PRINCIPAL REASONS

Why Dr HARLICH'S Compound Strengthening and German Aperient Pills are used by all clasere of people, in preference to other Medicines, becauce they are prepared from a pure extract of Acres, a wholesome medicine, mild in its operation and pleasant in its effect—the most certain preserver of Lealth, a safe and effectual cure of Dyspepsia or Indigestion, and all stomach complaints, a preserver and purifier of the whole system.

Because they southe the nerves of sensibility and fortify the nerves of motion, imparting to their mest purgative medicine in existence. Because, they subtle fluid its pristine tone, thus giving strength and clearness of mind.

Because they never destroy the coats of the stomech and bowels, as all strong purgatives de. Because science and experience teach us that no mere purgative slone will cure the disease of the stomach and nerves. Weakness is the primary cause of a host of diseases, and, by continually re-

sorting to Drastic purgatives, you make the disease much worse, instead of better.

Because Dr. Harlich's Medicines are put up upon the common sense principle, to "cleame and strengthen," which is the only course to pursue to

ciliet a cure.- Lustly, Because these Medicines really do cure the dis ease for which they are recommended. Principal office for the United States, is at No. 19 North

CLEANSE AND STRENGTHEN. The only sure and hest course to pursue in curing diseases, of whatever nature they may be, is: first, to steenee and purify the Stemach and Bowels by gentle aperients; secondly, to give strength and tune to these tender organe by the use of proper tenies. This mode is always pursued by regular physicians, which they well know to be the only course to resort to, to effect a spendy and permanent cure. Dr Hentica's Compound Succeptaining Toole and Aperient Pills, are a sure menicine to effect this grand object. The German Aperient Pilis are to cleanse the stomach and intestines, after which the Compound Strengthening Penic Pills

thirds of the diseases which we daily behold, are discours of the nervous system, and by continually using grastic mineral purgatives the sufferer to remain long in existence. Full and explicit directions both in English and German, accompany

Works of Nature.

IN a state of health the intestinal canal may be ompared to a river whose waters flow over the adjoining land, through the channels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs on smoothly the channels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the canals is no longer pure. but soon becomes stagnant. There is but one law of circulation in nature. When there is a superabundance of humorial fluid (serocity) in the intestinal tubes, and costiveness takes place, it flows back into the blood vessels, and infiltrates itself into the circulation. To establish the free course of the river, we must remove the obstructions which stop its free course, and those of its tributary stream. With the body, follow the same natural principal; remove, by that valuable purgative medicine Bran-dreth's Universal Vegetable Pills, which are an effectual assistance of nature, the superabundance of humors in the intestine canal. By persevering in this practice, the ways of the circulation will then be restored to the full exercise of their natural functions, and a state of health will be firmly establish-Remember, never suffer a drop of blood to be taken from you - Evacuate the humors as often and no long as they are degenerated, or as long as

THE CAUSE OF DISEASE.

Nearly all classes of disease, are caused by some distruction in the system, which prevent the regufar and wholesome operation of the unimal fur tions. This state of the system, is disease, which is manifested in a variety of forms, more or less malignant in their character. To restore the system to a state of health, then, it is only necessary to remove the cause of disease, and the end is accomplished. The cause is obstruction somewhere. This can be removed by purgation, which is the only means that should be resoured to, because, suggested by reason, and by nature. Dr. Harlich's Strengthening and German Aperient Pills, are allowed by not only remove all obstructions, and purge the system of its impurities, but, because, and which is extremely important, strengthen and give proper tone to the stomach, and produce a healthy action of all the parts. Besides, they are so mild and gentle in their operation, as to render them at all times a perfeetly safe and desirable remedy. The afflicted would do well, then, to purchase a box or two of this invaluable medicine, and give it a fair trial, instead of destroying their systems with oft-repeated copy two years.

SICK HEADACHE.

Is a very common affection. Its attacks are very severe, and characterized by spasmodic pains, shift ing from one past of the head to the other, frequently commencing in the morning, attended with sickness of the stemuch, nauses, faintings, and cometimes, vomiting, giddiness, and confusion of sight, &ce &c. This desease is produced from various causes, perhaps the most common, is a derangement of the stomach and digestive organs. FEMALES are most subject to this affection, purticularly those who lead a undentary life. Dr. Har- polities, lich's Compound Strengthening Tonic and German Aperient Pills, are warranted to arrest this troublesome disease: first by cleansing the stomach and bowels, purifying the blood, and removing all diseased and excrementuous humors from the liver and intestines. By the use, first, of a few doses are used, to give surength and tone to those orof the Aperient German Pills, afterwards two or are used to strengthen and invigorate the nervous ystem, give tone to the stomach and organs of ligestion, thus imparting to their subtile fluid its pristine vigor, this ufflicting disease may be entirely removed. This is the only mode of treating this annoying complaint, and has been attended with success in thousands of cases,

THE Cultivator was established to improve and clevate the Agriculture of the country; to give a proper tone to the morals and mind of the Farmer; to show him the dignity and importance of his profession; to store his mind with useful knowledge, and convince him that while all classes are and must be more or less dependant on each other, he alone of the whole can make any near approach to independence. If there is one thing more than another, which in this country gives a man superiority over his fellow men, it is knowledge; and this knowledge,-knowledge which is as essential to the success of the farmer as to other men,-it is the design of the Cultivator to aid in imparting.

No expense has been or will be spared to render the Cultivator worthy of the patronage it has received. In the number, variety and excellence of its Illustrations, it is without a rival at home or abroad, the last volume being embellished with nearly One Hundred Engravings, illustrating the improved breeds of Horses, Catile, Sheep, Swine, Buildings, Implements. &c., making the Cultivator, all things considered, it is believed, the Cheapest Agricultural Paper ever published in this or any other country.

THE LARGEST, CHEAPEST, HANDSOM-EST, AND MOST COMPREHENSIVE NEWSPAPER IN THE UNITED STATES.

EDITED BY PABE BENJAMIN AND EPES SARGENT

ITH multiplied resources for rendering the New Wonen more valuable than ever as a compendious newspaper and repository of elegant literature, we enter upon the second volume (folio) on the 24th of October, dressed in a beautiful garb of new type, cast expressly for the purpose. It will therefore be a fitting time to commence new subscriptions, as well as for the renewal of those which may then expire.

During the first year of the existance of the New Wonen, it has acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscribers, during that period, (besides all the current news of the day, domestic and foreign) new and valuable works by Talfourd, D'Israeli, Thomas Moore, Miss Mitford, Mrs. Jameson, C. Dickens, Ainsworth, Knowles, Bulwer, Marryat, and others-works, which in London could not be purchased for fifty times the amount of the subscription price of the New World. In addition to works of interest by these eminent authors, it has contained the cream of the periodical literature of the day, as well as original articles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedgwick, Orville Dewey, Professor Longfellow, the author of "Yankee Notions," Simms, Street, &c. &c.

In politicks we shall, as hitherto, maintain an armed neutrality.-Our columns as heretofore will be unobjectionable in a moral point of view. In criticism we shall, in justice to the public, mantain a perfect independence, even though we incur the vengence of all the dunces. We shall, in conclusion, earnestly strive to render our sheet not only worthy of the unparalleled layour it has experienced, but of a continually extending circulation. While we continue to furnish with all possible promtitude the most attractive liter-ture of the day, we shall, as our means enlarge, afford that compensation to native authors, which may induce them to make the New World the medium for presenting to the public their best productions. Our excellent London correspondent will be continued, and due atbeen beyond our most sanguine expectation, as our tention will be paid to the comercial, agricultural and news departments of our paper.
