TO THE COMMUNITY.

THE success which has attended the use of Dr. which's German Aperient and Compound engthening Tonic Pills, is truly astonishing. It no vain boast to say this medicine has proved by happy effects in the cure of a variety of diseases which the human frame is liable, to be vastly surior to the many preparations before the public. any of these preparations are compounded by invirtuals who are positively ignorant of the mystees of the human system, end mere pretenders to edical knowledge. Dr. Harlich, however, is celeated among the German faculty as a man of the ghest scientific attainments, and equally distincished throughout Europe, as a successful medical ractitioner, spent most of the years of a useful life the aquisition of such knowledge as might prove neficial to his fellow creatures. In the pills which e invented, and which bear his name, the public re assured of an article that possesses more than dinary virtues. From the acknowledged talents f this inventor, nothing less than a good article ould be expected; and the experience of many ours has afforded demonstration of the virtues of te medicine. In Germany and other parts of Eue, its r putation is established. In this country nto which it has but been recently introduced, it is spidly gaining the most substantial reputation. The amerous cert ficates of cures of the most obstinate or ses effected by the use of Harlich's Pills, which se proprietor is constantly receiving, is proof of the

ne proprietor. We take the liberty, then, of suggesting to every mily, that they make use of Dr. Harlich's Pills. et them keep a supply constantly on hand, to be no most unequivocal proofs of utility .- Medical

PRINCIPAL REASONS

Why Dr HARLICH'S Compound Strengthenng and German Aperient Pills are used by all clases of people, in preference to other Medicines, betause they are prepared from a pure extract of berbs, a whole some medicine, mild in its operation and pleasant in its effect—the most certain preserver if health, a safe and effectual cure of Dyspepsia or Indigestion, and all stomach complaints, a preserver and porifier of the whole system.

Decause they southe the nerves of sensibility and fortify the nerves of motion, imparting to their most aubtle fluid its pristine tone, thus giving strength and clearness of mind.

Because they never destroy the coats of the stomuch and bowels, as all strong purgatives do. Because science and experience teach us that no mere purgative alone will cure the disease of the stomach and nerves, Weakness is the primary cause of a host of diseases, and, by continually resorting to Drustic purgatives, you make the disease much wone, instead of better.

Because Dr. Harlich's Medicines are put up upon the common sense principle, to "cleanse and strengthen," which is the only course to pursue to effect a cure.-Lastly,
Because these Medicines really do cure the dis

case for which they are recommended. Principal Office for the United States, is at No. 19 North Eighth street, Philadelphia.

CLEANSE AND STRENGTHEN.

The only sure and best course to pursue in curing discuses, of whatever nature they may be, is: first, to sleaner and purify the Stomach and Bowels by gentle aperients; secondly, to give strength and tone to those tender organs by the use of proper tonics. This mode is always pursued by regular physicians, which they well know to be the only course to resort to, to effect a speedy and permanent cure. Dr Henricu's Compound Strengthening Tonic and Aperical Pills, are a sure medicine to effect this grand object. The German Aperical I'dls are to cleanse the stomach and intestines, after which the Compound Strengthening Tonic Pills are used, to give strength and tone to these orgoes which require tender treatment. Works of Nature. IN a state of health the intestinal canal may be compared to a river whose waters flow over the adjoining land, through the channels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs on smoothly the channels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the canals is no longer pure, but soon becomes stagnant. There is but one law circulation in nature. When there is a superabundance of humorial fluid (serocity) in the intestinal tubes, and costiveness takes place, it flaws back into the blood vessels, and infiltrates itself into the circulation. To establish the free course of the river, we must remove the obstructions which stop its free course, and tho e of its tr butary stream. With the body, follow the same natural principal; remove, by that valuable purgative medicine Brandreth's Universal Vegetable Pills, which are an effictual assistance of nature, the superabundance of humors in the intestine canal. By persevering in this practice, the ways of the circulation will then be restored to the full exercise of their natural functions, and a state of health will be firmly establish-Remember, never suffer a drop of blood to be taken from you- Evacuate the humors as often and as long as they are degenerated, or as long as

you are sick. Dr. Brandreth's Office in Philadelphia, is at No. 8, NORTH EIGHTH street, where his pills can be had at 25 cents per box, with fuil directions. Colly agent in Sunbury, is H. B. Masser Esqr.

THE CAUSE OF DISEASE. Nearly all classes of disease, are caused by some obstruction in the system, which prevent the regular and wholesome operation of the animal functions. This state of the system, is disease, which is manifested in a variety of forms, more or less malignant in their character. To restore the system to a state of health, then, it is only necessary to remove the cause of disease, and the end is accomplished. The cause is obs ruction somewhere. This can be removed by purgation, which is the only means that should be resorted to, because, suggested by reason, and by nature. Dr. Harlich's Strengthening and German Aperient Pills, are allowed by the thousands who have used them, to be the best purgative medicine in existence. Because, they not only remove all obstructions, and purge the system of its impurities, but, because, and which is extremely important, strengthen and give proper tone to the stomach, and produce a healthy action of all the parts. Besides, they are so mild and gentle in their operation, as to render them at all times a persafe and desirable remedy. The afflicted would do well, then, to purchase a box or two of this invaluable medicine, and give it a fair trial, instead of destroying their systems with oft-repeated doses of calomel, and other drugs, so injurious to human life and happiness

SICK HEADACHE. Is a very common affection. Its attacks are very severe, and characterized by spasmodic pains, shifting from one part of the head to the other, fre quently commencing in the morning, attended with ckness of the stemach, nausea, faintings, and rangement of the stomach and digestive organs. FEMALES are most subject to this affection, particularly those who lead a sidentary life. Dr. Har- politics. lich's Compound Strengthening Tonic and Germun Aperient Pills, are warranted to arrest this troublesome disease: first by cleansing the stomach and bowels, purifying the blood, and removing all diseased and excrementuous humors from the liver and intestines. By the use, first, of a few doses of the Aperient German Pills, afterwards two or three deses of the Strengthening Tonic Pills, which are used to strengthen and invigorate the nervous system, give tone to the stomach and organs of digestion, thus importing to their subtile fluid its pristine vigor, this afflicting disease may be entirely removed. This is the only mode of treating this annoying complaint, and has been attended with success in thousands of cases.

GRAHAM'S MAGAZNIE,

Ladles' and Gentlemen's World of Literature and Fashlon.

(The Casket and the Gentleman's United.)

A NEW Volume, under the above title, of the well established and fashionable Magazine, The Philadelphia Casket in conjunction with the Gen leman's Magazine, which has been every where pronounced the most readable and popular of the day, will be opened on the First of January, 1841, with an array of Contributors secured by the union of talent and fame, which no periodical in the country can boast or pretend to rival. The December number will, however, be a spicimen of the new volume. The Volume will be opened with a new and beautiful type, the finest white paper, and with the first of a series of embellishments unsurpassed by any which have yet appeared in any Magazine, The style of elegance, the beauty and finish of these illustrations, and the extensive improvements which will be made in its typographical appearance, and above all, the tone of its literary department, by the bril iant array of contributors, whose articles have enriched the pages of each number, will give it character, second to no Magazine in the Union. The character of the esticles which shall appear in its pages, will be equally removed from a sickly sentimentality, and from an affectation of morality, but while a true delineation of human nature in every variety of passion is aimed at, nothing shall be found in its pages to cause a blush upon the cheek of the most pure.

The Literary character will be sufficiently guaranteed by the reputation of both Magazines thus united, for years past. Writers of the first rank have been regular Contributors to their pages, and the tales and sketches published in them have been wid-ly copied and read, and the firm and independent tone of the criticisms, upon the current literature of the day, has been every whele approved and commended. The list of contributors embraces the names of most of the principal writers in America, with a respectable number of English authors.

The series of well known nautical papers, entitled "Cruizing in the last War," have had a run, unequalled by any series published in any Magazine for years .- The author promises to open the first of a new series of Tales of the Sea, and from his known abilities as a depicter of sea scenes and life, much may be relied upon from him in maintaining the popularity of the Magazine Papers may be expected during the volume, also from the author of the well known articles, entitled "The Log of Old Ironside." The author of "Syrian Letters," will also lend his powerful and grateful pen, to sustain and increase the reputation of the work,-The valuable aid of the au hor of "Leaves from a Lawyer's Port Folio," has also been secured, and we may expect something still more thrilling from the capacious stores which a long life in the profession has enabled him to amass. An occasional Chit-Chat with "Jemmy Short," and "Oliver Oldfellow," is also promised; with a variety of choice articles in prose and verse, from various writers of celebrity, as contributors to the prominent Magazines of the country. The editors of both Magazines continue their services under the new arrangement. With such an array of talent a Magazine of unrivalled attrac-

FASHIONS AND ENGRAVINGS. In compliance with the almost unanimous wish of our lady subscribers, we shall the ensuing volume furnish them with a beautiful and correct plate of Fashions Monthly, a feature, it is believed, that will neither be unwelcome nor unpopular. Moyer, from Paris and London, and may always be depended upon as the prevailing style in Philadelphia and New York, for the month in which they are is-

tions, may safely be promised the coming volume.

Time of publication .- The work will be published on the first of the month in every quarter of the Union. The most distant subscriber will consetirely cured of the above distressing disease : His quently receive it on that day, as well as those who pages. These dimensions will enable the publisher reside in Philadelphia. THE CULTIVATOR.

A Consolidation of Buel's Cultivator and the Ge-

WILLIS GAYLORD AND LUTHER TUCKER, EDITORS Prospectus of Vol. 8, for 1841.

THE Cultivator was established to improve and a proper tone to the morals and mind of the Farmer; to show him the dignity and importance of his profession; to store his mind with useful knowledge, and convince him that while all classes are and must be more or less dependant on each other, he alone of the whole can make any near approach to independence. If there is one thing more than another, which in this country gives a man superiority over his fellow men, it is knowledge; and this knowledge,-knowledge which is as essential to the succees of the farmer as to other men,-it is the design of the Cultivator to aid in imparting.

The volume for 1840, is filled entirely with Original Communications, embracing articles from about 300 Correspondents, from almost every state

in the Union.

If an increase of subscription beyond any precedent in the history of Agricultural Journals,-if the almost unanimous voice of the public press in our favor,-if the multitude of private yet flattering teatimonials we have received, added to a circulation amounting the first year to Twenty-two Tuou SAND, may be admitted as evidence, then we have certainly most abundant reason to be gratified with the success which has attended the Union of the Cultivator and the Genesse Farmer. No expense has been or will be spared to render the Cultivator worthy of the patronage it has received. In the number, variety and excellence of its Illustrations, it is without a rival at home or abroad, the last volume being embellished with nearly One Hundred Engravings, illustrating the improved breeds of Horses, Catile, Sheep, Swine, Buildings, Implements, &c., making the Cultivator, all things considered, it is believed, the Cheapest Agricultural Paper ever published in this or any other country.

TERMS-One Dollar per annum-Six copies for \$5-the money to be remitted in advance, free of postage. A commission of 20 per cent, will be allowed to Agents who obtain 25 or more subscribers, and 25 per cent, to those who obtain 100 or more. All subscriptions to commence with a vol-

ASTONISHING INCREASE FOUR THOUSAND NEW SUBSCRIBERS

IN TWO MONTHS!!! WHEN we first purchased the old and

known establishment of the Saturday Evening Post,

we stated that the paper circulated so widely among the steady, reading portion of the United States, that we entered upon our labors with full confidence of the future. Our success has since been beyond our most sanguine expectation, as our weekly receipts overbalance those of any cotemporary paper. Our list has continued to swell up, with unexampled rapidity, and we have the confidence, that at the present rate of increase, we shall be enabled in a few months to boast of more than 35,000 subscribers! When we commenced our labors, we announced distinctly, that the tone of the paper should be decidedly moral, and that nothing shou'd be admitted into our columns, which the most fastidious father could disapprove of, and determined that as an approved Family Paper, it should not contain a paragraph, with the spirit of which a parent would not wish to have a daughter familiar, and we therefore, with this view, announced that no theatrical notices should appear in our columns, and that we should be opposed to theatres as things calculated to injure the healthy action of an honest mind, -as creative of exhibitions demoralizing in tendency, and fearfully permeious in fact. There were not wanting blusterers, who made a great parade of opposition, and Croakers, who predicted our speedy downfall, but we threw ourselves upon the sober, rational and experienced portion of the people of the United States for support, and we have been nobly sustained.

We thought and expressed the opinion, that however careless many might be upon this subject, that few, even if they did not entirely disapprove of such entertainments, cared about having the gross details forever paraded before the eyes of their children, and the sickening and nauseating eulogy of all kinds of characters made familiar to

We determined also, that while the paper continued under our control, it should be strictly neutral in politics, and that as news and literary journalists we had nothing to do with the matter; this determination has been strictly and rigidly adhered such public document as may be deemed of interest to all, and such a history of the progress of political events, as are strictly in keeping with our duty, and the character of the paper, we shall studiously and thoroughly avoid any contamination of

partizen politics. The paper is now printed in a new and beautiful type,-has received the praise of many editors of taste, as the handsomest family sheet in the Union.' Our efforts have been directed to the combining of beauty and simplicity with utility and taste. The Post is printed on a stout white paper, ren-

dering it neat and durable for filing. In addition to these efforts toward perfection in the mechanical department, and exterior of our paper, no labor, and no cost been spared in the developement of intellectual strength. The present variety of interesting tales, original, from foreign and domestic magazines, together with the valuable contributions of our own circle of literary friends will continue to give interest to the paper, while everything important and worthy of note tha nappens in the Old World or the New, shall be collected and collated for the taste of our rea-

The Ladies' Department shall always be choice and select, and shall receive strict attention, while such things as may interest our juvenile readers, and that important and large class of our readers, the Farmer will not be overlooked. In order to gratity, as much as possible, the laudible desire of our country readers, a portion of our attention will be devoted to the collection and diffusion of such News, Memoranda, Tables, Facts, Hints, &c. as may seem important to agriculturists, and the population resident without the confines of our great cities. The state of the markets and the fluctuatious in the prices, will be regularly and what is of

more moment, correctly given.

We have ever been opposed to the constant bluster and parade made by some editors, about the excellence of their papers, and have resolved that the Saturd y Evening Post, shall be conducted, as to speak for itself.

Our readers will always find in its columns the earliest and most authentic information, as well as the most choice and entertaining literary matter. We have totally discarded the system of filling the paper with quack advertisements, but prefer giving our readers from week to week, entertaining reading matter.

And we feel assured that we shall be no losers thereby, as but few readers care about having a paper filled with descriptions of these nauseating compounds.

The Saturday Evening Post, will be furnished for \$2 per annum in advance, or one copy three years for \$5. To those who wish to subscribe for a Philadelphia Magazine, we will furnish a copy of the Philadelphia Ca ket, and two copies of the l'ost for one year for \$5 free of postage and dis-

No New Subscriber received without the Money.

To those who wish to subscribe, we would say, that the safest plan is to enclose the money in a letter and direct to us. Most postmasters will frank their letters if relating to nothing but the business of the office, and all postmasters who will be kind enough so to do, we shall be pleased to acknowledge as agents.

THE NEW WORLD. THE LARGEST, CHEAPEST, HANDSOM

EST, AND MOST COMPREHENSIVE NEWSPAPER IN THE UNITED STATES.

EDITED BY PARK BENJAMIN AND EPES SARGENT.

NEW WORLD more valuable than ever as compendious newspaper and repository of elegant literature, we enter upon the second volume (folio) on the 24th of October, dressed in a beautiful garb of new type, cast expressly for the purpose. It will therefore be a fitting time to commence new subscriptions, as well as for the renewal of those which may then expire.

During the first year of the existance of the NEW WORLD, it has acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscribers, during that period, (besides all the current news of the day, domestic and foreign) new and valuable works by Talfourd, D'Israell, Thomas Moore, Miss Mitford, Mrs. Jameson, C. Dickens, Ainsworth, Knowles, Bulwer, Marryat, and others-works, which in London could not be purchased for fifty times the amount of the subscription price of the New World. In addition to works of interest by these eminent authors, it has contained the cream of the periodical literature of the day, as well as original articles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedgwick, Orville Dewcy, Professor Longfellow, the author of "Yankee Notions," Simms, Street, &c. &c.

In politicks we shall, as hitherto, maintain an armed neutrality .- Our columns as heretofore will be unobjectionable in a moral point of view. In criticism we shall, in justice to the public, mantain a perfect independence, even though we incur the vengence of all the dunces. We shall, in conclusion, carnestly strive to render our sheet not only worthy of the unparalleled favour it has experianced, but of a continually extending circulation. While we continue to furnish with all possible promtitude the most attractive liter ture of the day, we shall, as our means enlarge, afford that compensation to native authors, which may induce them to make the New World the medium for presenting to the public their best productions. Our excellent London correspondent will be continued, and due attention will be paid to the comercial, agricultural and news departments of our paper.

A QUARTO EDITION

Of sixteen large pages was commenced on the sixth of June last, in order to meet the wishes of large number of subscribers, by giving them its rich and varied contents in a suitable form for binding. This we have done without having enhanced the price. so that new subscribers, and others on the renewal of previous subscriptions, can take their choice between the Quarto and Folio form. TBut a few sets of the Quarto, from No 1, now remain on hand in the office, and we shall therefore, not be able long to supp'y them.

PROSPECTUS

OF THE JOURNAL OF THE AMERICAN SILK SO CIETY, AND RURAL ECONOMIST. EDITED BY GIDEON B. SMITH.

THIS Journal was established by the America Silk Society, for the purpose of diffusing practice information on the CULTURE OF SILK in the Unite States. It has now been published one year, an

may be considered a work of standard character. The first year's publication, comprising the fir volume, containes a mass of valuable information and it will be the object of the editor to mak the second equal in all respets, if not superior, the first. The important fact is now estal lished yond any question, that the people of the Units States can make silk CHEAPER and BETTER the any other nation upon earth. It has been prove by unimpeachable testimony, that the entire co of producing silk ready for market, does not excer TWO DOLLARS AND TWENTY-FIVE CENTS PI POUND, and its lowest value is FOUR DOLLARS AN FIFTY CENTS; also, that ONE ACRE of ground plan ed in morus multicaulis, will produce the first ye the trees are planted, FOURTY-FIGHT FOUNDS SILK, leaving a clear profit to the producer of o HUNDRED AND EIGHT DOLLARS! It has also be proved that the children and females of any farme family can, with the greate-t possible ease, produ from fifty to a hundred pounds of silk every ye without any cost whatever to the expenses of farm after the trees are planted; and therefore, tl the whole amount of silk will be so much clear ga say from \$225 to \$450. With these facts we st mit to an intelligent people wether it is not a gre and important object for them to introduce the c ture of silk in every farmer's family in the Uni To enable all our farmers to make silk, the Jox NAL OF THE AMERICAN SILK SOCIETY' WAS est lished; it contains plain practical directions for co TIVATING THE TREES, PERDING and REARING ST wound, nexting 'rue sizk, and preparing it market, &c. besides all other information that be required to enable any person to enter upon business, either on a large or small scale. Ex friend of his country, into whose hands this pa may fall, will be doing a patriot and philamhrops work by inducing his friends and neighbours to

ter their names upon the list of subscribers.
The Journal of the American Society is publis monthly, in pamphlet form; each number conta thirty-two octavo pages, printed on new type handsome paper, with a printed colored cover.
