

**TO THE COMMUNITY.**  
THE success which has attended the use of Dr. Harlich's German Aperient and Compound Strengthening Tonic Pills, is truly astonishing. It is no vain boast to say this medicine has proved by its happy effects in the cure of a variety of diseases to which the human frame is liable, to be vastly superior to the many preparations before the public. It is the only one which is compounded by individuals who are positively ignorant of the mysteries of the human system, and mere pretenders to medical knowledge. Dr. Harlich, however, is celebrated among the German faculty as a man of the highest scientific attainments, and equally distinguished throughout Europe, as a successful medical practitioner, spent most of the years of a useful life in the acquisition of such knowledge as might prove beneficial to his fellow creatures. In the pills which he invented, and which bear his name, the public are assured of an article that possesses more than ordinary virtues. From the acknowledged talents of this inventor, nothing less than a good article could be expected; and the experience of many years has afforded demonstration of the virtues of his medicine. In Germany and other parts of Europe, its reputation is established. In this country into which it has been recently introduced, it is rapidly gaining the most substantial reputation. The numerous cures of the most obstinate diseases effected by the use of Harlich's Pills, which the proprietor is constantly receiving, is proof of their efficacy, and week after week increases the demand for them. It is not mere assertion; it is a verifiable fact, and open to the inspection of the public, and the doubts of any who are skeptical, can be removed by examining them at the office of the proprietor.

We take the liberty, then, of suggesting to every family, that they make use of Dr. Harlich's Pills. Let them keep a supply constantly on hand, to be used when occasion demands, and they will receive the most unequivocal proofs of utility.—*Medical Reviewer.*

**HEPATITIS, OR LIVER COMPLAINT.**  
Liver complaint is described to be of two forms, *Acute* and *Chronic*, which are different in their seat and character, and are produced from vicers on the Liver, which is diseased on the surface or in the centre. In the former, the patient is attacked with sudden pain in the region of the Liver, so severe that even the least exertion is insupportable; the patient cannot bear to turn or lay on his left side from the pressure exerted in that position of the inflamed organ. The latter may go on in such a manner that the first symptoms of Liver Complaint are those which mark the occurrence of suppuration. The acute and Sub-acute varieties, almost always commence with some chills, followed by heat of the skin, fevered tongue, having a yellowish appearance. Irregular state of the bowels, costiveness, constipation changes to a pale or citron color, or yellow like those afflicted with jaundice, difficulty of breathing, disturbed rest, attended with cough, feverish symptoms, a dry and parched skin, difficulty of lying on the right side, urine scanty and high colored, the patient passes many bad nights and is frequently troubled with Diarrhea, Tenesmus and Piles, nausea and vomiting, and has a considerable thirst. When the inflammation affects the peritoneal coat of the Liver the pain is much more intense and the fever higher than when confined to the Liver. In chronic affections it is uncertain in its termination; the pain is intense, attended occasionally with feverish symptoms, a dry and parched skin, irregular bowels, shallow countenance, frequent attacks of jaundice, the tongue is scarcely ever free from yellow fur, the appetite bad, and a corruption attacks the face and back, behind the shoulders, &c.

Dr. Harlich's Compound Strengthening Tonic and Aperient German Pills, will, in a majority of cases, produce a perfect cure, and if used at the very onset of affliction will in every case arrest the disease. This is not merely theory but fact, which can be substantiated by the testimonies of various persons who have witnessed the astonishing effects of this invaluable medicine. The diet must be attended to, and the warm bath must not be neglected when the patient can have access to it. Full and explicit directions are defined in the medical pamphlet which accompanies the medicine, and can be obtained gratis of any of the regularly appointed agents who sell this medicine.

Principal Office and Central Depot for the United States, is at No. 19 North Eighth Street, Philadelphia, where all communications for Agencies, Advertising and Medicines must be addressed (post paid) which will meet with immediate attention.

**PRINCIPAL REASONS**  
Why Dr. HARLICH'S Compound Strengthening and German Aperient Pills are used by all classes of people, in preference to other Medicines, because they are prepared from a pure extract of roots, a wholesome medicine, mild in its operation and pleasant in its effect—the most certain preserver of health, a safe and effectual cure of Dyspepsia or indigestion, and all stomach complaints, a preserver and purifier of the whole system.

Because they soothe the nerves of sensibility and fortify the nerves of motion, imparting to their most delicate fluid its pristine tone, thus giving strength and clearness of mind.

Because they never destroy the coats of the stomach and bowels, as all strong purgatives do.

Because science and experience teach us that no more purgative alone will cure the disease of the stomach and nerves. Weakness is the primary cause of a host of diseases, and, by continually resorting to drastic purgatives, you make the disease last longer, instead of curing it.

Because Dr. Harlich's Medicines are put up upon the common sense principle, to "cleanse and strengthen," which is the only course to pursue to effect a cure.—Lastly,

Because these Medicines really do cure the disease for which they are recommended. Principal Office for the United States, is at No. 19 North Eighth street, Philadelphia.

**CLEANSE AND STRENGTHEN.**  
The only cure and best course to pursue in chronic diseases, of whatever nature they may be, is to cleanse and purify the stomach and bowels, and to get the spirits; secondly, to give strength and tone to those tender organs by the use of purgatives. This mode is always pursued by regular physicians, which they well know to be the only course to resort to, to effect a speedy and permanent cure. Dr. Harlich's Compound Strengthening Tonic and Aperient Pills, are a sure medicine to effect this grand object. The German Aperient Pills to cleanse the stomach and intestines, and to which the Compound Strengthening Tonic Pills are added, to give strength and tone to those organs which require tender treatment. Nearly two-thirds of the diseases which we daily behold, are diseases of the nervous system, and by continuing such drastic mineral purgatives the sufferer will soon find himself a being too much refined to remain long in existence. Full and explicit directions both in English and German, accompany this notice.

**Works of Nature.**  
IN a state of health the intestinal canal may be compared to a river whose waters flow over the adjoining land, through the channels nature or art has made, and improves their qualities; and to keep up the comparison of the river, so long as it runs smoothly the channels are kept pure and healthy; but if by some cause the course of the river is stopped, then the water in the canals is no longer pure, but soon becomes stagnant. There is but one law of circulation in nature. When there is a superabundance of humoral fluid (serosity) in the intestinal tubes, and costiveness takes place, it flows back into the blood vessels, and infiltrates itself into the circulation. To establish the free course of the river, we must remove the obstructions which stop its free course, and the of its tributary streams. With the body, follow the same natural principle; remove, by that valuable purgative medicine *Brandreth's Universal Vegetable Pills*, which are an effectual assistance of nature, the superabundance of humors in the intestine canal. By persevering in this practice, the ways of the circulation will then be restored to the full exercise of their natural functions, and a state of health will be firmly established. Remember, never suffer a drop of blood to be taken from you—Evacuate the humors as often and as long as they are degenerated, or as long as you are sick.

**LIVER COMPLAINT,**  
Cured by the use of Dr. HARLICH'S COMPOUND STRENGTHENING AND APERIENT PILLS.  
Mr. WILLIAM RICHARDS, Pittsburgh, Pa., cured of the above distressing disease: His symptoms were, pain and weight in the left side, loss of appetite, vomiting, acid eructations, distention of the stomach, sick headache, furred tongue, constipation changed to a citron color, difficulty of breathing, disturbed rest, attended with a cough, great debility, with other symptoms indicating great derangement of the functions of the liver. Mr. RICHARDS had the advice of several physicians, but received no relief, until using Dr. HARLICH'S Medicine, which terminated in effecting a perfect cure.

**THE CAUSE OF DISEASE.**  
Nearly all classes of disease, are caused by some obstruction in the system, which prevents the regular and wholesome operation of the animal functions. This state of the system, is disease, which is manifested in a variety of forms, more or less malignant in their character. To restore the system to a state of health, then, it is only necessary to remove the cause of disease, and the end is accomplished. The cause is obstruction somewhere. This can be removed by purgation, which is the only means that should be resorted to, because, suggested by reason, and by nature. Dr. Harlich's Strengthening and German Aperient Pills, are allowed by the thousands who have used them, to be the best purgative medicine in existence. Because, they not only remove all obstructions, and purge the system of its impurities, but, because, and which is extremely important, strengthen and give proper tone to the stomach, and produce a healthy action of all the parts. Besides, they are so mild and gentle in their operation, as to render them at all times a perfectly safe and desirable remedy. The afflicted would do well, then, to purchase a box or two of this invaluable medicine, and give it a fair trial, instead of destroying their systems with off-putted doses of calomel, and other drugs, so injurious to human life and happiness.

**SICK HEADACHE.**  
Is a very common affection. Its attacks are very severe, and characterized by spasmodic pains, shifting from one part of the head to the other, frequently commencing in the morning, attended with sickness of the stomach, nausea, faintings, and sometimes, vomiting, giddiness, and confusion of sight, &c. &c. This disease is produced from various causes, perhaps the most common, is a derangement of the stomach and digestive organs. FEMALES are most subject to this affection, particularly those who lead a sedentary life. Dr. Harlich's Compound Strengthening Tonic and German Aperient Pills, are warranted to arrest this troublesome disease: first by cleansing the stomach and bowels, purifying the blood, and removing all diseased and excrementitious humors from the liver and intestines. By the use, first, of a few doses of the *Aperient German Pills*, afterwards two or three doses of the *Strengthening Tonic Pills*, which are used to strengthen and invigorate the nervous system, give tone to the stomach and organs of digestion, thus imparting to their subtle fluid its pristine vigor, thus afflicting disease may be entirely removed. This is the only mode of treating this annoying complaint, and has been attended with success in thousands of cases.

**GRAHAM'S MAGAZINE,**  
AND THE  
**Ladies' and Gentlemen's World of Literature and Fashion.**  
(The Casket and the Gentleman's United.)

A NEW Volume, under the above title, of the well established and fashionable Magazine, The Philadelphia Casket in conjunction with the Gentleman's Magazine, which has been every where pronounced the most readable and popular of the day, will be opened on the First of January, 1841, with an array of Contributors secured by the union of talent and fame, which no periodical in the country can boast or pretend to rival. The December number will, however, be a specimen of the new volume. The Volume will be opened with a new and beautiful type, the finest white paper, and with the first of a series of embellishments unsurpassed by any which have yet appeared in any Magazine. The style of elegance, the beauty and finish of these illustrations, and the extensive improvements which will be made in its typographical appearance, and above all, the tone of its literary department, by the brilliant array of contributors, whose articles have enriched the pages of each number, will give it character, second to no Magazine in the Union. The character of the articles which shall appear in its pages, will be equally removed from a sickly sentimentality, and from an affectation of morality, but while a true delineation of human nature in every variety of passion is aimed at, nothing shall be found in its pages to cause a blush upon the cheek of the most pure.

The Literary character will be sufficiently guaranteed by the reputation of both Magazines thus united, for years past. Writers of the first rank have been regular Contributors to their pages, and the tales and sketches published in them have been widely copied and read, and the firm and independent tone of the criticisms, upon the current literature of the day, has been every where approved and commended. The list of contributors embraces the names of most of the principal writers in America, with a respectable number of English authors.

The series of well known nautical papers, entitled "Cruising in the last War," have had a run, unequalled by any series published in any Magazine for years.—The author promises to open the first of a new series of Tales of the Sea, and from his known abilities as a depicter of sea scenes and life, much may be relied upon from him in maintaining the popularity of the Magazine Papers may be expected during the volume, also from the author of the well known articles, entitled "The Log of Old Ironside." The author of "Sylvan Letters," will also lend his powerful and grateful pen, to sustain and increase the reputation of the work.—The valuable aid of the author of "Leaves from a Lawyer's Port Folio," has also been secured, and we may expect something still more thrilling from the capacious stores which a long life in the profession has enabled him to amass. An occasional *Chit-Chat* with "Jimmy Short," and "Oliver Calfellow," is also promised; with variety of choice articles in prose and verse, from various writers of celebrity, as contributors to the prominent Magazines of the country. The editors of both Magazines continue their services under the new arrangement. With such an array of talent a Magazine of unrivalled attractions, may safely be promised the coming volume.

**FASHIONS AND ENGRAVINGS.**  
In connection with the almost unanimous wish of our lady subscribers, we shall the ensuing volume furnish them with a beautiful and correct plate of Fashions Monthly, a feature, it is believed, that will neither be unwelcome nor unpopular. The Fashion plates shall be drawn from original designs from Paris and London, and may always be depended upon as the prevailing style in Philadelphia and New York, for the month in which they are issued.

**Time of publication.**—The work will be published on the first of the month in every quarter of the Union. The most distant subscriber will consequently receive it on that day, as well as those who reside in Philadelphia. In all the principal cities, agents have been established, to whom the Magazine is forwarded, prior to the time of issuing it, so that they may be delivered to resident subscribers, by the first of the month.

**TERMS.**—Three Dollars per annum. Or two copies yearly for five dollars, invariably in advance, post paid. No new subscriber received without the money, or the name of a responsible agent. For the accommodation of those who may wish to subscribe for either of the following Philadelphia periodicals, this liberal proposal is made: Five dollars current money, free of postage, will forward Graham's Magazine, and Godey's Lady's Book, for one year. Address, post paid,  
GEO. R. GRAHAM,  
South West corner of Chestnut & Third Sts. Phila.

**The Brother Jonathan.**  
THE largest and most beautiful newspaper in the world—larger by fifty square inches than any other newspaper in the United States. Published Saturdays, at 162 Nassau street, New York. Price three dollars a year—two copies for five dollars.

Proprietors of this mammoth sheet—the "Great Western" among the newspapers—have the pleasure of reading before the reading public a weekly periodical containing a greater amount and variety of useful and interesting miscellany, than is to be found in any similar publication in the world.

Each number of the paper contains as large an amount of reading matter as is found in volumes of ordinary duodecimo, which cost \$2—and more than is contained in a volume of Irving's *Columbus* or Bancroft's *History of America*, which cost \$3 a volume—and all for Three Dollars a year. For \$5 two copies will be forwarded one year, or one copy two years.

Since the publication of our original prospectus, the Brother Jonathan has been ENLARGED and its size, amply before, has been so much increased, that more than the former quantity of the most interesting literature of the day is embraced in its immense capacity. Selections from all the most prominent and celebrated writers of the day assist in swelling its content; and whatever is new, rich, or rare, is immediately transferred to its columns. All the contributions to periodicals of American writers of repute appear in its pages; and the issues of the foreign press are laid under contributions, as soon as received in this country. To the miscellaneous and Literary Department, the closest attention is paid; and in all the selections and original contributions, strict care is devoted to avoid all that may touch upon the opinions of any party in religion or politics.

Experience having taught us that we had marked out a path for ourselves, in which all sorts of people delight to follow, the Brother Jonathan shall continue, as it began, to be a bold, genteel, weighty, light, grave, merry, serious, witty, sensible, dashing, interesting, inspired, and incomparable newspaper. It shall be a stupendous mirror where in all the world will stand reflected. It shall contain the most beautiful of Novels, Romances, and Stories for both sexes—Fairy Tales for lovers of the marvellous—Legends for antiquaries—Psalms for wit mongers—Nuts and raisins for short-winded readers—Sermones for musical lovers—Sentiments for politicians—and Lectures, Sermons, Criticisms, Epigrams, &c. &c. for all the world. Letters should be addressed to  
WILSON & COMPANY,

**THE CULTIVATOR,**  
A Consolidation of *Bull's Cultivator* and the *Genesee Farmer.*  
WILLIS GAYLORD AND LUTHER TUCKER, EDITORS.

**Prospectus of Vol. 8, for 1841.**  
THE Cultivator was established to improve and elevate the Agriculture of the country; to give a proper tone to the morals and mind of the Farmer; to show him the dignity and importance of his profession; to store his mind with useful knowledge, and convince him that while all classes are and must be more or less dependent on each other, he alone of the whole can make any near approach to independence. If there is one thing more than another, which in this country gives a man superiority over his fellow men, it is knowledge; and this knowledge—knowledge which is as essential to the success of the farmer as to other men,—it is the design of the Cultivator to aid in imparting.

Original Communications, embracing articles from about 300 Correspondents, from almost every state in the Union.

If an increase of subscription beyond any precedent in the history of Agricultural Journals,—if the almost unanimous voice of the public press in our favor,—if the multitude of private yet flattering testimonials we have received, added to a circulation amounting the first year to TWENTY-TWO THOUSAND, may be admitted as evidence, then we have certainly most abundant reason to be gratified with the success which has attended the Union of the Cultivator and the Genesee Farmer. No expense has been or will be spared to render the Cultivator worthy of the patronage it has received. In the number, variety and excellence of its Illustrations, it is without a rival at home or abroad, the last volume being embellished with nearly One Hundred Engravings, illustrating the improved breeds of Horses, Cattle, Sheep, Swine, Buildings, Implements, &c., making the Cultivator, all things considered, it is believed, the Cheapest Agricultural Paper ever published in this or any other country.

TERMS.—One Dollar per annum.—Six copies for \$5—the money to be remitted in advance, free of postage. A commission of 20 per cent. will be allowed to Agents who obtain 25 or more subscribers, and 25 per cent. to those who obtain 100 or more. All subscriptions to commence with a volume.

Postmasters and gentlemen desirous to lend their influence to aid the cause of Agriculture, are respectfully requested to act as agents. Address  
JESSE BUEL & CO.,

**ASTONISHING INCREASE.**  
FOUR THOUSAND NEW SUBSCRIBERS IN TWO MONTHS!!!  
When we first purchased the old and well known establishment of the  
**Saturday Evening Post,** we stated that the paper circulated so widely among the steady reading portion of the United States, that we entered upon our labors with full confidence of the future. Our success has since been beyond our most sanguine expectation, as our weekly receipts overbalance those of any contemporary paper. Our list has continued to swell up, with unexampled rapidity, and we have the confidence, that at the present rate of increase, we shall be enabled in a few months to boast of more than 35,000 subscribers! When we commenced our labors, we announced distinctly, that the tone of the paper should be decidedly moral, and that nothing should be admitted into our columns, which the most fastidious father could disapprove of, and determined that as an approved Family Paper, it should not contain a paragraph, with the spirit of which a parent would not wish to have a daughter familiar, and we therefore, with this view, announced that no theatrical notices should appear in our columns, and that we should be opposed to theatres of such entertainments, careful about having the gross details forever paraded before the eyes of their children, and the sickening and nauseating eulogy of all kinds of characters made familiar to their minds.

We determined also, that while the paper continued under our control, it should be strictly neutral in politics, and that as news and literary journals had nothing to do with the matter; this determination has been strictly and rigidly adhered to, and while we shall continue to give our readers such public documents as may be deemed of interest to all, and such a history of the progress of political events, as are strictly in keeping with our duty, and the character of the paper, we shall studiously and thoroughly avoid any contamination of partisan politics.

The paper is now printed in a new and beautiful type,—has received the praise of many editors of taste, as the handsomest family sheet in the Union.

Our efforts have been directed to the combining of beauty and simplicity with utility and taste.

The Post is printed on a stout white paper, rendering it neat and durable for filing.

In addition to these efforts toward perfection in the mechanical department, and exterior of our paper, no labor, and no cost being spared in the development of intellectual strength. The present variety of interesting tales, original, from foreign and domestic magazines, together with the valuable contributions of our own circle of literary friends will continue to give interest to the paper, while everything important and worthy of note that happens in the Old World or the New, shall be collected and collated for the taste of our readers.

The Ladies' Department shall always be choice and select, and shall receive strict attention, while such things as may interest our juvenile readers, and that important and large class of our readers, the Farmer will not be overlooked. In order to gratify, as much as possible, the laudable desire of our country readers, a portion of our attention will be devoted to the collection and diffusion of such News, Memoranda, Tables, Facts, Hints, &c. as may seem important to agriculturists, and the population resident without the confines of our great cities. The state of the markets and the fluctuations in the prices, will be regularly and what is of more moment, correctly given.

We have ever been opposed to the constant bluster and parade made by some editors, about the excellence of their papers, and have resolved that the Saturday Evening Post, shall be conducted, as to speak for itself.

Our readers will always find in its columns the earliest and most authentic information, as well as the most choice and entertaining literary matter. We have totally discarded the system of filling the paper with quick advertisements, but prefer giving our readers from week to week, entertaining reading matter.

And we feel assured that we shall be no losers thereby, as but few readers care about having a paper filled with descriptions of these nauseating compounds.

The Saturday Evening Post, will be furnished for \$2 per annum in advance, or one copy three years for \$5. To those who wish to subscribe for a Philadelphia Magazine, we will furnish a copy of the Philadelphia Casket, and two copies of the Post for one year for \$5 free of postage and discount.

No New Subscriber received without the Money.

To those who wish to subscribe, we would say, that the safest plan is to enclose the money in a letter and direct to us. Most postmasters will frank their letters if relating to nothing but the business of the office, and all postmasters who will be kind enough so to do, we shall be pleased to acknowledge as agents.

WITH multiplied resources for rendering the New World more valuable than ever as a compendious newspaper and repository of elegant literature, we enter upon the second volume (folio) on the 24th of October, dressed in a beautiful garb of new type, cast expressly for the purpose. It will therefore be a fitting time to commence new subscriptions, as well as for the renewal of those which may then expire.

During the first year of the existence of the New World, it has acquired a reputation and circulation superior to any weekly paper in the country; and has furnished to its subscribers, during that period, (besides all the current news of the day, domestic and foreign) new and valuable works by Talford, D'Israeli, Thomas Moore, Miss Mitford, Mrs. Jameson, C. Dickens, Ainsworth, Knowles, Bulwer, Marryat, and others—works, which in London could not be purchased for fifty times the amount of the subscription price of the New World. In addition to works of interest by these eminent authors, it has contained the cream of the periodical literature of the day, as well as original articles from the pens of some of the most popular writers of America, among whom we may mention Miss Sedgwick, Orville Dewey, Professor Longfellow, the author of "Yankee Notions," Sumner, Street, &c. &c.

In politics we shall, as hitherto, maintain an armed neutrality.—Our columns as heretofore will be unobjectionable in a moral point of view. In criticism we shall, in justice to the public, maintain a perfect independence, even though we incur the "reproach of all the dunces." We shall, in conclusion, earnestly strive to render our sheet not only worthy of the unparalleled favour it has experienced, but of a continually extending circulation. While we continue to furnish with all possible promptitude the most attractive literature of the day, we shall, as our means enlarge, afford that compensation to native authors, which may induce them to make the New World the medium for presenting to the public their best productions. Our excellent London correspondent will be continued, and due attention will be paid to the commercial, agricultural and news departments of our paper.

**PROSPECTUS**  
OF THE  
**JOURNAL OF THE AMERICAN SILK SOCIETY, AND RURAL ECONOMIST.**  
EDITED BY GIBSON B. SMITH.  
THIS Journal was established by the American Silk Society, for the purpose of diffusing practical information on the culture of silk in the United States. It has now been published one year, and may be considered a work of standard character.

The first year's publication, comprising the five volumes, contains a mass of valuable information, and it will be the object of the editor to meet the second equal in all respects, if not superior, the first. The important fact is now established beyond any question, that the people of the United States can make silk CHEAPER and BETTER than any other nation upon earth. It has been proved by unimpeachable testimony, that the entire crop of producing silk ready for market, does not exceed TWO DOLLARS AND TWENTY-FIVE CENTS A POUND, and its lowest value is FOUR DOLLARS A FIFTY CENTS; also, that ONE ACRE of ground planted in MORUS MULTICAULIS, will produce the first year the trees are planted, FORTY-FOUR POUNDS OF SILK, leaving a clear profit to the producer of HUNDRED AND EIGHT DOLLARS! It has also been proved that the children and females of every farm family can, with the greatest possible ease, produce from fifty to a hundred pounds of silk every year without any cost whatever to the expenses of farm after the trees are planted; and therefore, the whole amount of silk will be so much clear gain from \$25 to \$450. With these facts we find that an intelligent people whether it is not a great and important object for them to introduce the culture of silk in every farmer's family in the Union. To enable all our farmers to make silk, the Journal OF THE AMERICAN SILK SOCIETY was established; it contains plain practical directions for CULTIVATING THE TREES, FEEDING AND REARING THE WORMS, REELING THE SILK, and preparing it for market, &c. besides all other information that is required to enable any person to enter upon business, either on a large or small scale. A friend of his country, into whose hands this paper may fall, will be doing a patriotic and philanthropic work by inducing his friends and neighbors to enter their names upon the list of subscribers.

The Journal of the American Silk Society is published monthly, in pamphlet form; each number contains thirty-two octavo pages, printed on new type, handsomely covered, with a printed colored cover.

TERMS.—Two dollars a year, or six copies ten dollars, always to be paid before the work sent. All subscriptions to begin with the first number of the year, and in no case will the work be sent to any subscriber longer than it shall have paid for.

New subscribers, who take the first second volume, will be charged only THREE DOLLARS for the two years.
