

The Handy Case.

Gov. Porter's calculations driven to the wall!!

The case of George Handy, D. M. Broadhead and Joseph Solms, charged with a conspiracy to procure legislation by corrupt means, came before Judge Barton on Thursday last.

Mr. Johnson, the Attorney General, in order to probe the matter to the bottom, subpoenaed, among others, those Federal editors who have been so unsparing in their charges of lechery.

The following is the testimony of H. Montgomery.

H. Montgomery, affirmed—I am editor of the Harrisburg Chronicle. I have published articles in relation to the so called \$99,000 affair—BUT HAVE NO KNOWLEDGE OF IT.

By his own mouth has Montgomery proved himself a liar of the deepest dye!! HE SWEARS before a legal tribunal that he knows nothing of the transaction; but in his fifth column tells a different tale!

Richard's testified as follows:—John S. Richards, sworn—I am editor of the Berks and Schuylkill Journal, published at Reading—late last summer I published an article relating to the \$99,000 transactions—containing facts in relation to bribery, &c.

The Attorney General wanted to know upon what authority he published the article.

Objected to. Attorney General only wanted to get at the authors of the information.

Judge.—He can state any facts, but no hearsay information.

All the knowledge I got was from others—KNOW NOTHING MYSELF.

Attorney General asked names of informants.

Objected to.

Thus it will be seen that those who were foremost in their war upon the Executive, in their editorial capacity, know nothing of the transaction in their capacity as WITNESSES! Cut upon such base and dastardly knaves! Let their names be enrolled in the catalogue of CONVICTED CRIMINALS!

More anon.—Signal.

Eightfold if True.

From our private correspondent at Providence, we learn the following is the plan of arrangement for the coming week in that city.

The suffrage Governor and members of the Legislature take their seats and sabbath of office on Tuesday, and commence legislative action.

The King Charles members and governor, under their constitution commence proceedings on Wednesday, and then follow the fighting, if any is attempted.

The suffrage men are determined to keep possession of the Hall of Legislation, if they can get into it, and immediately demand the keys of the arsenal and all other State property.

If refused, they will resort to all means in their power to obtain them, and if finally unsuccessful, will retain possession of the Legislative Hall.

No forcible measures are to be commenced by the suffrage party, but if one drop of blood is shed by any of their opponents, by the use of the State arms or other weapons of attack, the plan of the suffrage men is to retaliate by the use of torch, and thus render Providence a second Moscow, in less time than we are writing about it.—The King Charles folks, who own the real estate that entitle them under their constitution to the right of suffrage will thus, in an instant, be deprived of their possession, and the suffrage men be revenged for the wrongs inflicted upon them, by the destruction of that property that has secured to their opponents the right to oppress them, under the old constitution, which they have endeavored to abolish.—N. Y. Herald.

Troops for Rhode Island.

The steam boat Georgia yesterday brought up from Old Point Comfort two companies of United States Artillery, numbering about one hundred and fifty men.

Writing our Papers.—The New York Sun says:—A large number of suits are now pending against persons, for violations of the post office law, in writing on newspapers sent by mail.

Whiskey.—Small sales of Whiskey continue to be made at 18 1/2 cts. for hhd. and 20 cts. for hds. The wagon price of hds. is 16 cts. exclusive of the barrel.

SEVERE SENTENCE.

Judge Kent on Tuesday sentenced young Cook, of Brooklyn, to the state prison for 21 years. Cook it may be remembered, was tried for the murder of master Phelps, but acquitted for the want of sufficient evidence.

To Our Readers.—It is not often we have any thing to say upon the subject of medicine, but from the experience we have had in witnessing the numerous cures performed by Brandreth's Vegetable Universal Pills, we cannot do less than recommend them to the special notice of the public.

In removing pulmonary affections, asthma, and all disorders of the lungs, they are the most powerful remedy ever yet found, and the relief they afford, even in the last stage of consumption, is without a parallel.

Those in advanced life, who feel the consequence of youthful excess, will find themselves restored to health and strength, and all those melancholy symptoms removed, which are the general effects of such causes.—Alexander's Weekly Messenger.

Cold Settled on the Lungs.

Is a very common complaint, and can immediately be removed by Dr. Duncan's Expectant Remedy. This disease produces much suffering and distress, and finally becomes alarming on account of the threatening severity. Physicians are sent for, and medicine prescribed, but to no effect, when they at once pronounce the lungs to be entirely gone, and the case hopeless; that the patient must die of CONSUMPTION. In this alarming situation hundreds are left under the mistaken idea of their disease (to be Consumption?) when it is nothing more than a "Cold settled on the lungs," when the patient is thus neglected until the lungs do actually become diseased. Why is it that so many (pronounced) hopeless cases have been restored to perfect health? The reason is very plain and obvious. They commenced using Dr. Duncan's Expectant Remedy, and when the lungs were not entirely gone, they finally recovered. A fair trial of this Medicine will convince all of this fact.

A NATURAL REMEDY.

Suited to our constitutions, and competent to cure every curable disease, will be found in WRIGHT'S INDIAN VEGETABLE PILLS.

THESE extraordinary pills are composed of plants which grow spontaneously on our own soil, and are therefore better adapted to our constitutions than any medicine concocted from foreign drugs. However well they may be tolerated, and as the INDIAN VEGETABLE PILLS are found upon the spot, and the human body is in truth subject to all our diseases, viz: corrupt humors, and that said medicine cures this disease, on natural principles by cleansing and purifying the body; it will be manifest that if the constitution be not entirely exhausted, a person may use in their case, according to direction, a liberal quantity of these pills, and drive out of every pore from the body, the Indian Vegetable Pills will be found one of the best, if not the very best medicine in the world for curing out this grand purifying principle, because they expel from the body all morbid and corrupt humors (two cases or more) in six days and a severe manner; and while they every day give ease and pleasure, a course of every name is rapidly driven from the body.

The above named Indian Vegetable Pills have been three years before the American public; and we can now say without fear of contradiction, that of all the various medicines which have heretofore been popular not one has given such a permanent hold upon the affections of the people. Not only do all who use it invariably experience relief, and recommend it to the strongest terms, but it has effected some of the most astonishing cures ever performed by medicine. For sale by
