The Control of the Co

THE success which has attended the use of Dr Starlich's German Aperient and Compound strongthening Tonic Pills, is truly astonishing. It to no vain boast to say this medicine has proved by to which the human frame is liable, to be vastly suprofer to the many preparations before the public. Many of these preparations are compounded by individuals who are positively ignorant of the mystees of the human system, and mero pretenders to succioul knowledge. Dr. Harlich, however, is celeas used among the German faculty as a man of the eighest scientific attainments, and equally distingrashed throughout Europe, as a successful medical cactuloner, spent most of the years of a useful life on the against on of such knowledge as might prove beneficial to his fellow creatures. In the pills which the invented, and which bear his name, the public are assured of an article that possesses more than ordinary virtues. From the acknowledged talents of this inventor, nothing less than a good article could be expected; and the experience of many years has affected demonstration of the virtues of his medicine. In Germany and other parts of Euope, its r putation is established. In this country acto which it has but been recently introduced, it is supidly gaining the most substantial reputation. The sumerous cut ficates of cures of the most obsticate discusses effected by the use of Harlich's Pills, which the proprietor is constantly receiving, is proof of the fact. Bay after day he receives new testimontals of their officery, and week after week increases the demand for them. This is not mere assertion; in- umerable pertiheates are open for the inspection of me public and the doubts of any who are skeptical, in to temoved by examining them at the office of

GRANAM'S MAGAZERE. AND THE Ladies' and Gentlemen's World of Literature and Fashion.

(The Casket and the Gentleman's United.)

A NEW Volume, under the above title, of the well established and fashismable Magazine, The Philadelphia Casket in conjunction with the Gen leman's Magazine, which has been every where pronounced the most readable and popular of the day, will be opened on the First of January, 1841, of talent and fame, which no periodical in the country can boast or pretend to rival. The December number will, however, be a spicimen of the new volume. The Volume will be opened with a new and beautiful type, the finest white paper, and with the first of a series of embellisaments unsurpassed by any which have yet appeared in any Magazine, The style of elegance, the beauty and finish of these idustrations, and the extensive improvements which will be made in its typographical appearance, and above all, the tone of its literary department, by the bril iant array of contributors, whose articles have enriched the pages of each number, will give it character, second to no Magazine in the Union. The character of the articles which shall appear in its pages, will be equally removed from a suckly sentimentality; and from an effectation of morality, but while a true delineation of human nature in every variety of passion is aimed at, nothing shall be found in its pages to cause a blush upon the check of the most pure.

The Laterary character will be sufficiently guaranteed by the reputation of both Magazines thus united, for years post. Writers of the first rank have been regular Contributors to their pages, and the tales and sketches published in them have been wid by copied and read, and the firm and indepento the circulation. To establish the free course of dent tone of the criticisms, upon the current literatives, we must remove the districtions which there of the day, has been every who capproved and &c., making the Cultivator, all things considered, commended. HERE NEVEN TO CHEER, ED. THE LARGEST, CHEAPEST, HANDSOM. EST, AND MOST COMPREHENSIVE NEWSPAPER IN THE UNITED

STATES. EDITED BY PARK BENJAMIN AND EPER SARGENT

NEW WORLD more valuable than ever as compendious newspaper and repository of elegant literature, we enter upon the second volume (folio) on the 24th of October, dressed in a beautiful garb of new type, cast expressly for the purpose. It will therefore be a fitting time to commence new subscriptions, as well as for the renewal of those which may then expire.

During the first year of the existence of the New Works, it has acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscribers, during that period. (be-ides a 1 the current news of the day, lomestic and foreign) new and valuable works by Talfourd, D'Israeli, Thomas Moore, Mas Mutford, signed, for this undertaking, have induced them to spare to expense in getting up a paper which cannot full to be a welcome visitor into every man's Mrs. Jameson, C. Dickens, Ainsworth, Knowles, World. In addition to works of interest by these eminent authors, it has contained the cream of the periodical literature of the day, as well as original articles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedgwick, Orville Dewey, Professor Longfellow, the author of "Yankee Notions," Sunns Street, &c. &c.

In politicks we shall, as hitherto, maintain an armed neutrality .- Our columns as heretofors will be unobjectionable in a moral point of view. In cruteism we shall, in justice to the public, mantain a perfect independence, even though we mear the vengence of all the dances. We shall, in conclusion, carnestly strive to render our sheet not only worthly of the unparalleled layour it has experienced but of a continually extending circulation. While we consinue to furnish with all possible promittade the most stiractive liter ture of the day, we shall, as our means enlarge, afford that compensation to native aethors, which may induce them to in ke the New World the medium for presenting to this public their best productions. Our excellent London correspondent will be continued, and due altention will be paid to the comercial, agricultural and news departments of our paper.
