

From the Philadelphia Gazette.

FIVE DAYS LATER FROM ENGLAND.

The packet ship Shenandoah arrived at this port last evening bringing Liverpool dates to the 9th ult. The news by her is of little importance except from China, where a disposition is evinced on the part of the emperor to pursue the war...

The subject of the Corn Laws is still the cause of agitation throughout the kingdom. The overland Mail from China had arrived, bringing dates from Canton to the 19th, and Macao to the 20th of May.

A ship from England loaded with provisions for her expedition had sailed north direct to Chusan, knowing nothing of recent alterations, when her commander, Captain Sted, R. N., was seized and killed by the Mandarins.

All sale of British and other goods had ceased, and purchases of tea were to be made in hard cash. Great preparations were making by the Chinese, and great numbers of troops were flocking into Canton.

During the week five failures had occurred at Manchester, to the amount of £300,000.

From the N. Y. Herald of Sept. 29.

Highly Important from Yucatan and Mexico—Another Revolution in the latter Country.

Late last evening, we received some highly important intelligence from Yucatan and Mexico. That from Mexico is down to the 27th ult., and from Yucatan to the 1st inst.

Another revolution has broken out in Mexico, and Santa Ana is again in the ascendant.

On the 18th ult. Guadaluza, in Mexico, under the command of General Paredes, proclaimed for the abolition of the 16 per cent. duty, which had been recently levied by government, and in favor of a Congress to be elected by the people.

Mexico is destined to become a republic, like Yucatan.

The news of this outbreak reached Vera Cruz on the 24th ult., and Santa Ana immediately proclaimed in favor of the same measures. He despatched troops on the 25th to occupy the principal castles and forts between Vera Cruz and the city of Mexico.

On the 26th Vera Cruz also declared for the revolution, and then the train was almost complete for the overthrow of the Central Government. On the same afternoon Santa Ana, who had about 2,000 troops under his command, sent off a sufficient number to take possession of Perote, a castle which commands the communication between the city of Mexico and Vera Cruz.

Thus much for the new revolution in Mexico. It appears that that country has now its hands full of war.

On the 1st inst. the Congress of Yucatan met, and no doubt, declared that province entirely free, independent, and a distinct country from Mexico; as all the members of the Congress elected, belong to the party of separation.

Colonel Paraza was sent by the Yucatan government on the 25th ult. as commissioner to Texas, relative to the mutual defence of the two republics against the fleet which Mexico is now preparing for the blockade of their coast.

Authentic From Florida.

Extract from a report from Col. Worth, commanding, dated September 13, at Ponta Rosas, which is opposite Tampa Bay on the bay into which the Coosawatchee river empties, Gulf side.

"I have the honor to report, for the information of the Major General commanding, that on the 11th instant, the 5th pointed day, three of the five messengers sent out from Peace Creek, as you were advised in my report No. 48, appeared at this point, with forty-six Indians of Hopitaki's band; two remained out to gather others, to whom I have added three. On the 24th instant I expect to add to the above number about one hundred and fifty, perhaps more.

A post will be re-established here, as convenient for the approach of Indians, and as an important point on the Gulf side, in the event of operations south. I shall return to Tampa in a few days, where it is hoped the Indians expected from Arkansas will have arrived, as their presence will greatly facilitate the collection of the Creeks and Tallahassee—from their position, objects of the greatest interest.

"The whole number of Hopitaki's people now in is sixty-two, including the chief, three sub-chiefs, and twenty-three warriors."

DEATH OF A GIANT—A respectable merchant named Lewis Cordius died a few days since at Milford, Pa. At the time of his decease, he was fifty-five years of age, six feet three inches in height and weighed six hundred and eighty-five pounds.

Arrest of the Great Forger.

We are happy to state that the individual who there is little reason to doubt committed the large forgeries on Messrs. Brown, Brothers & Co. and Mr. Edgar Corrie Jr. of this city, has been arrested. We learn that as far as the course of the forger is hitherto known, he commenced as an Abolitionist, and in that capacity introduced himself to Mr. Lewis Tappan, representing that he himself had liberated a number of slaves and had discovered a scheme for importing negroes into Texas, which he was anxious to expose and prevent, and for that purpose was on his way to England to communicate on the subject with the British Government.

On Saturday Mr. Lownds caused this Colonel Monroe Edwards to be arrested in Philadelphia and brought before a magistrate, by whom he was examined and committed to prison. On searching his lodgings the sum of forty four thousand dollars was found in bank notes and gold, and yesterday a messenger was despatched to the Governor at Albany, for a requisition on the Governor of Pennsylvania to deliver up the said Colonel to the officers of justice of this State.

We are informed that he is a most accomplished villain, remarkable for his gentlemanly appearance and manners, he had associated with some of our leading men here, in Philadelphia and in Washington. That he first arrived here with a letter of introduction from the President of the United States Branch Bank at Mobile, and that letters of introduction to persons of respectability, real or forged accompanied him wherever he went. A mulatto girl is the companion of his travels, who, when necessary to the accomplishment of his purposes assumed the male attire.

Division of Office.

The Clocian Chronicle has examined the list of high officers of the General Government appointed from the adoption of the constitution, and finds the result to be as follows:—Of the offices of President, Vice President, Secretaries of State, Treasury, War, and Navy, Judges of the Supreme Court, Post Masters General, and Attorneys General, their distribution among the States has been as follows, viz: including the recent administration of General Harrison.

Table with 2 columns: State and Number of Offices. Includes Massachusetts (23), Virginia (23), New York (12), Pennsylvania (9), Maryland (13), South Carolina (6), Georgia (6), Delaware (3), Connecticut (4), New Jersey (4), North Carolina (4), New Hampshire (2), Kentucky (6), Tennessee (6), Ohio (6), Louisiana (1), Alabama (1), Michigan (1).

It appears then that of the old thirteen States, R. Island has not been honored with a single important appointment; and that from the State of Maine, Vermont, Indiana, Illinois, Missouri, Arkansas, and Mississippi none has been made.

RAIL ROAD JACK.—The Baltimore American of Saturday says:—The ship European, which arrived here on Thursday from Wales, brought a cargo of eight hundred tons of rail road iron, for the Baltimore and Ohio Railroad Company.

DRIVING NAILS INTO HARD WOOD.—We have lately seen another experiment of driving nails into hard seasoned timber, fairly tried.—The first two nails, after passing through a pine board, entered about one inch, and then doubled down under the hammer; but on dipping the points of the other six or eight nails into lard, every one was driven home without the least difficulty.

CARPENTERS, who are engaged in repairing old buildings, sometimes carry a small lump of lard or tallow for this purpose on one of their boots or shoes.—New Geneva Farmer.

John Church and Aaron Manning were tried and convicted at the late term of the criminal court of the U. S., on an indictment for trading in exchange and money brokers, without license. The fine is \$5,000 dollars each.

Saturday, October 9, 1841.

Democratic Candidates.

FOR GOVERNOR, Gen. DAVID R. PORTER.

FOR ASSEMBLY, David B. Montgomery.

FOR COMMISSIONER, Philip Weiser.

FOR TREASURER, George Weiser.

FOR AUDITOR, Hugh M. Davison.

Whig Candidates.

For Governor, JOHN BANKS.

For Assembly, GEN. HENRY FRICK.

For Commissioner, DAVID McWILLIAMS.

For Treasurer, PETER LAZARUS.

For Auditor, JACOB PAINTER.

We have received a new paper published by John S. Ingram, at Minersville, entitled the "Coal Regionist and Schuylkill county Public Advertiser. Mr. Ingram's editorial abilities are well known, and his new paper gives additional evidence of his capacity to cater for the public, as well as to superintend the typographical department.

The trial of McLeod was commenced at Utica on Monday last. We have not yet received any account of the proceedings of the trial, but will give full details next week.

Northumberland County.

The population of this county, according to the late census, is 20,427, being an increase of 10 4/10 per cent. since 1830. The increase from 1820 to '30 was 18 per cent.

A Correction.

From our paragraph last week, stating that there were now no volunteer candidates before the people of this county, it might be inferred that George U. Weiker, Esq. had not been a candidate against the regular ticket. This is not the fact, and we did not intend any such inference.

Secretary of War.

The Hon. John C. Spencer has been appointed Secretary of War, by the President, Judge McLean having declined to accept the office. Mr. Spencer is now Secretary of State of New York.

To the Polls! To the Polls!!

This is the battle cry that has often led the Democracy of Pennsylvania to glorious victory. The democrats of this county have always responded promptly and freely to the summons. Three years ago they marshalled in their strength, and gave our tried and faithful Democratic Governor, David R. Porter, a triumphant majority. They can, and we trust will do so again. The triumph of Democracy is certain, if democrats do their duty.

Look to your Tickets.

For we believe that it is intended to perpetrate a fraud upon the voters of this county by the circulation of spurious tickets. Harry Frick is an old stager and up to tricks. Let every democrat then examine his tickets, and compare them with the names of our candidates published at the head of this paper. Let the whole ticket be put up at some conspicuous places near the polls, so that none may be deceived.

David B. Montgomery.

The election of this gentleman, the regular Democratic candidate, as well as the whole Democratic ticket, is certain. Gen. Frick, however, does not intend to give up the contest without an effort. He has been riding through this part of the county for several days. The great obstacle to the General's election unfortunately is, that he is too well known already to the voters of this county. His description of the Democratic party after having been twice elected to office by it—his determined and persevering opposition to Democratic principles, and his four-month slander of Gov. Porter, having frequently in the public streets and bar rooms proclaimed him a d—d perjured villain, render him peculiarly obnoxious to the Democratic party. We can scarcely believe that any democrat in the county will be so recent to his principles and his party as to vote for him. He is a Bank Director too, and now, when the Banks have obtained a five years' suspension, and may wait five years more, is not the time to send such men to the legislature.

Things to be Remembered.

That during the Federal administration of Joseph Ritner, the state debt was increased upwards of ELEVEN MILLIONS OF DOLLARS.

That in addition to this he squandered SIX MILLIONS of dollars, received as the price of Bank bonuses, and from the United States out of the surplus revenue.

Let the farmer, the mechanic and the hardworking man bear in mind that he is taxed to pay the interest on money thrown away by this Federal administration.

Let the people remember that the same administration wasted upwards of a MILLION of dollars on Stevens's Gettysburg railroad, and that John Banks has promised Stevens to finish the TAPEWORM, and thus waste THREE MILLIONS more.

Let them recollect that 331,000 dollars were expended on the Huntington breach, when good and responsible men offered to do the repairs for 150,000 dollars.

ONE HUNDRED AND FIFTY THOUSAND DOLLARS were drawn out of the people's pockets to pay the troops brought to Harrisburg by Stevens and his band of traitors, to defeat the elections and thrust men into the legislature who had never been elected.

And when the tax payer recalls to mind all these things, and the thousand other ways in which the public moneys were squandered, let him seriously ask himself whether he can assist in placing the destinies of the Keystone state again in the hands of the Federal party.

The Buckshot War.

When immediately after the election of 1838, Thomas H. Burrows, Ritner's Secretary of State, issued his proclamation calling upon his party to "TREAT THE ELECTION AS THOUGH IT NEVER TOOK PLACE," it was looked upon as a mere idle bravado. And when the Federal press infamously proclaimed that if Gen. Porter was inaugurated on the 4th of March, 1839, "HE WOULD HAVE TO WALK THROUGH THE STREETS IN BLOOD," orderly and peace-loving citizens, though startled, could not believe that any set of men could be found in Pennsylvania, so utterly reckless and depraved, as to carry out such treasonable designs. But the event proved, that men who will resort to slander, fraud and perjury to carry an election, will trample upon the constitution of their country, and set the laws of the land at defiance to accomplish their sordid purposes.

Testimony taken under oath before a committee of the House of Representatives, exhibited the astounding fact, that at a meeting composed of Thaddeus Stevens, Thomas H. Burrows, John Dickey, and other Federal leaders, which took place at the United States Hotel in Philadelphia in the fall of 1838, a plan was deliberately fixed upon to prevent the adoption of the new constitution, to defeat the election of David R. Porter and to continue Joseph Ritner in office.

This was to be accomplished by thrusting into the legislature men who had not been elected, and thus obtain a majority in both Houses. Defeated in this first reasonable step by the discreet, firm and undaunted conduct of the Democratic members, Joseph Ritner called a THOUSAND troops from the Federal city of Philadelphia, armed with BUCKSHOT and BALL, who surrounded the capitol for the purpose of overawing this little band of patriots, and compelling them to submit to their infamous measures.

It was then the spirit of liberty which warmed the heart and nerved the arm of our immortal ancestors was kindled afresh in the hearts of their descendants. The sons of freedom rallied around their representatives, prompt and ready to defend the institutions of their country from the threatened danger. One universal burst of abhorrence of the treason and detestation of the traitors was heard throughout our wide extended commonwealth, and echoed back again from her sister states. The conspirators shrunk abashed at the storm of virtuous indignation, and like the guilty, "died when no man pursued." The country was saved from imminent danger of civil war, the constitution preserved inviolate and the peaceful supremacy of the laws secured.

Is this a fiction of a fanciful imagination? Would to heaven it were so! But no, it is a foul, damning blot upon the history of this Republic.

And now we ask every man who loves the institutions of his country, and desires to see the reign of peace and order continued, be he democrat or whig, whether he can conscientiously assist by his vote to place the men who are guilty of this treasonable conspiracy against the liberties and constitution of their country, again in power? are they willing to give the administration of the state with all its great and momentous interests into the hands of these men? John Banks is their candidate. Stevens, Burrows, and their conspirators are attempting to move Heaven and earth to secure his election. Think you they have no interest in that event? Will they receive no place, no power, no spoils, as a reward for their infamous labors?

Those who avail themselves of our labors under this head, should remember that strict honesty requires credit as well for a penny, as for a pound.

One of our composers, last week, made us say, that Thaddeus Stevens was on an electioneering tour to the northern part of the state. We hope we have caused no unnecessary alarm in the minds of our Whig friends in regard to their monument. Thaddeus is certainly ambitious of high places.

The fine wheat alluded to in our last, weighed 58 pounds instead of 68, as erroneously stated.

The big Salsice was navigated into port by the captain's wife, he having died when fifteen days out.

The Prince de Joinville left Baltimore on Wednesday for Washington. From thence he intends to make a tour throughout the West.

The skeleton of a great Leviathan, about 32 feet in length, is exhibited at the Masonic Hall, Philadelphia.

Upwards of two millions of dollars in specie have been shipped from New York to Europe within the last six weeks. While foreign exchanges continue at present rates, the shipment of specie will still go on.

James W. Locke, late principal of the Boston Farm School has been sentenced to four months imprisonment, for the cruel treatment of boys under his charge.

ded copies of records that never existed, attested by the seal of the office, prostituted by some infamous Federal officeholder to the base purpose of circulating a libel under the sanctity of his official seal, are sent to trusty friends in every county, to be used on the day of the election to deceive the people into the belief of falsehood. Hitherto the Democratic party have met and refuted these libels, but the floodgates of slander have been opened anew, and pour out such a torrent of defamation that time fails even to recount the false accusations, much less to refute them. Let the Democracy then treat them as they have heretofore, as infamous libels, and neither be deceived into the support of the Federalist John Banks, by false accounts or other base forgeries.

A Forgery.

The whig papers have been publishing a circular purporting to be signed by 400 democrats of Berks county, who had voted for Porter but declared their intention now to support Banks. All these men but 25! have published a letter declaring that their names were purloined, and their signatures forged with most dauntless and unblushing impudence, by the minions of Banks, Stevens & Co. Of the remaining 25, eighteen have been uniform Federalists. Look out for more pipelaying forgeries.

We extract the following from the "Yeoman," because it contains sound doctrine and good counsel. Although Mr. McKinney has withdrawn from the contest, the disorganizing clique in the forks may see in what estimation their conduct is held abroad, and profit in future by the lesson.

Northumberland County.

"We regret to perceive that our Democratic brethren in this hitherto staunch and unwavering county are frittering away their strength by local dissensions. Instead of cordially uniting upon one Representative candidate, and electing him too by a majority of more than a thousand, we find them dividing their forces upon two candidates, thereby opening the door for the probable success of a bitter Federalist, and endangering the domination of the Democratic party in the next legislature. If, in consequence of this local "split," the Pipe Layers should succeed in carrying a majority in the House of Representatives, and then give us another such an infamous Apportionment bill as they did in 1836—and resuscitate the corrupt Biddle Monster—what a sad reflection would it not be to any portion of the Democracy of Northumberland, to think that they had been foolishly instrumental in producing such disastrous consequences.

"The two democratic candidates in the field are DAVID B. MONTGOMERY, Esq. nominated by the Delegate convention, in the usual manner, and John McKinney, nominated subsequently by a mere local meeting. We have scanned the arguments advanced by both parties thoroughly, with a view of arriving at the truth, and cannot resist the conviction, that the nomination of Montgomery was effected fairly, in conformity with Democratic usages, and consequently should receive the support of every well-meaning Republican in the county. Whenever the legitimate tribunal of the party has fairly decided, it behooves every true Democrat to succumb to its arbitrament, also why the expense and trouble of electing and convening delegates, if their decision is to have no binding efficacy upon the party? All subsequent attempts to force different candidates upon the party, proceed invariably from selfish and disappointed men, and their uniform tendency is to aid the opposition in the consummation of their particular schemes.

We do hope, therefore, our republican friends in old Northumberland will perceive the necessity of uniting, one and all, upon D. B. MONTGOMERY, the regularly nominated candidate of the Democratic party, as every vote given to McKinney, subverts no other purpose than to aid in the election of Gen. Frick, whose temper and habits render him peculiarly obnoxious to the Democratic party. Even officers upon the Canal, we are credibly informed, have been actively engaged fomenting discord. These men should be instantly removed. It is their business to mend breeches, not create them.

"It is but seldom that we interfere in the local differences of our friends—but as the present is a plain case—and jeopardizes the preponderance of Democratic principles in the popular branch of the Legislature, thereby affecting not Northumberland county alone, BUT THE WHOLE STATE, we could not resist that sense of duty, which in every campaign induces us to the support of REGULAR DEMOCRATIC NOMINATIONS."

Editorial Miscellany.

Those who avail themselves of our labors under this head, should remember that strict honesty requires credit as well for a penny, as for a pound.

One of our composers, last week, made us say, that Thaddeus Stevens was on an electioneering tour to the northern part of the state. We hope we have caused no unnecessary alarm in the minds of our Whig friends in regard to their monument. Thaddeus is certainly ambitious of high places.

The fine wheat alluded to in our last, weighed 58 pounds instead of 68, as erroneously stated.

FOR THE AMERICAN.

The anti-bet paying candidate, Gen. Frick, on his late electioneering tour lost his tickets near Sunbury. Can some whig member of the Temperance Society explain how the accident happened? QUERE!

STILL MORE GLORIOUS NEWS!

Democracy Still Triumphant! We have already announced to our readers the glorious and unprecedented triumphs achieved at the recent elections by the Democrats of Indiana, Tennessee, Alabama, Vermont and Maine! The aggregate result in these states exhibits a net gain in the popular vote for the Democracy of upwards of FIFTY THOUSAND VOTES! The political history of the Union does not contain the record of so overwhelming a political REVOLUTION as has been achieved in the most of these states by the Democratic party!

The ball is however "still rolling!" The reaction in favor of ancient and well-tried Democracy is not, as many of the federalists had flattered themselves, a mere evanescent feeling, to subside as suddenly as it has been created. The "sober second thought" has worked a permanent cure in public sentiment, and Federalism is literally demolished. Every where—East and West, North and South—one republican VICTORY trends closely upon the heels of another—and the enemy is scattered as chaff before the rude blasts of the whirl-wind. In addition to all the previous grand and glorious intelligence, we hasten to spread before our readers three more!

Splendid Democratic Triumph!

Triumph No. 1.

(From the Indiana State Sentinel.) The late glorious achievement by the noble Democracy of Indiana left the Democrats a majority on one joint ballot; but there was a vacancy to fill in the Senate occasioned by the resignation of Senator in Marion county, the county at the seat of government. And as Marion county gave a Harrison majority last year of 257, the Federalists flushed with confidence. The result was with them, to tie the Legislature, between the parties but with the Democrats to secure their recent triumph by giving them A CLEAR MAJORITY! ON JOINT BALLOT!

The conflict was very animating indeed, and the cheering, soul-stirring result is the election of M. WEST, a sound Democrat and a worthy man, by TWO HUNDRED AND THIRTY ONE MAJORITY!! This is a Democratic gain in the county since last year of 588 votes! A thousand cheers for REVOLUTIONIZED INDIANA!

Triumph No. 2.

ANOTHER VOICE FROM MAINE!

A special election for four members of the Legislature, where there had been no choice, was held last week in the city of Portland. After an animated struggle, in which the Pipe Layers strained every nerve, the Democracy came off victorious by electing THREE of their candidates, by an average majority of 150. The fourth one wanted on four votes of an election, and as there is to be no other election, the Democrats feel confident in carrying him too on the next trial. Remember Democrats, that at the Presidential election HARRISON'S majority in Portland was 600!! THE REVOLUTION IS GOING FORWARD

Triumph No. 3.

A special election for a member of the Legislature of Louisiana was held recently in New Orleans, to supply the vacancy occasioned by the death of M. Barnow, (Whig.) Parties being nearly balanced in the legislature the contest was warm and animated. It resulted, however, in the choice of M. HARRISON (Democrat.) Harrison's majority is year was NINE HUNDRED AND THIRTY THREE!! The Picayune (a neutral paper) say "this result has nearly, if not quite, destroyed the Whig ascendancy in the legislature. Their majority on joint ballot is at best but one, and no probably nothing."

DEMOCRATIC GAINS

Table with 2 columns: State and Gains. Includes Alabama (6,000), Tennessee (9,000), Maine (12,000), Vermont (13,000), Indiana (15,000).

Showing a sum total of Democratic Gains in five states, since last year of 55,000

DEMOCRATS OF PENNSYLVANIA! it belongs you to KEEP THE BALL IN MOTION Turn out en masse on the second Tuesday October, and re-elect your patriotic and enlighten Governor, DAVID R. PORTER, and our nob State will once more resume her warranted station as the KEYSTONE of the Democratic Arch!

Keep it before the People.

That John BANKS, the federal nominee for Governor, was one of the satellites of the Ritner administration, appointed by Ritner to a Judgeship and of course must have APPROVED all the INFAMOUS acts of that most infamous administration.

That John BANKS is the protege of THADDEUS STEVENS and THOMAS H. BURROWS, the men who plotted the "BUCKSHOT WAR," and who solemnly endeavored to "treat the election as never had been held."

That Thaddeus Stevens, Thomas H. Burrow and Bela Badger, the heroes of the "BUCKSHOT WAR," were all delegates in the federal convention for nominating a governor, and voted for John BANKS on first ballot.

That if BANKS should be elected, he will, together with Stevens, use his influence for the resuscitation of the famous Gettysburg TAPEWORM which has already eaten up MILLIONS of the substance of the people of Pennsylvania.

You, who desire to re-instate the miserable co-conspirators of 1838, support John Banks. He their friend.

You who desire to keep that vile and wicked faction out of power, support DAVID R. PORTER. HE IS THEIR ENEMY.—Yeoman.
