprietor, or princi- of new type, cast expressly for the purpose. It will therefore be a fitting time to commence new in this city for the last fifteen years; and the latter, subscriptions, as well as for the renewal of those which may then expire,

During the first year of the existance of the New Worker, it has acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscribers, during that period, (besides all the current news of the day, domestic and foreign) new and valuable works by Talfourd, D'Israeli, Thomas Moore, Miss Mitford, Mrs. Jameson, C. Dickens, Ainsworth, Knowles, Bulwer, Marry at, and others-works, which in London could not be purchased for fifty times the amount of the subscription price of the New World. In addition to works of interest by these eminent authors, it has contained the cream of the periodical literature of the day, as well as original articles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedgwick, Orville Dewey, Professor Longfels low, the author of "Yankee Notions," Simms, Street, &c. &c.

In politicks we shall, as hitherto, maintain an armed neutrality.—Our columns as heretofore will be unobjectionable in a moral point of view. In criticism we shall, in justice to the public, mantain a perfect independence, even though we incur the vengence of all the dunces. We shall, in conclusion, earnestly strive to render our sheet not only worthy of the unparalleled favour it has experianced. but of a continually extending circulation. While we continue to furnish with all possible promtitude the most attractive literature of the day, we shall, as our means enlarge, afford that compensation to we stated that the paper circulated so widely a-mong the steady, reading portion of the United the New World the medium for presenting to the public their best productions. Our excellent London correspondent will be continued, and due at and news departments of our paper.

A QUARTO EDITION

Of sixteen large pages was commenced on the sixt! of June last, in order to meet the wishes of larg number of subscribers, by giving them its rich an varied contents in a suitable form for binding. This we have done without having enhanced the price so that new subscribers, and others on the renew: of previous subscriptions, can take their choice be tween the Quarto and Folio form. But a fes sets of the Quarto, from No I, now remain hand in the office, and we shall therefore, not able long to supply them.

PROSPECTUS

OF THE JOURNAL OF THE AMERICAN SILK SO CIETY, AND RURAL ECONOMIST.

EDITED BY GIDLON B. SMITH. THIS Journal was established by the America: Silk Society, for the purpose of diffusing practica information on the CULTURE OF SILK in the Unite States. It has now been published one year, an

may be considered a work of standard character. The first year's publication, comprising the first volume, containes a mass of valuable information and it will be the object of the editor to mak the second equal in all respets, if not superior, t the first. The important fact is now estal lished be yond any question, that the people of the Unite-States can make silk cheapen and BETTER tha any other nation upon earth. It has been proveby unimpeachable testimony, that the entire cos of producing silk ready for market, does not excee TWO DOLLARS AND TWENTY-TIVE CENTS PA-POUND, and its lowest value is FOUR DOLLARS AND FIFTY CENTS; also, that ONE ACRE of ground plan! ed in morus multicaulis, will produce the first year the trees are planted, FOURTY-FIGHT Pounds o SILK, leaving a clear profit to the producer of on BUNDBED AND RIGHT BOLLARS! It has also ber proved that the children and females of any farmer' smily can, with the greate t possible ease, produc from fifty to a hundred pounds of silk every year without any cost whatever to the expenses of th farm after the trees are planted; and therefore, the the whole amount of silk will be so much clear gain say from \$225 to \$450. With these facts we sulmit to an intelligent people wether it is not a grea and important object for them to introduce the cul ture of silk in every farmer's family in the Union To enable all our farmers to make silk, the Joun NAL OF THE AMERICAN SILE SOCIETY' Was estab lished; it contains plain practical directions for cur-TIVATING THE TREES, PEEDING and BEARING SILV WORMS, RELLING THE SILK, and preparing it for market, &c. besides all other information that ear be required to enable any person to enter upon the business, either on a large or small scale. Ever friend of his country, into whose hands this pape may fail, will be doing a patriot and philanthropist work by inducing his triends and neighbours to en tor their names upon the list of subscribers.

The Journal of the American Society is published monthly, in pamphtet form; each number contain thirty-two octavo pages, printed on new type a handsome paper, with a printed colored cover.

Truns :- Two dollars a year, or six cor en dollars, always to be paid before the sent. All subscriptions to begin with the work sent. All subscriptions to begin with the work ber of the year, and in no case will the work be seen than the work be seen than the work be seen. to any subscriber longer than a shall have be-

NEW SUBSCRIBERS. who take the first at No 36 Curter's Alley, Philadelphia. Lans for the two years, will be ringinged only Tanne Do
