

From the New York Tribune.
Distress in Great Britain.

The Evening Post—which has never a tear shed for AMERICAN manufactures and artisans thrown utterly out of employment by the pressure of unequal Foreign competition—which never raises its voice against the depression of AMERICAN production (especially Agricultural) by Foreign restrictions, or at least proposes no efficient opposition to them—is greatly distressed at the depression of British Manufacturers consequent on our new Protective Tariff. To its waitings on this head we reply:

1. For every spindle or loom stopped in Great Britain or elsewhere by our Tariff one is set in motion here. Now we have no objection to giving employment to British Laborers if our own were well employed, well paid and well fed. But such is notoriously not the fact. We have thousands of honest, capable, deserving workmen and women who have even yet no employment, although the Tariff has set to work two hundred thousand who but for it would now be finishing in constrained illness. If we wish to be charitable to other Nations in this respect, we must first so adjust our policy as to give ample and advantageous employment to all our own people, and then we shall be able to buy liberally from others and will buy of their products.

2. It is cheaper for us to make our Carpets, &c. here than to have them made in England, no matter what the relative money price may be. It will take no more men to weave our carpets, cloths, &c. here than in England, while here it will be far easier for us to feed and pay them. There were lately thousands of men manufacturing for the American market in Europe whose whole recompense therefore did not amount to a peck of wheat for a day's labor, (many worked for less than half a peck.) Under a good Protective Tariff, these men will be attracted here to do this same work, and will here receive from half a bushel to a bushel and a half of wheat for every day's labor, because our price of labor, under a steady Tariff, will command so much. Here these laborers and their families receive not merely bread enough to keep the breath of life in their bodies, but good clothing, houses, schooling, &c. for their labor, with a share in the enjoyments and comforts of life. At the same time we shall get our Cloths, &c. cheaper than before—possibly not for fewer dollars, but for less produce, because the cost of transporting and shipping it to another continent will be saved, and divided between the producers of Cloths and Food respectively. Then our Fruits, Vegetables, &c. &c. which our English cloth-makers cannot afford to eat, will bear a good price, finding a ready market with our manufacturers, who now in England must go without them. Protection to American Manufacturers is thus the cause of universal beneficence. It benefits directly our own people, and ultimately those who now manufacture for us in foreign countries, though these may for a time suffer inconvenience from it, while the gradual transfer of Manufactures from Europe to this country is in progress. The British Landed Aristocracy, Church Establishment and other non-producers may suffer some diminution of incomes from this policy, but not the same mass of the People.

DIXON AND HIS FEAT.—The Union Club offer to wager \$5,000 that G. W. Dixon will walk on an elevated platform, 15 feet in length, for 60 consecutive hours, without sleep or rest, and \$1,000 that he will walk 100 miles in less time than any other man in this country or Europe. Dixon is great on his feet, and will, when he visits England create quite as much sensation as Dickens did here. N. Y. Tribune.

An Alabama editor makes the following apology for a lack of editorial:

"We have come to the conclusion that a good excuse is better than none. It not only bears of the same opinion, they will forgive the barrenness of our editorial columns to-day, inasmuch as Sal (such is the endearing title of our letter half) has the scissors. The babies must have shirts, and Sal won't cut out shirts with a handsaw, no way it can be fixed."

THE TRAITOR LEWIS.—The vile conduct of the traitor Lewis, in betraying Col. Cook's party of the Santa Fe Expedition into the hands of the Mexicans at Anton Chico, in September, 1841, by his base lies and hypocrisy, pleading his faith, as a brother mason, to Col. C. that what he told him was true, will be remembered by all of our readers, who read Kendall's interesting sketches. An official publication by the Texas Lodges, addressed to the "Fraternity of Free and Accepted Masons throughout the world," hands the unworthy man down to all Masons in a manner suited to his infamous acts.—Richmond Compiler.

BALTIMORE MARKET.
Office of the BALTIMORE AMERICAN, Nov. 28.

FLOUR.—The demand for Howard street continues quite limited, without any change in price. We note a sale of 200 barrels good mixed standard brands from store this morning, at \$4 12 1/2. The receipt price continues at \$4.

A small sale of City Mills Flour to-day at \$4 12 1/2. Holders generally ask \$4 25, but we hear of no transactions above \$4 12 1/2.

Susquehanna Flour is held at \$4 25.

GRAIN.—The price of Wheats tends upwards in consequence of the smallness of the supplies, and the opinion of the freezing of the rivers and canals. We note sales to-day of a lot of Penna. red at 90 cts.; of Virginia red at 90 cts., and of a lot of white Wheat, quality fair, at 95 cts. We quote fair to strictly prime reds at 75 a 90 cts., and inferior at 50 a 70 cts., as in quality. Sales of white Corn at 42 cts., and of yellow at 43 cts. We quote Md. Rye at 45 a 50 cts. Sales of Oats at 21 a 23 cts.

WHISKEY.—The market to-day is more firm. Small sales to-day at 22 cts. for blads.—now held at 22 1/2 cts., at 23 cts. for blads.

PURGATION IS BLOODLETTING.—All parts of the blood are not with equal ease supplied nor with equal ease discharged from the system. The former of these positions is well illustrated by comparing the effects of bloodletting with those of purgatives. We recover from the effects of many times the quantity discharged by the latter means, in half the time required in the case of bloodletting; because by the one it is chiefly the watery part of the blood which is drained off; by the other, along with this, the more essential parts also. While purgation lessens the quantity of blood, it leaves what remains richer. Thus the crassamentum oxygen is left, which is indeed the life of the blood, the watery part of the blood being only that which is discharged by purgatives. Think of this, you whose constitutions are inclined to plethora, and in time purge with that most innocent of all purgatives, the far famed Brandeth's Vegetable Universal Pills. They are known to act on every part of the body; being taken up by chyle they pass into the blood, which they purify; and it should be remembered that they remove only those watery parts from the blood which were of inflammation. Nothing is equal to ridding the vitiated humors with a vegetable medicine of this kind, which eighty four years have proved never to do injury, but always good.

Hathaway's COOKING STOVE.
I HAVE now in my kitchen one of HATHAWAY'S PATENT HOT AIR COOKING STOVES, and take pleasure in recommending it to the public as incomparable to the best apparatus for cooking that I have any knowledge of. The oven is at least twice as large as any other, in proportion to the size of the stove, and is superior to any oven for roasting, and baking bread, pies, biscuits, &c., and I do not hesitate to give my opinion, that Mr. Hathaway's Stove will do three times the amount of cooking, do it better and in less time, and with less fuel and labor, than any other stove of equal dimensions. JOHN HAUS, December 3d, 1842.
