

Money Market. Money matters are without change in our city. Although the case is not so bad as it was some time ago, capitalists are puzzled to know what to do with their means. The banks have thousands in deposit, and cannot even dispose with advantage of the same at their own immediate command. Specie was never more abundant among them. All this indicates inactive trade. In short, the Fall business will not amount to even one third of an ordinary season.

A hope however is indulged of decided improvement in the Spring. The tone of feeling and opinion among our merchants and traders is certainly much more cheerful. But so great has been the suffering, so immense the losses, that we cannot expect a decided improvement in any other than a slow and gradual way. The case is similar in England. At our last accounts the Bank of England had between 9 and 10,000,000 of bullion in its vaults, and money could be procured readily on good security at 3 per cent. per annum. Of course trade must have been dull, or such an immense amount of capital would not have been in the market. The U. S. it should be remembered is a great customer to England, and our failure to buy as heretofore, because of the distress and inactivity at home, has not been without its influence there. A little longer however, and we indulge a hope a confident hope, that both countries will start forward again in the career of prosperity.—*Beck, Rep.*

PAIXAN GUNNERY.—A splendid exhibition of the powers of the Paixhan gun, took place at Castle Garden, New York, on Tuesday last. A target was moored on the bay, the gun, carrying a 120 pound shot, fired with a noise more like the bursting of a volcano than the discharge of a cannon—a cloud of smoke enveloped the fort, and the immense mass of iron went bounding along on the water, striking it in one case six times, at each time throwing up a mass of foam as big as a house; a succession of brilliant pyramids.

MEXICO.—The Picayune has received a letter from Mexico which states that Congress has reported two constitutions or forms of government—both strictly federal. The letter says: "If Santa Ana approves the one adopted there is an end of him and of war on Texas; if he does approve, there will be trouble enough here. I think he will be overcome. If Santa Ana retains power, which is rather more than doubtful, there will be a large army—15,000 at least—sent to Texas in the fall. You may rely upon it. The invasion will be both by sea and land."

A TEXT FOR TEMPERANCE PREACHERS.—The following from Jer. 35 ch., 5, 6, and 8 vs., proves that the temperance pledge, which has wrought such miraculous results in modern times, was conceived in the days of primitive Christianity, and is therefore far from being a new invention.

"And I sat before the sons of the house of the Rechabites pots full of wine and cups, and I said unto them, drink ye wine; for Jonadab, the son of Rechabab our father, commanded us, saying, ye shall drink no wine; neither you nor your sons forever." "Thus have we obeyed the voice of Jonadab, the son Rechabab our father, in all that he hath charged us, to drink no wine all our days, we, our wives, our sons, nor our daughters."

BROADWAY.—So great is the demand for stores in Broadway, that the proprietors generally are appropriating the lower stories of the dwelling houses to this purpose, and we have no doubt but four-fifths of the houses between the Battery and Bleecker street will have their basement stories converted to this purpose before the expiration of two years. We have noticed some of the very finest buildings of late, undergoing this alteration.—*N. Y. Sun.*

PHILADELPHIA MARKET. UNITED STATES GAZETTE, Oct. 18, 1842. GRAIN.—The supplies of wheat are moderate, but the market to-day is heavy; it is held, however, at about late prices, viz: 85 a 90c for Southern, as in quality, and 94 a 97c per bushel for prime Penna. Southern Rye 50c; Penna. scarce at 58 a 60c per bushel. Corn is stated at 51 a 52c for Southern flat yellow, and 50 a 51c for white do. per bushel. Southern Oats are not quite so active as last week, the price to-day is 23 a 24c per bu.

ORIGIN OF EARLY DISEASE, AND THE MEANS OF CURE.—In the year 1795, LeRoy clearly demonstrated that every disease originated from impure or undigested particles becoming mixed with the blood and fluids. And also, that to cure every disease, it was only requested to open the natural outlets of the body, and allow them to remain open, by which means the blood and other fluids would release themselves from the undigested and impure particles, and a state of health would be certain to ensue.

The Royal Institute of France awarded to him, for this discovery, the Gold Medal of the Institute. This is a historical fact.

All which the *Brandreth Vegetable Universal Pills* profess to do is, to carry out this principle, and experience has fully established them capable of it. When, therefore, a bad state of health exists in the body, all that has to be done is to continue to purge it effectually with them, and the more virulent the disease, the more powerful must be the dose.

The *Brandreth Pills* are made entirely of Vegetable Extracts, known by long experience to be perfectly innocent, and yet of more power as a purgative, or a cleanser of the alimentary canal, than any other medicine. Their effect on the system is so easy that it is a remarkable fact the same dose may be given to an infant or adult, without the possibility of doing any injury—but on the contrary good. Therefore, in costiveness, either habitual or otherwise, and in Bilious Fevers, and all bilious affections, they are of greatest possible benefit.

Purchase in Sunbury, of H. B. Masser, and the agents published in another part of this paper.

THE POST OFFICE.—It is currently reported that Richard Vaux is, on the 1st proximo, to take charge of the Post Office in this city. The appointed is to satisfy himself for the defeat he experienced in attempting to run against our chief magistrate for Mayor. This attempt cost him, it is said, about three thousand dollars, which he cannot get back as Recorder, but may, as Postmaster provided he is not rejected.—*Phil. Chronicle.*

Liver Complaint. THIS disease is discovered by a fixed obtuse pain in the right side under the short ribs, attended with heat, uneasiness about the pit of the stomach; there is in the right side also a distention; the patient loses his appetite, and becomes sick and troubled with vomiting. The tongue becomes rough and black, the countenance changes to a pale or citron color, or yellow like those afflicted with jaundice, difficulty of breathing, disturbed rest, attended with a dry cough, difficulty of laying on the left side, the body becomes weak, and finally the disease terminates into an her of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlick's Compound Strengthening Tonic and German Apert Pills, if taken at the commencement of this disease, will check it, and by continuing the use of the medicine a few weeks, a perfect cure will be performed. Thousands can testify to this fact.

Certificates of many persons may daily be seen of the efficacy of this invaluable medicine, by applying at the Medical Office, No. 19, NORTH EIGHTH street, Philadelphia.
