

VIA TIDE WATER CANAL TO PHILADELPHIA.—Messrs. Mackey and Chamberlin received their goods via Tide Water Canal from Philadelphia in two days. They were brought in a vessel towed by steam to Havre de Grace, and there put on board Capt. Swenk's boat, and arrived an above date,—showing the advantages of that route to our merchants, both for their produce, and for bringing their goods.—*Milenian*.

STEAM SHIPS.—We see, with much pleasure, that proposals are issued this morning for supplying timber to build a steam vessel for the United States in the Navy Yard at Southwark. The sound of the axe and the sledge, we trust, will not cease in that place for a long time. Let the old timber be launched and put out of the way, and in the timber and plank being ready for the frames, they may spring into existence in a short time.—*U. S. Gazette*.

SPARK CATCHER.—We learn that a new Spark burner has been tried upon one of the locomotives of the Columbia Rail Road within a day or two, and found to answer the purpose with entire satisfaction.—*Phil. Gazette*.

AN INCIDENT.—An incident of peculiar interest occurred during the burning of the Presbyterian Church in Oswego. The schooner Essex was owing to the darkness and snow of the night, was unable to discover the light house, and in all probability had been lost but for the light of the fire, which pointed her to the harbor, lighted her safely into port.—*N. Y. Sun*.

HOPITABLE RAIL ROAD.—The Rail road between Boston and Lowell, about 25 miles long, is one of the best in the country. The condition is stone, the rails of the most improved iron and the track a double one. An eastern road says that the net revenue of this road in '39, was \$149,068, which would give for the stern road (154 miles in length from Worcester to Albany) \$191,259 dividends per annum, even to 13½ per cent. If the Columbia road could be well, what a source of profit it would be to Pennsylvania.—*North American*.

CHANCERY.—The number of cases now in every Court of England, is thirteen thousand hundred, involving an amount of \$210,000,000, truly good sum that.—*Philad. U. S. Gaz.*

RARE RACE.—The inhabitants of the lower part of the city, were surprised on Wednesday afternoon, by a race through Christian and some of the principal streets, in which the competitors were a horse and a bull. Some gentleman's son had been exercising his master's horse in the Neck, and said horse was covered, all the legs, with a bright red cloth. The fire of horse had inflamed the bull, and he had given up; but the vigorous beast became exhausted, the nobler animal and his rider escaped.—*U. S. Gazette*.

HEAVY FALL OF SNOW.—The Laporte (Ind.) Whig of the 20th ultimo says: "Snow continued falling in this place on last Saturday, for first time this fall. Although a large amount fell as fast as it fell, it covered the earth to the h of several inches. Sixteen miles east of here as over two feet deep; and at Niles, Michigan, understood it was over three. It is supposed it would have been five feet deep at that place if the ground had not been frozen. The pressure upon the roofs of the houses was so great that several men were broken in by it."

EROS.—Prince Lubben was very fond of dogs, which animal he used to raise in great numbers. He could make them grow of large or small stature at his pleasure; and it is said of him his smaller breed were no larger than a goat rat. If he wished to stop the growth of aicular animal, he would feed it upon milk which had been boiled daisy roots; and after a few days add nitre to this preparation. He had a corresponding process to increase the growth of mice. At the time of his death he kept nearly Susan dogs.

London paper says the entire number of creatures occupied in dress making in this is 15,000."

letter from Rome states that the Jews of Anagni gave the Pope, during his visit to that city, a box with clasps mounted in diamonds.—*London Gazette*.

BALTIMORE MARKET.—For the BALTIMORE AMERICAN, Nov. 15. TITLE.—There were 380 head of Beef Cattle at the drove yards this morning, and all at \$3 50 for inferior to \$5 50 per 100 lbs. for quality. Considerable sales of Live Hogs made to packers on Saturday at \$3 37½ per lb.

TUESDAY.—We note an advance of 25 cents per lb. in the store price of Howard Street Flour Friday. Sales of some parcels of good standards were made on Saturday at \$6, and to-day further transactions have taken place at \$6 12½. These are now generally very far at \$6 25. The price is unsettled.

DEs.—800 lbs City Mills Flour to-day at \$6 25. Tuscarawas Flour is held at \$6 50—no sales, stock very small.

RAIN.—Supplies of Wheat came in sparingly, on Saturday and to-day at \$1 25 a \$1 35 for a prime Md. reds. A sale of Pennsylvania was made on Saturday at \$1 35.

leS.—Md. Corn at 63 cts. for yellow, and 63 for white. We quote new Corn at 53 a bushel, according to dryness. A cargo of Pennsylvania yellow was sold on Saturday at 61 cts. sale of a large lot of Md. Rye was made to-day at 68 cts. Pennsylvania Rye is wanted—was sold on Saturday at 74 cents.

deS.—Md. Oats at 41 a 42 cts., and of Penn's a 47 cents.

HISKEY.—There is a little better demand, sales to some extent were made to-day at 20 for blhs, and 21½ for bbls. The wagon price is 17 cents, exclusive of the barrel.

OBITUARY.

Died, on Tuesday the 2d instant, at Philadelphia, Miss ANN HALL, of this city, eldest daughter of the late Charles Hall, of Sunbury, Pa.

By the death of this lamented lady, this community has sustained a severe bereavement. Her excellency of heart, anxiety of manner, and unceasing deportment, was the regard of all who knew her; active in soothing the sorrows of the afflicted, and relieving the wants of the poor, she lived benevolently and closed her useful and well spent life, universally lamented. Of Miss Hall it may be truly said that she, plaus without pretension, and charitable without ostentation, as she labored fervently in the good work, has gone only to receive her reward.

Of the sorrows of the bereaved family we dare not speak, the darkness of their distress can only be illustrated by the radiant hope of meeting in those blessed mansions, where the pure in heart shall see God.

Lancaster Intell.

COAL TRADE.

Amount of Coal carried on the Danville and Pottsville Rail Road to Sunbury for shipping, during the week ending on Nov. 17, 194 Tons.

HEALTH.

IN ANY of our tales, no doubt, are possessed

of this all important blessing, which they may long retain, if particular regard and care be paid to them; but, that, whenever they feel the least indisposed, to procure a proper medicine in due season." But, on the contrary, we find that sands who are laboring under disease, and many, we fear, will prove serious, if not attended to early. Would those persons resort to the medicine that has established itself in thousands of cases, which is Dr. HARLICH'S COMPOUND STRENGTHENING AND GERMAN APERTIENT PILLS, so pre-eminent recommended for diseases incident to the human race, they would be replaced back again to their sweet blessing," which is health."

We speak from regular knowledge in many instances, where cures have been performed by the use of this medicine, with marked success, in various complaints, such as Drop-sy, Liver Complaints, Rheumatism, Pain in the Breast, Skin and Back Complaints, Nervous Weakness, Inflammation, General Debility, &c. &c. This medicine consists of two distinct kinds, viz.: THE GERMAN APERTIENT and the COMPOUND STRENGTHENING PILLS, the former to remove bile and all excretions from the body, thus cleansing and purifying the system, after which the latter are used to give strength and vigor to the weak and debilitated organs, restore the lost appetite, and produce tranquil rest and sweet repose. We highly approve of the "Doctor's theory" of treating diseases, which certainly is safe and effectual, and saves the afflicted a great trial.—*Daily Chronicle*.
