CLEANSE AND STRENGTHEN.

The only sinc and best course to pursue in curing discuses, of whatever nature they may be, is: first, to sleaned and purify the Stomach and Bowels by gentle sperients; secondly, to give strength rangement of the stomach and digestive organs, and tone to those tender organs by the use of proper FEMALES are most subject to this affection, partonics. This mode is always pursued by regular physicians, which they well know to be the only course to resort to, to effect a speedy and permanent cure. Dr Hanticu's Compound Strengthening Tonic and Aperient Pills, are a sure medicine to effect this grand object. The German Aperient Pills are to cleanse the stomach and intestines, after which the Compound Strengthening Tonic Pills are used, to give strength and tone to those organs which require tender treatment. Nearly twothirds of the diseases which we daily behold, are diseases of the nervous system, and by continually using drastic mineral purgatives the sufferer will soon find himself a being too much refined to remain long in existence. Works of Nature.

IN a state of health the intestinal canal may be ompared to a river whose waters flow over the adoming land, through the channels nature or art as made, and improves their qualities; and to keep up the comparison of the river, so long as it runs on smoothly the channels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the capels is no longer pure, but soon becomes staguent. There is but one law of circulation in nature. When there is a superabundance of humorial fluid (scrocity) in the intestinal tubes, and costiveness takes place, it flows back into the blood vessels, and infiltrates itself into the circulation. To establish the free course of the river, we must remove the obstructions which stop its free course, and those of its tributary stream, With the body, follow the same natural principal; remove, by that valuable purgative medicine Brandreth,s Universal Vegetable Pills, which are an effectual assistance of nature, the superabundance of humors in the intestine caual. By persevering in this practice, the ways of the circulation will then be restored to the full exercise of their natural functions, and a state of health will be firmly establish ed Remember, never suffer a drop of blood to be taken from you - Evacuate the humors as often and as long as they are degenerated, or as long as

THE CAUSE OF DISEASE. Nearly all classes of disease, are caused by some obstruction in the system, which prevent the regular and wholesome operation of the animal functhons. This state of the system, is disease, which is manifested in a variety of forms, more or less malignant in their character. To restore the system to a state of health, then, it is only necessary to remove the cause of disease, and the end is accomplished. The cause is obstruction somewhere. This can be removed by purgation, which is the only and effectual cure of Byspensia or means that should be resorted to, because, suggested by reason, and by nature. Dr. Hurlich's Strengthening and German Aperient Pills, are allowed by the thousands who have used them, to be the best purgative medicine in existence. Because, they not only remove all obstructions, and purge the system of its impurities, but, because, and which is extremely important, strengthen and give proper tone to the stomach, and produce a healthy action of all the parts. Besides, they are so mild and gentle in their operation, as to render them at all times a perfeetly sufe and desirable remedy. The afflicted would do well, then, to purchase a box or two of this invaluable medicine, and give it a fair trial, instead of destroying their systems with off-repeated doses of calomel, and other drugs, so injurious to human life and happiness The above medecine for sale at the Drug store of

SICK HEADACHE.

Is a very common affection. Its attacks are very severe, and characterized by spasmodic pains, shifting from one past of the head to the other, frequently commencing in the morning, attended with sickness of the stomach, nausea, faintings, and sometimes, vomiting, giddiness, and confusion of eight, &c &c. This desease is produced from various causes, perhaps the most common, is a deicularly those who lead a sedentary life. Dr. Harlich's Compound Strengthening Tonic and Germun Aperient Pills, are warranted to arrest this troublesome disease: first by cleansing the stomach and howels, purifying the blood, and removing all diseased and excrementuous humors from the liver and intestines. By the use, first, of a few doses of the Aperient German Fills, afterwards two or three doses of the Strengthening Tonic Pills, which are used to strengthen and invigorate the nervous system, give tone to the stomach and organs of nigestion, thus imparting to their subtile fluid its pristine vigor, this offlicting disease may be entirely removed. This is the only mode of treating this annoying complaint, and has been attended with success in thousands of cases.

GRAHAM'S MAGAZINE,

Ladies' and Gentlemen's World of Literature and Fashion.

(The Casket and the Gentleman's United.)

NEW Volume, under the above title, of the we'll established and fashionable Magazine The Philadelphia Casket in conjunction with the Gentleman's Magazine, which has been every where pronounced the most readable and popular of the day, will be opened on the First of January, 1841, with an array of Contributors secured by the union of talent and fame, which no periodical in the country can boast or pretend to rival. The December number will, however, be a spicimen of the new volume. The Volume will be opened with a new and beautiful type, the finest white paper, and with the first of a series of embellishments unsurpassed by any which have yet appeared in any Magazine, The style of elegance, the beauty and finish of these illustrations, and the extensive improvements which will be made in its typographical appearance, and above all, the tone of its literary department, by the bril iant array of contributors, whose articles have enriched the pages of each number, will give it character, second to no Magazine in the Union, The character of the articles which shall appear in its pages, will be equally removed from a sickly sentimentality, and from an affectation of morality, but while a true delineation of human nature in every variety of passion is aimed at, nothing shall be found in its pages to cause a blush upon the cheek of the most pure.

The Literary character will be sufficiently guaranteed by the reputation of both Magazines thus united, for years past. Writers of the first rank have been regular Contributors to their pages, and the tales and eketches published in them have been widely copied and rend, and the firm and independent tone of the criticisms, upon the current literature of the day, has been every where approved and commended. The list of contributors embraces the names of most of the principal writers in America, with a respectable number of English authors.

The series of well known nautical papers, entitled "Cruizing in the last War," have had a run, unequalled by any series published in any Magazine for years,-The author promises to open the first of a new series of Tales of the Sea, and from his known abilities as a depicter of sea scenes and life, much may be relied upon from him in maintaining the popularity of the Magazine Papers may be expected during the volume, also from the author of the well known articles, entitled "The Log of Oid Iron-The author of "Syrian Letters," will also lend his powerful and grateful pen, to sustain and increase the reputation of the work .- The valuable aid of the author of "Leaves from a Lawyer's Port l'olio," has also been secured, and we may expect something still more thrilling from the capaciou stores which a long life in the profession has enabled him to amass. An occasional Chit-Chat with "Jemmy Short," and "Oliver Oldfellow," is also promised; with a variety of choice articles in prose and verse, from various writers of celebrity, as contributors to the prominent Magazines of the country. The editors of both Magazines continue their services under the new arrangement. With such an array of talent a Magazine of unrivalled attractions, may safely be promised the coming volume.

PASHIONS AND ENGRAVINGS. In compliance with the almost unanimous wish of our lady subscribers, we shall the ensuing volume furnish them with a beautiful and correct plate of Fashions Monthly, a feature, it is believed, that

THE CULTIVATOR.

A Consolidation of Buel's Cultivator and the Genesee Farmer.

WILLIS GATLORD AND LUTHER TUCKER, EDITORS

Prospectus of Vol. 8, for 1841.

PHE Cultivator was established to improve and clevate the Agriculture of the country; to give mer; to show him the dignity and importance of his profession; to store his mind with useful knowledge, and convince him that while all classes are and must be more or less dependant on each other, he alone of the whole can make any near approach to independence. If there is one thing more than another, which in this country gives a man superiority over his fellow men, it is knowledge; and this knowledge,-knowledge which is as essential to the succees of the farmer as to other men,-it is the design of the Cultivator to aid in impurting.

The volume for 1840, is filled entirely with Original Communications, embracing articles from about 300 Correspondents, from almost every state

in the Union. If an increase of subscription beyond any precedent in the history of Agricultural Journals,-if the almost unanimous voice of the public press in our favor,-if the multitude of private yet flattering testimonials we have received, added to a circulation amounting the first year to Twestr-two Tuou-SAND, may be admitted as evidence, then we have certainly most abundant reason to be gratified with the success which has attended the Union of the Cultivator and the Genesse Farmer. No expense has been or will be spared to render the Cultivator worthy of the patronage it has received. In the number, variety and excellence of its Illustrations, it is without a rival at home or abroad, the last volume being embellished with nearly One Hundred Engravings, illustrating the improved breeds of Horses, Catile, Sheep, Swine, Buildings, Implements, &c., making the Cultivator, all things considered, it is believed, the Cheapest Agricultural Paper ever published in this or any other country.

TERES-Dae Dollar per annum-Six copies for 55-the money to be remisted in advance, free of postage. A commission of 20 per cent, will be allowed to Agents who obtain 25 or more subscriters, and 25 per cent, to those who obtain 100 or more. All subscriptions to commence with a vol-

ASTONISHING INCREASE. FOUR THOUSAND NEW SUBSCRIBERS IN TWO MONTES!!!

WHEN we first purchased the old and known establishment of the Saturday Evening Post.

we stated that the paper circulated so widely a-mong the steady, reading portion of the United States, that we entered upon our labors with full confidence of the future. Our success has since been beyond our most sanguine expectation, as our weekly receipts overbalance those of any cotemporary paper. Our list has continued to swell up, with unexampled rapidity, and we have the confi dence, that at the present rate of increase, we shall be enabled in a few months to boast of more than 5,000 subscribers! When we commenced our abors, we sancunced distinctly, that the tone of the paper should be decidedly moral, and that nothing hou d be admitted into our columns, which the most fastidious father could disapprove of, and determ ned that as an approved Family Paper, it should not contain a paragraph, with the spirit of which a parent would not wish to have a daughter familiar, and we therefore, with this view, announced that no thenerical notices should appear in our columns, and that we should be opposed to theatres as things calculated to injure the healthy action of an honest mind,-as creative of exhibitions demralizing in tendency, and fearfully permicious in fact. There were not wanting blusterers, who made a great parade of opposition, and Croakers, who predicted our speedy downfall, but we threw

port, and we have been nobly sustained. We thought and expressed the opinion, that however careless many might be upon this subject, that few, even if they did not entirely disapprove of such entertainments, cared about having the gross details forever paraded before the eyes of their children, and the sickening and nauseating culogy of all kinds of characters made familiar to

ourselves upon the sober, rational and experienced

their minds. We determined also, that while the paper contral in politics, and that as news and literary nalists we had nothing to do with the matter; this determination has been strictly and rigidly adhered to, and while we shall continue to give our readers such public document as may be deemed of interest to all, and such a history of the progress of political events, as are strictly in keeping with our duty, and the character of the paper, we shall studiously and thoroughly avoid any contamination of

partizen politics. The paper is now printed in a new and beautiful type,-has received the praise of many editors of taste, as the handsomest family sheet in the Union.' Our efforts have been directed to the combining of beauty and simplicity with utility and taste.

The Post is printed on a stout white paper, rendering it neat and durable for filing.

In addition to these efforts toward perfection in the mechanical department, and exterior of our paper, no labor, and no cost been spared in the de velopement of intellectual strength. The present variety of interesting tales, original, from foreign and domestic magazines, together with the valuable contributions of our own circle of literary friends will continue to give interest to the paper, while everything important and worthy of note that happens in the Old World or the New, shall be

The Ladics' Department shall always be choice and select, and shall receive strict attention, while and that important and large class of our readers, the Farmer will not be overlooked. In order to gratify, as much as possible, the laudible desire of our country readers, a portion of our attention will be devoted to the collection and diffusion of such News, Memoranda, Tables, Facts, Hints, &c. as may seem important to agriculturists, and the population resident without the confines of our great cities. The state of the markets and the fluctuatious in the prices, will be regularly and what is of more moment, correctly given.

We have ever been opposed to the constant bluster and parade made by some editors, about that the Saturday Evening Post, shall be conducted, as to speak for itself,

Our readers will always find in its columns the earliest and most authentic information, es well as the most choice and entertaining literary matter. We have totally discarded the system of filling the paper with quack advertisements, but prefer giving r readers from week to week, entertaining reading matter.

And we feel assured that we shall be no losers thereby, as but few readers care about having a paper filled with descriptions of these nauseating compounds.

The Saturday Evening Post, will be furnished for \$2 per annum in advance, or one copy three years for \$5. To those who wish to subscribe for a Philadelphia Msgazine, we will furnish a copy of the Philadelphia Carket, and two copies of the Post for one year for \$5 free of postage and dis-

It will therefore be a fitting time to commence new subscriptions, as well as for the renewal of those

which may then expire. During the first year of the existence of the New World, it has acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscribers, during that period, (besides all the current news of the day, domestic and foreign) new and valuable works by Talfourd, D'Israelt, Thomas Moore, Miss Mitford, Mrs. Jameson, C. Dickens, Ainsworth, Knowles, Bulwer, Marryat, and others—works, which in London could not be purchased for fifty times the amount of the subscription price of the New World. In addition to works of interest by these eminent authors, it has contained the cream of the periodical literature of the day, as well as original articles from the pens of some of the most popular writers of America, among whom we may mention Misa Sedawick, Orville Dewey, Professor Longfellow, the author of "Yankee Notions," Simms,

Street, &c. &c. In politicks we shall, as hitherto, maintain an armed neutrality .- Our columns as heretofore will be unobjectionable in a moral point of view. In criticism we shall, in justice to the public, montain a perfect independence, even though we incur the vengence of all the dunces. We shall, in conclusion, earnestly strive to render our sheet not only worthy of the unparalleled favour it has experienced. but of a continually extending circulation. While we continue to furnish with all possible promtitude the most attractive liter ture of the day, we shall, as our means enlarge, afford that compensation to native authors, which may induce them to make the New World the medium for presenting to the public their best productions. Our excellent London correspondent will be continued, and due attention will be paid to the comercial, agricultural and news departments of our paper.

PROSPECTUS

OF THE

JOURNAL OF THE AMERICAN SILK SO CIETY, AND RURAL ECONOMIST. EDITED BY GIDEON B. SMITH.

THIS Journal was established by the America Silk Society, for the purpose of diffusing practic information on the CULTURE OF SILK in the Unite States. It has now been published one year, an

may be considered a work of standard character. The first year's publication, comprising the firvolume, containes a mass of valuable informatio and it will be the object of the editor to make the second equal in all respets, if not superior, the first. The important fact is now estal lished ! yond any question, that the people of the Unite States can make silk curagen and nevern the any other nation upon earth. It has been prove by unimpeachable testimony, that the entire co of producing silk ready for market, does not excee TWO DOLLARS AND TWENTY-PIVE CENTS PI FOUND, and its lowest value is FOUR DOLLARS AN FIFTY CENTS; also, that ONE ACRE of ground plan ed in morus multicaulis, will produce the first ye. the trees are planted, rounty-right rounds of SILK, leaving a clear profit to the producer of or HUNDRED AND EIGHT DOLLARS! It has also beproved that the children and females of any farmer family can, with the greatest possible ease, produthe excellence of their papers, and have resolved from fifty to a hundred pounds of silk every year without any cost whatever to the expenses of the farm after the trees are planted; and therefore, th the whole amount of silk will be so much clear gai say from \$225 to \$450. With these facts we su mit to an intelligent people wether it is not a gre and important object for them to introduce the cu ture of silk in every farmer's family in the Unio To enable all our farmers to make sick, the 'Jag NAL OF THE AMERICAN SILK SOCIETY' WAS OST. lished; it contains plain practical directions for cu TIVATING THE TREES, PERDING and REARING SIL wonnes, aereing the sitk, and preparing it ! market, &c. besides all other information that c be required to enable any person to enter upon business, either on a large or small scale. Eve friend of his country, into whose hands this pay may fall, will be doing a patriot and philanthropi work by inducing his friends and neighbours to c ter their names upon the list of subscribers.
