Election News.

MAKE WAY FOR THE AVALANCH.—*Hurrah for Old Berks!*—The honest Germans of old Berks, the home of Judge Banks, who were to be gulled into *his Honor's* support, have given David R. Porter **4585** majority. Whiggies those Dutch are not as dumb as you took them to be.

SCHUYLKILL.—The yeomanry of Schuylkill have done their duty this time. A majority of **999** for Porter proves that they are still true to their old faith.

We give the following additional particulars, which render it pretty certain that our patriotic and faithful Governor David R. Porter is re-elected, by upwards of **10,000** majority:

The majorities are only given.

The Democrats have elected one member in Dauphin; also two senators in Cumberland, Adams and Franklin. Stevens is elected in Adams, by 110 of a majority.

Maryland.

The Democrats of Maryland have obtained a glorious victory. Thomas, the Democratic candidate for Gov. is elected by upwards of 1000 majority. The House of Delegates stand, Democrats 43, Whigs 39, being a democratic gain of 21 members since last fall.

Georgia.

The Democratic Governor has been elected in this state, by a very large majority; also a democratic majority in both branches of the Legislature.

Arrival of the Acadia.

The steamer Acadia of Cunard's line arrived at Boston on Tuesday of last week, with one hundred passengers. The most important items of news are the partial failure of the crops in England, and the attempt, on the 13th of Sept., to shoot the Duc d'Aumale, fourth son of Louis Phillippe, as he was entering Paris at the head of his regiment. Sir R. Peel, in the course of his exposition of the measures of government before the newly elected house of Commons, stated that the permanent measures of finance, which would be necessary for the nullization of revenue and expenditure, it was not the intention of Ministers in the present session to announce, and he must solicit a like interval for stating their intentions in regard to other measures of great importance, the duty of forming the new Administration had so occupied his time, that it had been impossible for him yet to mature his decisions. Lord John Russel replied by stating, that he heard with great regret it was not Sir Robert Peel's intention to bring forward any important measure in the present session; he thought, considering the time which had elapsed since the principal of the new pending questions had come under the public consideration, that Ministers ought to have been prepared with some proposals in connection with subjects of so much consequence to the country.

The advices respecting the harvest in England are not so unfavorable as was anticipated, the corn in the most part being well housed and free from danger; there will, it is said, be a deficiency of about one sixth or seventh of the usual average crop. The general state of trade in the manufacturing districts have slightly improved.

Mr. James Curtis, of Ohio, has been making speeches in several large towns in England, about the capability and willingness of America to supply England with corn. The people of Manchester have asked him to write home that the corn laws should be repealed.

Daniel O'Connell continues to attend the Repeal meetings in Ireland, and is very violent against the new Cabinet. He boasts of the aid he receives from America, and says that a large remittance from New York was expected soon.

The Manchester Guardian states that 27 persons were poisoned at Whitworth, by eating diseased meat, and one person had died.

FRANCE.—The most important news from Paris is that respecting the attempt to assassinate one of the Royal Family on the 12th ult. The French papers are occupied with little else of interest. It appears that the Duke d'Aumale, who had marched with the 17th Light Infantry through France from Marseilles, had just arrived in Paris, and while proceeding at the head of his regiment, together with his three brothers, the Dukes of Orleans, Nemours and Montpelier, an assassin named Pappard discharged a pistol at him, but fortunately the shot did not take effect. Pappard was instantly arrested. The greatest excitement prevailed in Paris.—Groups of loose characters paraded the streets, uttering seditious cries—"a bas Louis Phillippe—a bas Guizot—we must have blood," we heard. The crowds were dispersed without a riot taking place.—The Census had caused very disagreeable events in the south of France, where frightful disorders had taken place. The people fired on the military at Clermont in Avergne, killing and wounding several. The troops succeeded in putting the riot down. The disturbances in most places had nearly subsided by the last accounts.

SPAIN AND PORTUGAL.—Spain and Portugal are on the worst terms. Many fear that a war between them is inevitable. The Regent of Spain is well disposed for a rupture with Donna Maria.

GREECE.—The new Greek ministry is at an end. Mavrocordato, worn out by the obstacles thrown in the way by King Otho, has definitely resigned, and another cabinet had been formed. The affairs of Greece were daily becoming more complicated, and an insurrection against the Bavarian rule was anticipated.

AUSTRIA.—The Vienna correspondent of the London Marning Post states that the notes of Prince Metternich had procured the assent of France to the disarming of Europe. The reduction of the Austrian army is to take place in October, when it is said, the entire Landwehr will be dismissed.

EGYPT.—The Pacha, who was perfectly satisfied with the present position of affairs, was amusing himself in reading the Turkish translations of the correspondence relative to the affairs of the East, which he had received from London. He had caused one of his officers to be flogged to death in the very hall where he had promulgated the hatischeriff of Gulhane, shortly after his submission.

THE HARVEST.—The London Atlas says: "The harvest is now fairly ended in many of the southern counties, although in the north it is still exposed to danger. Undoubtedly the result turns out much better than was expected a month or six weeks ago, but still no one will deny that there will be a serious deficiency. From observation and inquiry in various quarters, we are inclined to think it will yield one sixth or one seventh less than an average crop; or, in other words, we may require two millions and a half or three millions of quarters of wheat from foreign countries, in addition to our domestic supplies, to feed the population of Great Britain until the autum of 1842."

BANK OF ENGLAND.—The meeting of the proprietors of the Bank of England has just closed, and the dividend declared is the same as that of the last, being 3½ per cent on the half year ending the 10th proximo. The affairs of the corporation appear to be progressing satisfactorily, as the dividend is made out of the profit, leaving a surplus of £7725 to be carried to the rest, which is now £2,862,066.

A Sad Picture.

The New York Sun gives the following as an extract of a letter dated,

UPPER CALIFONIA,
Monterey, June 26, 1841.

"Califonia is in a most wretched state; there has not been a drop of rain for over thirteen months, and all vegetation has in consequence ceased. On the whole coast there is not a month's supply of bread stuffs or vegetables of any description. No cattle will be killed this year, and of course all business in hides will be stopped. The distress will be dreadful.

GROWTH OF CINCINNATI.—By the recent publication of some statistical documents, in relation to this city, we learn that in 1800, its population was only 720. In 1820, it had increased to 9,602; in 1830 it was 24,831; it is now about 50,000. There are eleven hundred and thirty-five miles of canals, railroads and turnpikes concentrating on the city and connecting it with the interior country, to say nothing of the great national thoroughfare, the Ohio, which communicates with the whole west. Thirty-three steamboats were built at Cincinnati last year, with an aggregate tonnage of 5,361, and at a cost of $582,500.

ANOTHER REVOLUTIONARY SOLDIER GONE.—Joshua Lyon departed this life on Saturday, October 2nd, at Greenwich, Connecticut, in the 90th year of his age. He served as a drafted soldier for six years in the continental army. He was with General Washington at the evacuation of New York—carried forage at the battle of White Plains and during five years the continental guard was quartered at his house, during which time he furnished them with wood and provisions without compensation. For the last six or seven years he has received a pension from the government he labored with so much zeal and patriotism to establish and defend. For many years he has been the oldest inhabitant of the town in which he was born and died.—*Brother Jonathan.*

BALTIMORE MARKET.

Office of the BALTIMORE AMERICAN, Oct. 12.

FLOUR.—On Saturday sales of limited parcels of Howard street Flour of good standard brands were made from stores at $6. To-day holders are asking the same price, but buyers refuse to pay over $5,87. We are not advised of any sales at either price. In the present state of the market we are unable to quote a definite receipt price.

No sales of City Mills Flour—nominally held at $6,25.

Sales of very limited parcels of Susquehanna Flour at $6.12½—we quote $6 a $6,12½.

GRAIN.—The receipts of Wheat are extremely limited, and the small parcels at market to-day were sold at $1,18 a 1,28 for fair to strictly prime Md. There are no Pennsylvania Wheats at market.

Small sales of Corn at 64 a 65 cts. for white, and 61 a 63 cts for yellow.

Maryland Rye is worth 66 a 68 cts.

Small sales of Oats at 44 a 45 cts.

WHISKEY.—The market is extremely dull and prices declining. Limited sales of hhds. were made to-day at 23 cts. and of bbls. at 24 cts. The wagon price of bbls. is 21 cts. exclusive of the bbl.

PHILADELPHIA MARKET,

BICKNELL'S REPORTER, Oct. 12, 1841.

FLOUR AND MEAL.—The market is quiet; the demand moderate—supplies light, and the stock small. The ruling price of Superfine Flour of standard brands is $6,12½ and dull. Rye Flour $3,50, demand very limited. Pennsylvania Corn Meal in bbls. $3; hhds. $14 a 14 25; Brandywine Meal, prices nominal.

FLAXSEED.—Small sales have been made at 193 a 195 cents per bushel; the article is taken as it arrives.

GRAIN.—The receipts of most descriptions are comparatively light—the demand very moderate. Small sales of Pennsylvania Wheat have been made at 133 a 135, but this is not a fair quotation for large lots; Southern do. at 130 a 133. Corn is extremely dull, and prices declined. We cannot quote Penn'a over 60 a 62; Southern from 58 a 60 for white and yellow; Rye 62 a 65 cts., and Oats 44 cts. sales.

TO THE COMMUNITY.

THE success which has attended the use of *Dr. Harlich's German Aperient and Compound strengthening Tonic Pills*, is truly astonishing. It is no vain boast to say this medicine has proved by its happy effects in the cure of a variety of diseases to which the human frame is liable, to be vastly superior to the many preparations before the public. Many of these preparations are compounded by individuals who are positively ignorant of the mysteries of the human system, and mere pretenders to medical knowledge. Dr. Harlich, however, is celebrated among the German faculty as a man of the highest scientific attainments, and equally distinguished throughout Europe, as a successful medical practitioner, spent most of the years of a useful life in the aquisition of such knowledge as might prove beneficial to his fellow creatures. In the pills which he invented, and which bear his name, the public are assured of an article that possesses more than ordinary virtues. From the acknowledged talents of this inventor, nothing less than a good article could be expected; and the experience of many years has afforded demonstration of the virtues of his medicine. In Germany and other parts of Europe, its reputation is established. In this country into which it has but been recently introduced, it is rapidly gaining the most substantial reputation. The numerous certificates of cures of the most obstinate diseases effected by the use of Harlich's Pills, which the proprietor is constantly receiving, is proof of the fact. Day after day he receives new testimonials of their efficacy, and week after week increases the demand for them. This is not mere assertion; innumerable certificates are open for the inspection of the public, and the doubts of any who are skeptical, can be removed by examining them at the office of the proprietor.

We take the liberty, then, of suggesting to every family, that they make use of Dr. Harlich's Pills. Let them keep a supply constantly on hand, to be used when occasion demands and they will receive the most unequivocal proofs of utility.—*Medical Depot.*
