

ARRIVAL OF THE STEAMSHIP HIBERNIA.

Sixteen Days Later from Europe. The steamship HIBERNIA, Capt. Jenkins, arrived at Boston on Thursday evening, in thirteen days from Liverpool, with London papers to the morning of the 4th inst., expressed to Liverpool by Willmer Smith.

The news is of considerable importance.

Spain has been revolutionized, and Espartero is fugitive in Portugal. Narvaez is now Lieutenant General, and the Duke of Baylen Guardian to a young Queen. This almost bloodless Revolution has been promoted, doubtless, by the intrigues of the gold of France. Espartero was known to cling to a Commercial Treaty with England, which precipitated his downfall. It is supposed that there is an understanding between Louis Philippe and the ex-Queen Christina, by virtue of which the King's youngest son, the Duc d'Aleale, will marry the young Queen, and thus re-constitute the alliance of France and Spain. Meanwhile the Government is penniless, the people famished, and the whole country in a wretched condition.

GREAT BRITAIN is more prosperous and her industry better employed than for years past.—The manufacturing Districts are in the main busy and tranquil, except that the Anti-Corn Law agitation pressed with great vigor. There is an active demand for Cotton Goods for the China market. No sign in Money matters. Cotton is firm at our various quotations, although the stock on hand is enormous—no less than One Million bales, or 300,000 more than it was a year ago. The Merchants are petitioning for a drawback on exported Cotton. The speculation in Grain had subsided, but a not untimely rain commenced on the 2d inst., it was still falling when the Hibernia left.—This reports and delays the Wheat harvest, and endangers the crop. The Potato and Turnip crops will be very large.

The oppression of the Corn Laws is evidently doing ground. Mr. John Bright, a leading member of the League, has been elected to Parliament in the City of Durham, beating Purvis, Conservative, by 188 to 410 votes.

IN IRELAND, the progress of Repeal is still onward. O'Connell continues to address immense assemblies of enthusiastic Repealers, and to incite the most implicit obedience to the laws. Thousands are enrolled in the Repeal ranks daily, and the fund is swelled by liberal contributions from every quarter. Meantime the Cabinet is divided and perplexed. They have crowded 35,000 troops into Ireland, and can find nothing for them to do. The timate triumph of Ireland is certain.

IN WALES the outrages continue. From FRANCE and GERMANY there is very little news.

INDIA is tranquil, and British conquest of Scinde complete. A handsome revenue and great commercial advantages are expected therefrom. Doat (almond) has resumed the government of Cabul, it not with the full concurrence of the Chiefs, here are apprehensions of difficulty at Lahore, for the French generals are required to leave the Sikh's Court. There has been a dreadful storm in the Bay of Bengal and on the Coast of Comoranda a Monsoon, and many vessels lost.

From CHINA, there is little of moment. American ships are busy smuggling Opium, and some British are trading in defiance of the authorities. Henry Pottinger is sick, or has been.

BRITISH PARLIAMENT.—A fight, one of the most spirited of the season, took place in the House of Commons on the 27th. The principal combatants were Lord John Russell, Sir Robert Peel, Lord Palmerston, and Stanley. The attack was commenced by Lord John, in a bitter and sarcastic vein, who reviewed the difficulties of Ministers and their position, sneered at the measures they had been obliged to abandon, in consequence of the hostility out of doors, and in despite of the powerful majority at their back; spoke of their financial embarrassments, as contrasted with the superior credit for which they gave themselves credit in such matters when in opposition; dwelt pointedly upon their difficulties in Ireland, and counselled them to enter and wiser proceedings. Sir Robert Peel's reply, like every thing that falls from him, was able, but it wanted the freshness and vigor of his more successful efforts; he did not parry the thrusts of his assailants with the pointed dexterity with which they were made, and he seemed opposed with his position. In all the requisites of a mere party speech, the happiest efforts of the evening were Lord Palmerston's. He spoke contemptuously of Ministers and their policy in its domestic, foreign, and commercial phases, and predicted their early downfall. Lord Stanley, in a vigorous reply, terminated the interest of the discussion.—The debate, confined as it was to the four ablest men in the House, as well as the most accomplished and powerful speakers, has necessarily excited much interest, and the partisans of both parties are loud in praise of the efforts of their respective favorites. The debate presents the case of the Ins and Outs of two years. Its perusal will remind many of the Scotch member's declaration—"I have heard many speeches," said he, "which changed my opinion, but never one which changed my vote."

MORE DEPREDACTIONS ON THE FRONTIER.—The St. Louis papers of the 10th have letters from the Missouri border showing that the Indians, proceeding by the example of the Texas marauding parties, have commenced robbing the whites, having stolen the horses of a trading caravan. The Texans, immediately after their release by Capt. Cooke, allied again and united with their friends, and at present number 180 strong. They are well armed and prepared for almost any emergency.

A Fatal Deed.—A Spanish fisherman, name unknown, was found in the swamp near New Orleans, in a dying state, on the 8th inst. By the side of the unfortunate victim stood his murderer—an empty rum bottle.

Reciprocity.—The "Committee" of New York, gave Charles Dickens a bill. He has nobly given them a shot in return.

BALTIMORE MARKET.

Office of the BALTIMORE AMERICAN, August 21, FLOUR.—Sales to-day of about 2500 bbls. City Mills Flour at \$4 87 1/2. That price is now generally refused.

Sales of small parcels of Ohio Flour at \$4 75. GRAIN.—The supplies of Wheat have been very small to-day, and in consequence of the scarcity the few sales making are two or three cents higher than the same qualities would have brought last week. We quote fair good to prime reds at 95 a 100 cts., and ordinary to good at 80 a 95 cts. There have been no lots of strictly prime reds at market. A sale of a lot of prime white wheat at 105 cts. Sales of white Corn at 48 a 50 cts., and yellow at 50 a 51 cts. Md. Rye is worth 52 cts. Sales of Oats at 23 a 24 cts.

WHISKEY.—The demand is limited and sales very light. We quote bbls. at 14 cts. and bbls. at 25 a 25 1/2 cts.

THE BRANDRETH PILLS.—Actions at law, penalties, imprisonments and disgrace have not hitherto succeeded in preventing the endeavors of disreputable persons to deceive the public with miserable counterfeits of that popular and universal approved medicine, the Brandreth Pills.

Such has become the impudence of these counterfeiters, that they carry their piracy from house to house, using all their endeavors to rob the poor and needy.

In order, therefore, to secure the medicine in its purity, the public will observe that each box has three of my fac-simile signatures thereon—one upon the top of the box, one upon the side, and one upon the bottom of said box—each of which must also correspond with those labels on the certificate of Agency held by every duly authorized Agent, by which they will be fully secured.

Let it be known that the Pills sold for Brandreth's, without three fac-simile signatures of my name being upon the box, may be considered counterfeit, and be very careful to observe that the signature of "Brandreth" is B. not W., or any other letter than B.

Purchase of H. B. Masser, Sunbury, or of Agents published in another part of this paper.
